Tempt Remy Blake

They say age is nothing but a number.

Lucas Rockwell isn't just ten years younger than me, he's my deceased husband's son.

Tainted by secrets, everything about us is wrong and forbidden.

Like fire and gasoline, we're an explosion waiting to happen.

We're tempting fate with every touch.

Sybil aka Lala says

I've read many 'step' romances, but I've never read it quite like this before...

We often see book where the innocent and naïve girl and the older man but the first thing that attracted me to THIS book in an ever expanding sea of books to read was the reversal of roles. I loved the idea of an older woman and a younger guy; however that was the thing I liked least about this book.

I got myself ready for a pretty typical read but that is not what I got at all. I read the first page and I was hooked. I literally only put this book down one time to gush to the author. Revelations, secrets, twists and underwear was spilled all over the place and that was only the first four chapters. Remy Blake laid the ground work wonderfully with questions I needed answers for and that kept me reading.

While Charlotte was kind and down to earth, Lucas came off as a jerk but as more of his personality was revealed both of these characters were endearing, believable and relatable. I became totally invested in their romance. Lots of times (almost always) my excitement over a book ends with the kind of insta-lust, immediate connection that was found in this book but these authors set an unrelenting pace of angst, uncertainty and sexual tension that I'm addicted to. It made for some delicious grabby action when control snapped and lines were crossed.

So the older woman/ younger guy thing? Yeah, I loved it – but I loved everything else about it more. I absolutely recommend this entertaining and exciting debut by Remy Blake.

Melanie (mells_view) says

Pleasantly surprised!

Ok so I'll admit I was hesitant. As a mom to two boys, I wasn't sure how I felt about a step-mom taboo romance. Luckily I gave it an open-minded chance anyway and the circumstances surrounding their relationship made it way less taboo than you'd expect.

This story was quick, smutty, hot and steamy. It even had a bit of an interesting side plot that was also the main angst between the couple.

All in all I will say I'm pleasantly surprised with how much I enjoyed this one. The writing was great, and

felt seamless even though there are two authors. I can't wait to see what else comes from Remy Blake.

Kate Hastings says

What a debut from the dynamic duo that is Remy Blake!

This short, steamy & taboo erotic romance read delivered exactly what you'd expect from an author that had been writing this genre for years (and individually, I suspect they may have been.)

So, the fact that it was their debut is a not only a testament to their individual skill, but clearly shows just how compatible their writing styles are.

Charlie & Lucas are scorching together, their chemistry undeniable & irresistible. Their story provides us with heat, passion & a few twists and turns. Thoroughly entertaining.

The story was a new-ish twist on an old plot (age-gap lovers) that is currently gaining popularity & I've been reading a little more of recently. With the older lover being a female & the younger lover being the male, it makes for a nice change up. Add in another taboo component & it ratchets the heat factor up higher!

18yr old boys, I have to admit, I'm still not sure about... but when I read a book like this (age-gap lovers), if it's well written and the character is mature & relatable, his age becomes irrelevant in my head. I was able to do that with this read easily and I'm not feeling all "dirty old perv" about getting all hot and bothered about an 18yr old boy.

Congrats Remy Blake on this awesome debut, and I'm looking forward to much more smuttily delicious goodness ahead.

V💜Greedy~Thirst~For~Forbidden🖤 says

I was curious about this duo authors (female/male) and I must say this was a nice reading. Usually short stories are hard to get into with so little time for characters to develop, but the authors did a good job. Charlotte and Lucas story is told by dual POV and they're both likeable and good together, the spark and attraction between them can be seen from the start and intensifies as the story continues. If you're looking for a good short story with an HEA read confidently.

Jo - *.★Reading Is My Bliss★.*** says**

3.5 stars

A hot & spicy short story that I enjoyed indulging in :)

On the day of his father's funeral, the last thing Lucas expected was to find the woman of his dreams. She is beautiful, sexy and tempting. She is ten years older than he is and she is now his father's widow. His step-mother if you want to get technical about it.

Charlotte had never met her step son before and she finds herself completely in lust with him. She knows this is wrong, her dead husband is barely in the ground and she is having naughty thoughts about his son.

Not everything is at it seems though, there is a lot that Lucas didn't know about his father and the truth will shock him. Charlotte has lived a very different life that what Lucas thinks ad maybe this explains why she is so attracted to Lucas.

Would it really be so bad to have just one little taste of each other.... but is one taste ever enough?

Barbara says

I am very glad I decided to give this new author a try! Remy Blake has written an erotic love story with a definite twist for two. Lies destroy dreams and money doesn't always fix everything; this story takes those age old sayings to new heights.

Tempt is a very erotic love story. While in some ways it doesn't follow "traditional lines" it most definitely will have your toes curling and heart fluttering. I highly recommend one-clicking Tempt and this reader will definitely be looking forward to future works by Remy Blake.

Tanya from Get Your Book On says

There are so many storylines out there where the guy is older that the woman, and step siblings fall for each other, so it's refreshing to read about a little stepmother/cougar action for a change. Although, I have to say I

was a little thrown off by Lucas' age. He's 18 and Charlotte is 28.

Not that the age difference bothered me as such, just that he's a teenager, and he was so sexy and manly in the book. When you compare him to actual boys that age in real life, they're just freaking babies. So honestly, I imagined him a little older while I was reading it.

I was hooked from the start and finished this book in one sitting. It's a quick, entertaining, and super sexy read. If you're searching for a story where the authors don't delve too deeply into character development and complicated plot lines, but pure erotically charged taboo bliss then this is the book for you.

The Book Cave (Devon Farrow) says

This is a debut novel by Remy Blake and I was definitely not disappointed at all!

Charlie is a recently widowed 28 year old just wanting to be free.

Lucas is an 18 year old lonely young man trying to find his place.

These two find each other in the most unconventional way possible. But the attraction is instantaneous and undeniable.

The age difference doesn't matter when the heart is involved. It wants what it wants and nothing can change that.

After some life changing events and secrets are spilled out, will the two ever be the same?

You will have to One-click this book to find out.

I look forward to more from Remy Blake.

Tre Talbot says

5 flaming stars! This is a debut from Remy Blake and we're not disappointed at any point. The fact that Charlie is 10 years older than Lucas doesn't make any difference whatsoever the chemistry between these two is on fire every single second. The way these two find each other is not under normal circumstances but you don't decide who you're attracted to right?. The story started up great and just hotter and sexier as you get further along. It's a quick read and you're not going to want to put it down. Can't wait to read more from this author. This is my unbiased and voluntary review.

Lica Vargas - Amores e Livros says

♥ I loved it!!!!

Patricia Maia (The Bookery Review) says

I must say I love taboo stories. Tempt, could be an amazing 5 stars if it wasn't so short. I mean, this could have been way more developed than it is, but I get it!

It's an **insta-everything**. Its supposed to be a fast read and it is, so it's obvious that there's not much room for a lot of plot. But I wish there was...

10 years separate Lucas and Charlotte. That's not much, but when you look at their ages now, that's a bit. Lucas is 18, almost 19. Charlotte is 28.

They are young, one with a lot of experience, the other with not so many.

Their attraction is evident and their encounters are scorching hot!

I forgot to mention that Charlotte is Luca's stepmother? Yeah she is!

So if you are in a need of a short story, steamy with a lot of sex encounters, this is it!

Karin says

This was a great debut novel. I love a good taboo story.

Charlotte meets the step son she never knew existed on her way to her husbands funeral, and instantly they are both extremely attracted to each other. Let's just say Charlottes marriage wasn't very typical. She's holding secrets against her husband that she knows will destroy his son Lucas but, she knows she has to tell him regardless of the fallout.

This was a very quick, steamy read where the guy was a virgin not the woman which I'm not going to lie, I loved that. A nice change of pace, lol

I voluntarily reviewed a arc of this book
