Leah says

I use this for giving my tutoring students extra practice between sessions, and it is by far the most effective set of workbooks I have come across. I use these for more practice in conjunction with the grade level reading sets. If you don't know what it is, check out the Kumon method. It really has amazing results if you are committed enough to stick with it. A little bit of work every day tailored to each kid's ability is all it takes.
