THE HARDY BOYS®

A VACATION IN PARIS TURNS INTO AN ATTEMPT TO SAVE THE CITY

Frank and Joe Hardy can't resist an invitation to volunteer with the crew for a soccer match in Paris. They will be working at the same stadium where the World Cup was held a few years ago! From the moment the Hardys arrive, though, strange things start happening. Bleachers collapse during practice, fireworks are tampered with, and the stadium lighting system is sabotaged. The stadium -- and soon most of Paris -- is under attack.

Despite the extreme danger that lies directly in their path, the Hardys are hot on the case. Using spy gear like night-vision goggles and digital voice changers, can Frank and Joe trap the mastermind behind these crimes?

Title: Passport to Danger (Hardy Boys Series #179)

Author: Franklin W. Dixon

Publisher: Simon & Schuster Children's Publishing, 160 pg, 2003

Format: Juvenile fiction (series fiction)

Intended audience: Children, ages 8 to 12

Description: Frank and Joe Hardy are brothers. They may look different, one being taller with dark hair, and the other being shorter with blond hair and a stronger build, but sure enough they are brothers. They are in Paris, volunteering on the American soccer team's equipment team. Their father, Fenton Hardy, is one of the most renowned private detectives in America and is also in Paris attending a top secret symposium. When things start to go wrong at the stadium, when accidents don't seem like just accidents anymore, Frank and Joe put together pieces of the puzzle to find out what's really going on.

Personal review: This was my first time reading a Hardy Boys mystery and I have to say that it was actually pretty good. I like series books because the books have a similar writing style to them. I can definitely see how young readers, especially boys, can relate to the characters of Frank and Joe. These two characters are like role models to younger readers and they can look up to them because they are good people that are trying to figure out why things keep on going wrong. There is just enough suspense and mystery to keep the reader engaged and perplexed at the same time.

Citation of two critical reviews:

Children's Literature reviews calls this book a sleuthing mystery. This review mirrors the excitement and mystery of the story and engages readers to want to read the book and follow the footsteps of the Hardy Boys to figure out why things are happening. This book will encourage readers to think and use their brain to figure out the mystery.

School Library Journal's review also calls this a book that will engage young readers and introduce them to the mystery genre. It also calls this a strong entry in the Hardy Boys series.

Theshanster says

Not bad considering I borrowed it for free from the library.

Seema ♥Nerdgirl♥ says

Loved it!
