J'ai bien aimé ce manga jusqu'à l'introduction du troisième personnage féminin que j'ai pour ma part trouvé hasardeuse et qui a cassé le rythme du tome... À voir la suite.

This is a manga where a hard working young man who I believe is the protagonist has been working very hard although he does not have the natural talents and abilities of others to try and overcome hardship. Along the way there are interesting characters, female nudity, and some incidental comedy.

Nariyuki Yuiga is a poor boy who is trying to get a scholarship by being an exceptional student. The school administrator makes a deal with him; if he can get two of the school's natural geniuses into their school of choice, he gets the scholarship. The problem of course is that these geniuses are girls he likes, and they want to go to schools that specialize not in the subjects they excel in, but subjects they do poorly in.

I received my copy from the publisher through Edelweiss+.

Unfortunate brainy boy Nariyuki Yuiga agrees to tutor two of his hot girl classmates who are geniuses in exchange for a scholarship to a prestigious school. They're far from geniuses in the subjects in which Yuiga tutors them, but the author wants you to know they're cute. You get nudes to prove it because manga is both a visual and story-driven art form. Anyway, Yuiga is a sweet softboy and helps them earnestly by making them (and his other friends he looks out for) customized study guides. They meet his family and learn how sweet he is because it's never obvious to the oblivious.

Then another hot but dumb jock girl comes along and the principal wants Yuiga to tutor her, too. Despite the school's elite status, there's a shortage of qualified tutors in the area, you see. She hates studying though, so it's a challenge this time. She just wants to swim. But she likes Yuiga, so she sometimes wants to "study."

This is cute. It's also perfect for people who like this kind of thing.
