After finally saving the man she loves, she still can't be with him due to gargoyle rules. He is determined to show his worth the gargoyle way to get them to accept him. A new threat shows up and they must save the elves this time while protecting their people. Many die but they triumph in the end. The new evil sorcerer is only this way because of all the lies he grew up with earning pity from Marabella. She must kill him in order to stop the war but she doesn't want to. When he learns the truth he makes a choice and saves them and his life is spared. The book was great. Loved the storyline and characters.

I've loved reading every single minute of the three books in this series this year and each book has just got better as it's gone along. This third and final book *sob* brings everything and everyone together to give us the grand denouement that is fitting for both Marabella Mercy and Baelen Rath. Both of these authors give us drama, heartbreak and hope in The Princess Must Reign. It was a fantastic read that is more than worthy of the five stars I've given it. I'm not lying when I say this is my favourite series that I've read this year and it's one I will be reading over and over again. I loved it!

Laveda Kasch says

So, I've decided that this trilogy, saga, series, whatever it is...is one of my most favorite of all time! The books totally took me by surprise and I love them. Went out of my comfort reading zone and gambled on the books, because I love me some Jaymin Eve, and I am so very happy I did. I think what I've learned from loving these books so much is that I will step out of my comfort reading zone more often. Hopefully it works out as well as it did in this situation.

Marabella and Baelen *sigh*

I do have to say that I've never wanted a story to be a reverse harem so freaking bad in my life!! The men in this book are what dreams are made of. Even the so called "bad ones". They are always my favorite anyway...

I'm very sad that the saga is over and I wish I could stay in this world with these characters forever. A million thumbsup for these books!

Tiera McMillian says

This was definitely a story of ever afters! I loved how all the characters stories were wrapped up but not all at once just throughout the story! I was incredibly happy with how this turned out. I thought for quite a bit that maybe Grayson was going to have a spin off series.

Marabella finally discovers what the counsel is after and she sets out to upset their plans but she is always at

risk because she would do anything for here friends, family, and people. The enemies are lurking and preying upon that weakness. Marbella discovers more allies as she brings Endor together. It was just really good. Its hard when there is ambiguous bad people, people who are only bad because they have been lied to and manipulated into it. I loved all 3 books and any HEA's that came along the way.

I have already downloaded more series by this author and cant wait to try them out!

I stopped reading after it became so cliche and just weird. I'm almost halfway, thought I'd stop and read something else and come back to this after. BUT, I still couldn't get myself to pick up where I left off. So I'll shelve it as DNF for now. Just disappointing how I liked this on the first book, alright with the second one, and starting to hate it with the third one. Yikes!

Pasting my thoughts below so I'd remember why I DNF this:

October 22, 2018 –

35.0% "Oh boy, now she's going to wear a tiara. I am an inch closer to just drop this book. It is becoming more ridiculous. There are more important issues like saving her original people, which btw, I am now confused since she said she is not an elven."

October 22, 2018 –

29.0% "More insecure drama and Marbella is playing love guro. Again, in a world of elves and gargoyle, they're acting more human. Even uses human language/terminology. I wish it was more creative. And I keep hoping it'll stop making the gargoyles sound inept compared to her."

October 22, 2018 –

20.0% "In the world of elves and gargoyles, they also have divorce? How? Do they file for one? Lol. And why is Marbella so weepy? Yeah, I get the mourning part. Still though. And what's up with the gargoyle male running to her for help with their wives? They couldn't even settle that on their own? How disappointing. And what is up with Marbella running to Cassian? So, now she loves Cassian too because he sacrificed himself?"

The Princess must Reign by Everly Frost and Jaymin Eve a five-star read that will rule many a land. This is the third and final book in the Storm Princess Saga and I am sad to see the Saga ended but I have to be honest and admit I have loved the Saga and am a little glad to see it end on a high instead of being dragged out, something both of these authors have a talent at knowing when to end, that being said I am sad to say goodbye to so many amazingly varied and well written characters. This had me on the edge of my seat, I was sobbing at times and smiling at others, you will know where I was sobbing when you read it I'm sure, never had I had such a gut hatred changed to a such a heart-warming love. This book showed one of the most epic battles and it was sad as well as amazing as I knew who I wanted to win but knew deep in my heart that no matter who won, both sides would lose. This was such a great series that I hope many will read as it shows us that no matter how different people are on the surface, you don't know what is happening underneath. It's

an eye opener that will make many think twice. Thank you both for being amazing people and writers.

This series follows our heroine Marbella Mercy, the storm princess, as she ventures on a journey to prevent world annihilation. When this series started, I was quite hooked onto the world building, the heartstones, the magic, the mythical creatures and the steady romance with Baelan Rath (the classic strong protective Elven warrior). However by the 2nd book/3rd book, I was getting quite annoyed about how everyone loved Marbella, how perfect she was (other than to her enemies) and how everyone follows her extremely easily (without much explanation). In "The Princess Must Reign" - the plot itself became quite straight forward and played out quite simply. Nevertheless, the series was a light and enjoyable read with a happy ending!

One of the BEST Series of 2018!

I don't even know where to start. So much happened in this last installment, and I'm honestly trying to process. This book and series needs no detailed review! Just read this series ASAP!

These authors left no loose ends. I had such a satisfied feeling finishing this book because I knew what the future held for all the characters. Basically, everyone got their version of HEA. I can easily claim this series to be one of the best of 2018! That's mean from every genre not just fantasy romance. Don't let the romance label dissuade you. This is so much more than a romance story. It's about death, friendship, betrayal, loyalty, cruelty, honor, and most importantly, the virtues of mercy. I hope these authors pair up again. They hit this series out of the park.

This was a great end to a really interesting story. I felt a full range of emotion while reading this book, from happiness to rage to sadness to more sadness (Cassian *sobs*)

To be honest though, i don't really like Baelen, and I think that kept me from fully enjoying this last book. Everything else was great though. I love when Marbella uses Cassian's whip.

Running thoughts:

I'm not ready to read this book. I loved Cassian. Probably more than Bae.

Yaaas is she the Queen?!

I want to enjoy this part but I still feel so raw from Cassian, I would have almost preferred a fade to black scene instead.

How am i supposed to move past his death when she runs and sobs on his dead chest? Uggghh.

Ohhh. Awesome.

Part of me is considering skipping to the back of the book to find out how it ends. Maybe because I partly don't want to keep reading. Baelen needs to chill out. He's being so possessive. She survived seven years without him, she's plenty capable. And i miss Cassian. Also I miss Jordan.

Duuude. Can she make males fall in love with her or what.

NOOOOO.

Gross.

If he gets mad about this then I'm done.

Fine, I guess he's okay.

God she's an idiot.

Heart emojis.

If Cassian were alive then everything would be perfect.

Another wonderfully gripping read from Jaymin Eve and Everly Frost, I couldn't put it down. Another amazing page turning adventure.

I've never written a review before but i feel compelled to write one for storm princess saga, even if it's not going to be that good.

Every time i complete a series that i enjoyed reading i feel sad that it had to end because i wanted to keep reading, never wanting it to end or I'm glad that it ended here because extending it would have ruined something good. But I've never felt content like i did after completing storm princess. The ending made me feel at peace in a way that only a few ever have,

Like now everything is as it should be.

Evelyn frost and Jaymin Eve did an amazing job not just with the story but with the epilogue. I've loved how Marbella and Baelen's characters never overpowered each other, there was that perfect balance. I'm also not sure how to end this review I afraid i'll be too abrupt all i can say is that I'll be reading a lot more of these authors work and i hope that everything they write is as good or even better than this. It was a pleasure reading this series.

Supreme Incorruptible, I honor you

This book was nothing short of spectacular. In fact, the entire series was phenomenal and I couldn't seem to get enough. I finished Jaymin Eve's Curse of the Gods series and liked it so much that I wanted to try her other books. The storm princess series definitely didn't disappoint and the 3rd installment (The Princess Must Reign) was the perfect ending. Book three revealed more of the history that was laid in books 1-2 and also helped build the characters a bit more. I was engrossed in this book from beginning to end and completely immersed myself in the world the authors built. If you like fantasy romance, this book (and the entire series) is a must read.

Absolutely amazing series!! Definitely one of my faves this year. I got them on kindle but bc romance fantasies are a bit out of my comfort zone, i was a bit intimidated by the first book and had to force myself to read it. From there, i couldn't put it down. I literally read this series in three days, one after the other, i can't believe the world these authors created. So beautiful and heartbreakingly full of hope.

The redemption of certain characters made them all the more fantastic. Usually you don't get to see the villains be redeemed but two so called evil characters in this series turned out to be beautiful gargoyles, with pure hearts. It shows you can't judge a book, and your past doesn't make your future and that you can change who you are if you want it bad enough. I love that the Bone Lash weapon Cassian never used on Marbella and her miners, that Marbella kept after his death, was finally used to destroy the evil in their world. It's fitting and honourable that it was used to put out evil after Cassian died out of his pure love for Marbella.

The love between Baelen Rath and Marbella Mercy, was so pure and beautiful, i couldn't help but scream when Marbella was nearly forced to betray and give up that love multiple times. They are an example of soulmates. The ultimate connection. Like another reviewer said, this series has males in it that dreams are made of, if it was an RH series, that would have made my year, but Baelen and Marbella's love more than made up for it!

The friendship and family and love and hope and healing in this book just was amazing.
Five star series!
