Seru banget! Usaha mengambil vaksin untuk anak2 kelas E tanpa bantuan Koro sensei. Di sini dikasih lihat kehebatan anak2 kelas E yang digembleng. Juga kemampuan Nagisa yang natural! Seruuuuuuu

Stewart Tame says

Class E takes the fight back to the mysterious mastermind who poisoned their classmates. It turns out that he's someone they all know, but can they stop him before he destroys the antidote they need? Koro Sensei mostly sits this one out, having just barely survived the latest assassination attempt by his students. As always, this series strikes just the right tone between utterly ridiculous and grimly serious.

Dominique "Eerie" Sobieska says

Overall Rating: 8/10 - I enjoyed this series. Original, full of detailed characters. The story is original and very well written. You end up hating and loving Koro-Sensei and understand the emotion each student goes through until the end. Ending is perfect, wouldn't change a thing. I recommend this series. ** Love those covers by the way, simple and perfect fit.

Do I recommend it:

Oh yes! It's super fun, each character is fun, original and maturing as the story progresses. Lots of comic relief and perfect arcs!

through and through thrilling!
THAT CLIFFHANGER THO! NAGISA MY "BOY"

¿Para qué leer hora de la oportunidad?

1. Principalmente por que vamos a ver a un gran villano, lleno de locura, rencor, dolor que va hacer lo inimaginable para torturar a nuestros protagonistas.
2. Es un tomo lleno de acción y estrategias.
3. Vemos una evolución de personajes, no sólo psicologicamente, sino en destrezas de amistad y asesinato

aplicado.

4. Hay momentos muy divertidos.

5. La clave de este tomo es la enseñanza de aprovechar las oportunidades cuando se presentan. Y erradicar nuestros errores del pasado, ya que esos son enseñanzas que podemos usar en el aquí y en el ahora.

6. Otra cosa que me encanto de este tomo es el uso y la critica del poder, el dinero y la droga.

7. El final, es cardíaco

A very different feel to this volume, as we get to see our 3-E (low track) kids engaging in some real action and use some of their assassination skills against some--admittedly silly--bad guys, though one guy likes to dip his gun into food and eat it. (I don't explain 'em, I just tell 'em like I see 'em. Just the facts, m'a'am). A cross-dressing Nagisa is featured in this volume. He's emerging as an interesting character. If you like action, this one is ramped up. I like the character volumes a bit more.

Guys I fkn love and adore this series!

Wow these volumes just keep getting better and better. I actually loled reading this! ?

There's a lot more action now too which is fabuloussssss!

I loved Karma's lil fight scene, he finally got his time to shine. Also, goddammit I'm really starting to like Terasaka now that he's not such an asshole.

Best tankubon yet. Ketrampilan membunuh kelas 3E dihadapkan pada kehidupan nyata.

Nb, tuuuuuh kan.... Karma's back, lebih kuat, lebih baik.

I really enjoyed this volume! It was so much fun, and action packed. Nagisa cross-dressing was awesome, I'm glad that it finally happened.

It's a bummer that I haven't been able to read that much this week because of school (which is a little hectic at the moment). But once everything gets back into the groove, I'll be able to read whenever I can. *thumbs up*

I'm honestly surprised this series has continued to have intriguing storylines. The original premise has developed so well that I can't wait to read the next one. Luckily my wife's a librarian so I have all issues through volume 12!

Man, what a great teacher, and what great students too. They're all awesome.

Also, Takaoka is crazy, with a capital C.

Cody Knepper says

Another great volume of one of my favorite manga. I like how this whole volume took place and was set around the hotel break in, and we even get some more next volume which I'm hyped about. There was some pretty good fights in this volume, like the one where they trick the guy who likes to eat his gun. That was a thought out fight if I've ever seen one. Karma humiliating that guy who always assassinate's with his hands was really funny, good going Karma. But the end had a great twist, the guy who always scratched him self was Takaoka!!!! What, I wasn't expecting that! He also just exploded the antidote do like half the class may die, which I would hate if that happened. I just want Nagisa to DESTROY him next volume. Wonder if we'll hear more about the Grim Reaper person too. Loving this series so far, highly recommend.

Mateen Mahboubi says

A high-stakes volume, this one takes place entirely outside the classroom as our favourite class tries to solve a mystery and leave with their lives! The series is pretty consistent, if each volume wasn't such a quick and easy read, I would have probably given up by now but I'm getting enough from them to continue to see this to the end.
