### **Jamie Leigh says**

#### **Great read**

These three stories were fabulous. I loved the over the top alpha males and the women who knew how to handle them!

---

### **C says**

Love this author. Her books are always safe!

---

### **Colleen says**

#### **Baby, You're Mine**

I have come to really enjoy this author's work. They are quick reads (which is good when you don't have a lot of time) but have heat - lots of heat - and a happily ever after.

It was a great story and I loved the bonus scene at the end.

This story follows Bailey and Wyatt. These two meet in a bar and hit it off straight away. After a night of passion, Bailey leaves before Wyatt wakes up. Wyatt then spends the next month looking for her only to find that she was right under his nose without him realizing.

#### **Baby Steps**

This is book two in the Yeah, Baby series but it can be read without having read book one.

This book is Jade and Lucas's story. These two met for the second time in a lawyer's office after the death of their parents. This is where Jade gets the shock of her life, learning that her mother had married the day before she'd died and that she, Jade, had gained a stepbrother, who she had met previously and not in a sisterly way.

A great short read with plenty of steam factor and its own Happily Ever After. Looking forward to reading the next book.

#### **Baby, Don't Go**

This is the third book in the Yeah, Baby series, but each book can be read on their own, and they each have their own HEA.

I loved these books. Yes, there is instalove but being the books are short, it needs to be. Otherwise, we wouldn't get our HEA.

This book is Jack and Ellison's story. Even though it seems like instalove, it isn't really because they have known each other for a while, we just don't hear the back story.

This author is becoming one of my favorites for quick, steamy reads.

---

## **Megan ~The Never Ending Book Basket says**

Actual Rating: 4.5 Stars

This just might be my favorite of Fiona Davenport's books so far. I couldn't get enough of the story, and from the moment I started reading I was completely hooked in to everything I was reading. This story is over-the-top in the best way, it shows a love that is heated and all feeling, and it will melt your heart again and again the more you read.

I couldn't get enough of what these characters were sharing and the depth that I felt with them. They were engaging, my heart went straight to them, and I felt so much for the reading the story. I have absolutely loved reading every book in the series and I hope that it continues because I can't get enough of the stories! Fiona Davenport's writing style is so beyond easy to sink right into and this author never fails to give a completely fulfilling story every time!!

---

## **Bookloverme says**

Like The Risqué Contracts series, I've read these three stories already and wrote reviews individually.

There's a bonus scene for each story and I cannot not read them They're extended epilogues. Loved it!

Can't wait for more Fiona Davenport's books.

---

## **Dawn says**

Three great stories with Insta-love and Babies!!!

You can't get enough of the three couples we are introduced to (at least I couldn't).

We FIRST met *Wyatt and Bailey* in **Baby, You're Mine – Guy Rule #1**. These two are just too cute and made for a wonderful read. I'm happy Bailey found and created the family she was missing and needed.

NEXT we have *Lucas and Jade* in **Baby Steps – Guy Rule #2**. In this story, I was sadden for Jade. She receives shocking news in the beginning and a very cold reception from Lucas. But it isn't long before these two find the missing piece to their mutual happiness. The insta-love takes a minute to build in this one and when it does it is right on time.

FINALLY, we met *Jack and Ellie* in **Baby, Don't Go – Guy Rule #3**. In the last two stories we had couples establishing their relationships for the first time. But here in Baby, Don't Go, Ellie and Jack have the advantage of having a friendship beforehand (as co-workers and hang out buddies). It's nice you get to see this relationship evolve into a romantic one and you have an Alpha dead set on impregnating his love. These two are great together and it was fun reading along as they become the dynamic couple they are.

If you are looking for three (3) great stories with healthy doses of Domineering Alphas, Insta-Love and Babies; then this is the series for you. **The Yeah, Baby: The Complete Series** was a quick & fun loving read!!!

#### **My new favorite series! Hot! Hot! Hot!**

This series contained alpha males at their best. Loving their women fast and hard and making them love them back. All three stories were intertwined with very little break from the timelines. I loved the consistency of the character's personalities. I will definitely be reading more from this author.

---

### **Danielle Pullen says**

#### **Devoured this series!**

Loved all the novellas in this series! Well written characters with a lot of hot sexy alpha males! Will steam up your kindle!

---

### **Raine says**

#### **Loved it!**

Three stories of arrogant, possessive aloha males who fall insta-in-love and get their women pregnant. What's not to love about this book?

---

### **Samantha says**

#### **Babies.**

This set of books were great. I wasn't so much a fan of the second book but I loved the others. The guys were all possessive and protective as heck. And the girls were usually quiet with a little naughty streak. Super steamy and sweet. Lots of babies.

---

### **Milan says**

This series was good. But it lacked important details (details important to me). I love books, long or short, that allows me to understand the characters as though I knew them or were friends with them in real life. This series didn't off that to me. The storyline of each book was BEYOND AMAZINGLY but to me they weren't meant to be short stories. I feel as though more should be added. Like brief backgrounds on the characters, doesn't have to be much but you know, give me something. Have it happen in the book instead of trying to quickly explain it. But it was enjoyable to read. So the series get 3 stars from me

---

### **Mirka says**

Over the top? Yes. Not too realistic? Sure...But it was a great story to read on a Friday morning while drinking my coffee. I love kids in books so I loved it :D

---

### **Debbie DiFiore says**

#### **Good but...**

I love the instalove, the total over the top heroes, the humor but the sex scenes are just not romantic. Again that is my opinion and I write the reviews for my edification. So I remember really. Now where was I? Oh yes the sex. I admit NA novels aren't my favorite but my friends on Goodreads reviews make me want to read them so I do. And I like the people so much. They are pure fantasy and I love to escape into that world so I skim the sex scenes and just enjoy the crazy antics of this author's heroes. They make me laugh. Will keep reading this author as long as she keeps her heroes faithful.

---

### **Fiona Fog says**

#### **Hot and Steamy**

Insta love and over the top Alpha males, who just know what they want and will do anything to get it.

These women are about to get what they didn't know they needed.

A heat factor that's off the charts hot. If you like your men sexy and who know how to talk dirty then dive in,
