Laurel Ulen Curtis

**A is for Alpha Male** Laurel Ulen Curtis

*Alternate cover edition for ASIN: B00GM25IAC.*

I'm Haley Whitfield, and I recently had the ingenious idea to enlist my mother, Allison, as my kick\*ss sidekick and set out on a road trip. This road trip wasn't to be just any road trip, but a very special one indeed. An adventure with an acutely specific purpose - to find our other halves. The peanut butter to our jelly. The i to our Phone. The stripper to our pole.

If our romantic desires were a personal ad, they would read something like this:

**\*\* Two sassy women (Ages twenty-seven and forty-nine respectively - Ouch. Okay, ages twenty-seven and thirty - with nineteen years experience - respectively) seeking Alpha Males to love us with zeal and kiss us with skill. Gorgeous face and sexy, tattooed, hard body a must. If you aren't a dangerous bad\*ss with the x-rated skills and virility to match, don't bother. Must be willing to protect us from danger, value our quirkiness, and keep your mouth shut when said quirkiness is what leads to said danger. Momma's boys named Dan Smith need not apply.\*\***

I know. It's a bit wordy. In fact, it would probably cost a fortune. Luckily, we're not ready for the personal ad. We're not that desperate... yet. This is my story.

Warning: Some explicit language and sexual content.

# From Reader Review A is for Alpha Male for online ebook

**Erica says**

**Think Gilmore Girls meet Kristen Ashley.** That's the vibe I got from this book.

---

**Carmen Rae says**

This book is one of pure joy and love.

As soon as I saw the blurb for it I knew I would have to read it as soon as I got my dirty little hands on it and I was so not disappointed. I honestly think everyone around me was considering having me committed after I spent the day hysterically laughing at my kobo and muttering to myself.

So if you have read the blurb you know the basis of the book is that done with dating the losers who are local, mother and daughter set off on a road trip to find the perfect Kristen Ashley Alpha males. They sit down and come up with an alphabetized list of traits they feel embody the perfect KA alpha. As a KA fan I have to admit this alone had me half sold on the book. I mean how can you go wrong if your looking for a man like any one of KA's alphas?

The relationship between Haley and her mum was awesome I can only hope as my daughter matures we can stay that close and I love that the brother was as well written as everyone else even if he did only have a few brief telephone appearances.

I had such a hard time finding the right picture for my idea of Haley as I kept getting hung up on her crazy, unique, strong, wonderful character and I kept coming back to actresses I know who had similar traits so although I don't think she would look like Jennifer Lawrence that was who I was thinking of as her personality as I read the book. She was the sort of girl I would say to my teenage daughter see how she is just nuts and doesn't care or apologise, I hope you grow up to have her strength of character.

There were so many points in this book I laughed out loud and got finger cramps highlighting that it's hard to explain what I loved about this book without just saying EVERYTHING I loved EVERYTHING but I think this gif is probably the best place to start.

Ok I don't want to give away any of the story so I am not going to tell you about Tim McGraw or Danny or how amazing the road trip was but we all need a little eye candy to help us so I will include this picture of Dano (your welcome) enjoy.

So needless to say I loved this book it wasn't my normal smutty read but it didn't lose any points for that mainly because I was too busy laughing my ass off at everything that came out of Haley's mouth. You absolutely have to go read it now with a glass (ok ok a bottle) of wine.

---

### **Joëlle says**

This is a difficult book to rate... until about 75% I have had several times where I just wanted to DNF but something made me keep going.

This is the story of 27 year old Haley and her 49 year old mother Allison. They go on a road trip together to find their own Alpha Males using an alphabetical list of traits based on Kristen Ashley's Alpha Males. Will she find her own Alpha Male using the list or does she just have to open her eyes?

If you don't know Kristen Ashley yet... Give her books a chance! She's an amazing author and I love her books. Therefore I liked the references to her books and Alpha Males.

I initially picked this book as my next read because it was categorized as Funny and I was looking forward to LMAO but, for me personally, there was nothing funny about it!

Also right from the start I was extremely annoyed with Haley calling her mother Allison! To me that is very disrespectful. I really liked the strong bond they have and they really are alike but calling her Allison is just wrong to me!

I'm glad I continued reading because the last quarter was worth it!

At 84% I was doing a little happy dance because one single word made me aware where this book was going and I'm glad I was right. It was a welcome twist in this book.

At the end there was finally a part that made me laugh but it's a little spoiler so skip if you don't want to know ... (view spoiler)

I would have loved to have read Dan's POV here and there to get to know more about his thoughts but it seems book 2 will give those. I'm not sure yet if I will read that book. Book 3 will be Allison's story.

---

### **Sammy ?? says**

4.5 stars if your a crazy fan of KA like me you will really enjoy this book, while following Haley and Allison on their mission to find the perfect KA Alpha Male

---

## **Farah \*Professor Dean's Beauty\* says**

What a Funtastic book!!

A is for Alpha Male is the perfect kinda book that all of us need to read!  
And I'm glad I did :)

This book is sweet, funny, adventurous and has some kick ass writing!!

Well done to Laurel Ulen Curtis for writing this book so well.

This is all about Haley Whitfield, a 27 year old girl who has an idea to take a ultra cool road trip with her 49year old mom to find the perfect "Alpha Male"

You know the ones we read about?  
Specifically in KA books??

So they set out- on the road...  
Destination? Unknown!

Search criteria?  
***Check!***

***A- Alpha Male***

***B- Badass***

***C- Cool name***

***D- Dangerous***

***E- Experienced***

***F- Funny***

***G- Gorgeous***

***H- Hard body***

***I- Intelligent***

***J- Junk***

***K- Kissing Expert***

***L- Loving***

***M- Manly with a motorcycle***

***N- Nickname Giver***

***O- One Woman Man***

*P- Protective*  
*Q- Quiet until there's something to say*  
*R- Romantic*  
*S- Sexy*  
*T- Tattooed*  
*U- Understands the Quirkiness that is us*  
*V- Virile*  
*W- Wonders where we've been all his life*  
*X- X-rated Skills*  
*Y- Young At heart*  
*Z- Zealous about us*

So there you have it!

Along the way...  
They meet some 'wanna be" Alpha males  
Yeah... Pass...

Until Haley meets Dan Smith...  
Danny boy...  
Dan-O...  
Alpha male? Maybe....

Call him what you want but Haley is in for some big surprises with Dan-O and some surprising twists.

*Chicks before dicks*  
*Hos before Bros*  
*Moms before Doms*

The writing is awesome in this book but not tooo much smut, leaving this read on the more YA side but none the less still a fun read!

---

**Christine Alibutud says**

**5 FRIGGIN ALPHA MALE STARS!!!**

Okay this one did not fail to make me laugh!!! Seriously hilarious!!!

This story is about an outrageously funny smartass 27-year-old named Haley Whitfield and her Mamalicious/Mamajamma, still hot as hell at 49, Allison Whitfield. These two partners-in-crime are set out on a ridiculous roadtrip on which they call "Allison and Hayley's Great Adventure (The Kristen Ashley Experience)". And why are they set out on this road trip, you ask? Well... It's because they are out to snatch the perfect alpha male!!!

Pumped up and determined, they pursue this road trip!

**BUT WAIT! Let's not forget their "A-Z List of the Perfect Alpha Male"**

**AND TA-DA!!!! YOUR PERF ALPHA MALE**

So the uber funny and weirdo mother and daughter leave for their road trip. They drive for miles and miles, set out to find their alpha males they read in their favorite Kristen Ashley books!! Let me tell you, their driving moments were one of the best! Just super duper funny!!

But even though they are the craziest mother and daughter on the face of the earth, their relationship with each other is really inspiring!! They were just so sweet and caring to each other. They actually reminded me of my own Mamalicious and I. But srsly, I loved these two girls!

I don't want to go into the further details so as not to spoil all the good stuff!! But.....

HOLY DAN EFFING SMITH (i immediately thought of Chris McHottiePants Evans esp cos of the cap, sorry not sorry)

Anyway, looks like Haley might have found her alpha male? Maybe? HAHAHA READ TO FIND OUT!!!!!!

**And you won't regret the steamy scenes!!!! LIKE Y-U-M**

Over-all, I loved Haley's foul-mouthed but smartass mouth!

And her ridiculousness

I also loved Allison's fun and bubbly personality, even as a 49-year-old mother!

And **THE ALPHA MALE**

AND EVERYTHING ELSE

BUT THEN.....

**PLOT TWIST, PEOPLE!!!!!!!!!!**

HAHAHAHAHHAAAAHAHAHAHA JUST READ IT EVERYONE!!!

Some of my favorite lines:

*If love were a location, it would be a paradoxical mixture of the safest place on earth and the most vulnerable. Like an airplane. It's not quite the safest place on earth, but it's pretty damn safe. But people are seriously scared of it. And when you fall, it's a hell of a long way and the landing is really, really shitty. Same as love.*

*Chicks before dicks.*

*Hos before Bros.*

*Moms before Doms.*

*There in his arms, a place in which I had spent remarkably little time, felt amazingly like home.*

*Like it was right.*

*Like it fit, and it was meant to be.*

*Like it was made just for me.*

*Intimate, present, aware.*

*Perfect.*

Anyway, super duper amazing job Ms. Laurel Ulen Curtis

anyway, off to find my own alpha male

---

## **Duchess Nicole says**

This was cute. Not exactly what I expected but a fun read. Lovers of Kristen Ashley will most definitely get more out of it than people who have never experienced her level of awesome. I'm going to just go out on a limb and assume that this will encourage a few non-believers to give KA's books a shot. And they will likely bow down to Laurel Ulen Curtis for pointing them in the right direction. I applaud her just for that. But she also had a great idea for her characters.

I suppose with three stars, most people will think that I didn't like it, and that's not the case. I was pretty engaged the whole time. I just think my expectations colored my thoughts. With a title like this, I expected the male lead to be more...KA like and...well, more alpha. And this guy was a great guy, but he really wasn't all that alpha. He lets his woman continue on her road trip and date other guys. That's not alpha. That's almost a pushover. Also, the road trip aspect consisted of Alabama and Vegas and that's just about it. I guess I just wanted something different. But I'm still glad I read it. Anyone this big a KA fan is good people ;D

I really, really wanted Allison to get a man as well, but the focus was really just on Haley's love life, with Allison along for the ride. Which I suppose was another expectation that I set for myself and didn't get.

There were a lot of funny moments, and Haley and Danny were a great couple together. I loved how he just sort of rolled with her quirky, goofy behavior and always wanted to make her happy.

There's a bit of a twist that I think most readers will be able to spot from a mile away. Problem is, the twist is never really explained very well. (view spoiler)This part was very glossed over and just felt weird to me...totally under-explored as a plot device.

A few fave quotes, Sharon style:

**\*\* "Of course I wanted to embarrass my children one day. Isn't that why people had kids? Besides free labor."**

**\*\* "God, that was nice. I wanted him to use that finger to touch me other places. Dirty,dirty places. Well, not dirty literally, I'm not dirty or anything. I'm clean. Very clean. illicit places. But illicit. Illicit doesn't sound as good. Whatever. I wanted him to touch me. Like immediately."**

**\*\* "Chicks before dicks. Hos before bros. Moms before Doms..."**

**\*\* "I was in love with him. With Dan Fucking Smith. And I hadn't even seen his penis."**

---

**Stacia (the 2010 club) says**

**A is for All Over the Place.**

Talk about a complete flip from the last book that I read. With the last book, I delved into the first couple of chapters assuming that I'd love the book and ended up not really liking it. With this book, I was a couple of chapters in and ready to DNF the thing. I figured if I kept reading, I'd end up giving out a big fat 1 star rating. The first few chapters were embarrassingly awful. It took me a while to warm up to the story because of it.

**There were two immediate "uh oh" flags :**

1. *Kristen Ashley fangirling*. Uh...is this really worth basing a book on? I don't think so.

2. *A mother effing "perfect guy" list*. This is one of the biggest flaws with romance novel expectations in general - the idea that these "larger than life" heroes are going to somehow transfer well to the real world. *Newsflash* : in real life, most of the leading book men would be HORRIBLE partners.

**Anyway, back to the book...**to my surprise, after I got past my frustration with the list, I realized that I had started laughing. The humor is very spazzy and all over the place, similar to *The Unidentified Redhead*. But I liked how the characters eventually started to discount the list that they'd made for themselves. Idiocy gave way to common sense. And hijinx ensued.

*"You jedi-alpha-mind-tricked me!"*

**Sure, there were several eye rolling moments...**why anyone would add "uses nicknames" to their list as a GOOD thing, I don't know. A cute term of endearment is fine, but I actually hate the use of terms like baby and daddy (yeah, KA actually used daddy in a book \*shudder\*). I guess to each his own. But it's not for me. I'd rather a couple have a term of endearment which comes from their own personal story (and not overuse the darn nickname) than throw out a generic 'babe' all over the place. While I think "Hales" and "Danno" were kind of dumb nicknames, at least it was personal, so I'm only halfway weirded out by those.

I couldn't get over the main character referring to her mom as Allison instead of mom. When she was speaking to her mom, it was mommalicious or mammajamma (again, ridiculously unnecessary), but when she was narrating in her head, she switched to the name Allison. At first, it was almost confusing, as if her mom were two different characters. When I think of my mom, she's mom, not her name. If I were to narrate a book with her in it, I would assume my audience would be okay with me calling her mom.

*Moms before Doms.*

**But for what it was...**the story was cute, if sort of one-note (the road trip was almost pointless because the only good part of the story involved Hayley and Dan). Danny was a great guy and the pairing was a fun one.

*"Listen, nobody out smartass-es me, so you're going to have to turn it down a few fucking notches."*

**It's nothing to write home about, but...**if you're looking for a simple love story with several cute (if spazzy) and laughable moments, you might find yourself having fun with this book.

*I wasn't exactly an employee of Small Plastic Penis Paraphernalia Enterprises.*

Although, I don't think I'm going to read Allison's (the mom) book. While I found Hayley to be a comical firecracker, her mom was kind of spacey and odd.

---

**Janey says**

4.5 Dan "f\$\*king" Smith stars

This is a Mum and daughter road trip in search of their ultimate ideal alpha male. Hayley and Allison are driven by their obsession with all things romance and Kristen Ashley style, so they create an alphabet menu of must have traits, which they frequently reference as they travel across America.

I have only read a few KA books, but can still appreciate the references made in this fabulous feel good story.

Written from Hayley Whitfield's POV, we are ingrained in her life (& mind) very quickly. Standing alongside the sassy, sharp talking girl, with her swanky Mum and best friend, we trawl the country for their quintessential match. We are party to their authentic antics and Hayley's playful banter.

The lighter side of the story is offset against the life of Dan Smith, who they meet at their first port of call. He injects his own unique qualities, as well as messing with our hearts.

An absolute gem, that has definitely accelerated my KA reading, as well as ensuring I read any future work from this new author to me. Looking forward to meeting her in London in April 2015 <3

"I accepted every touch, kiss, and caress I could get my grubby hands on. And I wasn't about to ruin it with questions."

---

### **\*J\* Too Many Books Too Little Time says**

4--**Fun**--Stars!!!

Loved the concept of this book--mom and daughter set out on a road trip in search of their own Kristen Ashley alpha males....alphabetically listing out the traits they are looking for.

A is for alpha male

B is for badass

C is for cool name

And my personal favorite...

J is for junk--as in he's got good junk!!!

Mom--Allison and daughter--Haley set off with no plan in place and no direction in sight...just wherever the road leads them. With their game plan in place

**"Chicks before dicks.**

**Hos before Bros.**

## **Moms before Doms.”**

they embark on the Kristen Ashley Exprience.

First stop: Gulf View, Alabama where Allison and Haley meet Danny and Tim McGraw lookalike Wade.

They spend a view days here and Allison and Danny really take a liking to each other. But before long the adventures must continue and Allison and Haley continue their journey leaving with promises to keep in touch along the way.

If I am being completely honest, I found the first half of the book to be a bit boring and on the slow side. Yes, Allison and Haley were fun and crazy but it was almost too much. I got lost in all of the over the top antics and details.

Allison and Haley continue their journey making stops in Denver, the Grand Canyon, Las Vegas and California. During which, they embark on fun adventures, blind dates, and some gambling.

The longer Allison and Haley are gone the more Haley starts to question her feelings for Gulf View Danny. They talk throughout the trip but it's always at a friendly level. Both Allison and Haley learn a lot about themselves along the way...about what they want out of life and their relationships, etc.

There was a nice twist thrown in--that I really didn't see coming--which made for a sweet ending.

So...do Allsion and Haley find their alpha males along the way?

This was a quick fun read ....a little over the top maybe but enjoyable just the same! I felt like there were some loose ends with some of the other characters....(view spoiler)...so hopefully we will get some other books on the secondary characters.

Just an FYI, for my sex loving friends, this was more on the YA side. There is cussing but the sex is pretty limited and fade to black. But still a fun read!

## Kim says

*A is for Alpha Male* is the author's self-described version of a fangirl love letter to fellow author Kristen Ashley. I really enjoyed the first book that I read by Laurel Ulen Curtis called *Impossible* and I adore KA's books, so it was a no-brainer that I wanted to get my grubby little paws on this book. AND I FLOVED IT- ladies, if you love KA as much as I do, you HAVE to read this book! And if you have not read any of KA's books yet, it's not a problem. The story is more about the journey shared between a daughter and a mom rather than the KA references. If you love a strong sassy heroine who knows what she wants and is determined to find it with some pretty funny situations and mishaps thrown in along the way, you will love this book too.

Too often lately I find that the heroines of the books that I have been reading just over-the-top annoy me, and I was delighted to find that I didn't feel that way once throughout this story. Haley and Allison are a hoot! Haley has the trademark sass you would expect from a Rock Chick, and although Allison has had horrible luck in the love department lately with some real pieces of work, that buried side of her personality really emerges as well as they get deeper into their road trip. The relationship between the two women was heartfelt, loving, supportive, and almost sister-like at times. I loved one of the book's opening scenes where Haley is just 6 years old and complaining to Allison that boys are dumb after her brother wouldn't let her ride a four-wheeler with him. Allison agrees with her but goes on explain that she will still want one someday.

*"No. Dumb or not, you're still going to want one. [...] One that makes your heart race with anticipation, your skin tingle with awareness and your veins sing with excitement. One that accepts you for who you are and brings out the best in you." The fingers of her slim hand tensed, and then she told me the most important quality of all. "One that shows you the kind of love you never dreamed existed."*

Years later, after striking out one too many times on the dating scene, Haley decides they should go on a road trip to find their very own Kristen Ashley alpha males, calling it the "Kristen Ashley Experience". They assign a desired attribute to every letter of the alphabet that they want in their ideal man, starting with "A is for Alpha Male", and set out the very next day to start their journey.

*"Where were the Kristen Ashley alpha males? I wanted one. [...] They say you write what you know, and if that was the truth, I wanted a shot at Kristen's inspiration. Good God, she could write one hell of a man."*

At their first stop along the way in Alabama, enter one Dan Smith- yes, that is really his name. Since "C is for Cool Name" he really didn't fit the mold in that respect. But Danny is definitely yummilicious (yes I just made that up but it fits), sending lots of mixed signals Haley's way, and you just know there is more to him than meets the eye. Haley is struck by how comfortable she is with him and decides to test the waters with him, only to have Danny push her toward the "friends" route, offering to help her sort through the guys

lining up in order to find one that fits her badass requirements.

*"I feel like I've been waiting for someone like you... foul mouthed, brutally honest, and downright genuine... frustrating. God, you can be frustrating, but... well, I feel like I have been waiting for your friendship for most of my life."*

After spending a few days there, the girls decide to move on to their next destination, but Danny makes Haley agree to keep in touch as they drive cross country- just to help her weed out the undesirables of course. They visit Las Vegas, Denver and the West Coast as their quest continues. Through it all, Haley's brother Hunter keeps in touch with them from home as well, letting them have their adventure but doing the big brother/ protective son routine that fits so well with his real-life hero status as a cop. This was his advice to Haley at the beginning of the trip:

*"Have fun, and look out for Mom. Don't let her get too Cougar-y, and try to reset her compass so it points somewhere other than asshole."*

He embodies all of the qualities that the ladies are looking for, and I hope he gets a story of his own down the road (hint-hint- nudge-nudge Laurel!).

I have so many quotes highlighted throughout this book that it borders on the ridiculous. I alternated between grinning, flat out laughing and fanning myself all the way through the story. Some of the most memorable moments come from Haley's slightly wacky commentary in her own internal thoughts and in her conversations with Danny, and especially a scene between Haley and Allison at the Grand Canyon that becomes a YouTube sensation much to the amusement of Hunter and Danny who both see it within hours of posting. One of my other personal favorites was the first time that Allison gets a look at Danny's uncle Wade who is a dead ringer for the new, improved and ripped version of Tim McGraw- check out the "Truck Yeah" video if you need a visual.

So, did either of the ladies find their badass alpha male? Well you have to read it to find out for sure, but I promise it will be a wonderfully enjoyable ride! I have already re-read it twice in the few weeks since I received the ARC from the author. The references to KA's books and characters were fantastic and fans of all her series will love them, covering everything from the Rock Chicks to the Colorado Mountain men to the Burg series and the Dream Man series. It made it even more special somehow when I read in the Acknowledgments that KA herself read the story and assisted in making everything spot-on; I can only hope she loved it as much as I did and that you will too!

#### Notable quotes:

*"You Jedi- mind- tricked me! No, it's worse than that, you Jedi-alpha-mind-tricked me!"*

*I also had a great body, a perfect mixture of soft bountiful curves and a flat stomach. That I knew for sure. These things alone would make a guy go for it, even if I was a "Butterface" (everything is hot but her face). Hunter had filled me in on that fun little term. Seriously, guys were animals.*

*"If you get to the bush that looks like a set of balls with elephantiasis, you've gone too far." I wasn't sure, but I was considering going too far just so that I could see such a bush.*

*"Jesus, Hales. You scare me, you know that?" Danny remarked, shaking his head in disbelief. I just nodded. This was nothing new. I scared most people. Hell, I scared myself most of the time.*

*5 stars*

*Allison and Haley's Great Adventure*

*(‘The Kristen Ashley Experience’.)*

Haley and Allison embark on an epic road trip (one I think we should all do once in our lives) their goal... to find their very own Kristen Ashley Alpha Males. Tired of the losers from their past, a mother daughter road trip is exactly what they need to find their dream men...I mean, they have to be out there, right? They're not asking for much just as long as the men they meet have everything they need in a man, refusing to settle for anything less. Based on some of their favorite books they set off on a trip of a lifetime, with their kindles in hand and their alpha men guiding their way...

***“I’m telling you, badasses have cool names. Tatum Jackson. Raiden Miller. Kane Allen. This is what we need. If I meet another Dan Smith, I might kill myself.”***

From Alabama to Denver to the Grand Canyon to Vegas and Malibu, their crazy mother daughter adventure was something she needed, her mom is her best friend and nothing could ever take this experience away from them. A friend who unfortunately, didn't really have a cool name and wasn't interested in her the way she was in him, guides her along the way making sure she stays safe and doesn't settle for less than she deserves.

***“I want to understand your list, Hales. I want to know the reasons behind it, the men you dream about. I want to live the worlds you lived when you read these books and know what you felt when you read them. I want to know you. And your mother daughter road trip proves that your books are the perfect place to start.”***

I abso-freaking-lutely loved this book, it had me cracking up and swooning, sometimes at the same time. Haley was overly-dramatic, sarcastic and totally in your face, she was quirky and needed a man to accept and understand her. Allison was the coolest mom ever, and I'm super excited for her book. There were unexpected twists in the book that I wasn't expecting, but it added just a touch of drama. There was a lil steam in the book, love the position by the way, lol. But what I loved most was Haley and her crazy self plus the banter between Haley and her friend, it was just too damn cute. This book was an awesome tribute to Kristen Ashley, can't wait to read the next one!
