**The Bitter Seasons** Joshua Guess , Treesong , Patrick Rooney , Courtney Hahn , Aaron Moreland  
Living With the Dead is a serialized story set in real time at the beginning of and during the zombie apocalypse. This volume collects the second six months of the story's first year.

As the group of survivors in Kentucky grows and the compound evolves into a true community, new hope rises. The struggle to live has become a cooperative effort by many to build something new. Though the threat of the zombie hoards and violent marauders is ever-present, the citizens of the compound discover new allies and friends, and new hope. The effort of merely existing fades as the growing community discovers that it is possible to truly live in a world of the dead.

[This volume is also available with the first six month collection, "With Spring Comes The Fall", in "Living With the Dead: Year one", a special edition of the story that collects both six month eBooks into one massive story for a dollar less than buying them individually. Also included in "Year One" are several short stories by the author as well as a behind the scenes essay on the creation of the blog and the work of writing it.

Plus:

"Rollin' in the Deep", a short story by Annetta Ribken

"If you're bitten by zombies, you're off the guest list" by Rachel Ayers

and "Monsters Unmasked: A Living With the Dead Novella" by Lori Whitwam

### **Chrystral Roe says**

#### **Great episode**

This part of the story was so amazing. There are so many ups and downs. You really get to see who these people are. It is really exciting to see them grow and change throughout this book. My only complaint I'd is that there are no good stopping places to allow for things like sleep and chores. On to the next one.

---

### **Darcy Leerhoff says**

I would have given this a 5 star rating if there were a bit of humor in it. Otherwise, excellent read. Very thoughtful and thought provoking. A lot of excitement and drama.

### **Mkittysamom says**

#### **Just Amazing**

For an author to write this story as a blog, and be so creative..to keep the reader hooked and interested is a big deal! I am really digging this series! Each new book brings more revelations about humanity, more interesting problems and creative solutions. Reading about this community thriving in love is refreshing. There are still zombies and violence..but Joshua Guess somehow puts the real world right in there and some of his writing is profound!

---

### **Lucas Hamasaki says**

It was good. I feel like it dragged a little too much, and I don't mean the non-violent parts of it. I like the emotional, human scenes of these books. They make the story feel real. So when I say it dragged too much, I'm not saying I wanted more violence and gore. I'm saying I wanted more development.

That said, there's plenty of development in this book. There could've had more, it was quite dense and it took me a couple days to finish it. I'm still enjoying the series very much and I cannot wait to read more.

---

### **Freedom says**

I flew right thru this book. I really like the series so far.

## **Jeff Colgan says**

### **Awesome**

I am a zombie fan. It doesn't mean I like everything but I do enjoy the stuff that is truly gifted. Like the walking dead, I am legend etc. Although I am a huge fan here the stories always stuck to some sort of similar theme. I ended up with the LwTd series by sheer coincidence as the whole series was free for a day on Amazon so I grabbed them. I wasn't expecting much but for fun I started reading and two books later I can't stop. The story in the way it's told makes me feel apart of it. I feel it's original and spot on in a genre that is heavy with constants. I enjoy reading Joshua Guess's series and have already purchased the patient zero series when I finish these. I just truly feel like I am there, that life took a left turn and this could of been reality. It's hard to explain but as far as zombie books do go, so far these are my favorite. Comics and tv of course go to two but for books, these are easily my favorite and worth such an inexpensive price if you truly want to experience a zombie apocalypse don't miss out here.

## **Rinny Rainwind says**

Amazing again!!!! Joshua Guess has an uncanny way of teaching you sympathy while showing you betrayal. This is book 2 in the series. An excellent second book that keeps the fight going for the survivors. So many things happen. It's a ride on the seat of your pants or the skin of your teeth. Ok gross, not in a Zombie Apocalypse. Anyway, a wonderful continuation of this series. A must read!!

---

## **Jo Cochrane says**

Yet again another read I couldn't put down! I don't know why I've never heard of this author before! His writing is refreshing and easy going! The main character isn't the hero you'd expect but just your every day normal nerd thrown into a world surviving the Fall of the human race!

---

## **Rebecca Trotter says**

If you are a zombie fan, this is a MUST READ series. To me, this is more likely to be how the survivors survive.

---

## **Ashley says**

I love these books! Can't wait to start the third one!
