Tere (La Vida Secreta de una Lectora) says

La historia continúa en donde se quedó en el primer volumen. Más acción y sangre, nuevos personajes, más historia. La BSAA tomará un poco más de protagonismo. No digo nada más por cuestión de spoilers. Recomendado para aquellos que tengan conocimiento previo en la historia, pero igual puede ser disfrutada por todos.
Manga categorizado como +18.

Author says

Everything I liked about the first volume holds true for this one. It's a fast and entertaining read, and as an avid zombie fan it makes me happy. I enjoy the action and the characters, and while I don't know much about them, I am interested enough to keep reading and learn more. I love the tension of waiting for the BSAA agents to arrive, and the artwork is great as well. It manages to be dark to set the tone, but still clear and detailed. Definitely must-read for any zombie fans.

Mark says

Wait a minute. How come I have not post a review or comment to this manga yet? I mean, I already read it months ago. But anyway, it's not relevant now. Here goes my comment.

The reason why I bought and read this was because out of curiosity. I actually stopped caring about what will happen to the protagonists and just want it to get over and done with. I mean, it's ridiculous how the headmistress / head-nun of Marhawa Boarding School refused to get professional help from outside when there's obviously zombie attacks happen uncontrollably at her school?

Roxane says

Toujours aussi fan de Resident Evil, et étant dans une phase Comics, Manga et BD, j'ai décidé de faire sortir le dernier manga de ma PAL.

Nous reprenons l'histoire où nous l'avions laissée dans le volume 1, à savoir à l'entrée des sous-sols de l'école Marhawa. Le professeur Wright et Doug sont accompagnés d'un agent de sécurité et d'un homme au sabre, que nous avons déjà aperçu brièvement dans le volume 1. Ensembles, ils vont essayer de secourir le groupe de travailleurs se trouvant dans les sous-sols. Mais ce qu'ils pensaient trouver n'est rien comparé à l'ampleur réelle du phénomène.

L'histoire en elle-même est plus mouvementée que dans le précédent volume. Nous avons plus de combats, plus de zombies, que du bonheur, quoi. Ce tome comporte également quelques révélations majeures pour l'histoire et à la fin de ce manga, on se demande bien comment ils vont bien pouvoir se tirer d'affaire cette

fois-ci, même si on en a une petite idée.

Les personnages sont majoritairement les mêmes, on retrouve le professeur Wright et son neveu, que j'aime bien. Mère Garcia commence un peu à rentrer dans mes bonnes grâces, vers la fin du tome, car on comprend un peu mieux pourquoi elle agit de cette manière et elle semble enfin comprendre qu'il faut divulguer l'affaire au grand jour, quitte à ruiner la réputation de son école. On aperçoit le B.S.A.A., qui n'a toujours pas un rôle prédominant dans l'histoire, n'étant pas arrivé à l'école. Sinon, j'ai beaucoup aimé un autre personnage, celui de Ray, l'homme au sabre. Même si on ne le voit qu'au début du manga, c'est surtout pour l'apparence que lui a donnée le dessinateur, je ne saurais trop l'expliquer. Mais j'ai bien aimé son attitude également.

Vous l'aurez donc compris, j'aime beaucoup ce manga. Des dessins supers, de bons dialogues, une histoire qui tient la route pour du Resident Evil, du un peur de gore. De quoi passer un bon moment !

Nate says

A little slow until the last couple chapters. Pretty good cliff hanger though.

Julio says

Interesante historia, aunque si no es leído con detenimiento se pierde la noción de la historia .

Monica says

Un volumen con muchísima más acción, en la que se deja de lado la comicidad por parte de los protagonistas, para entrar en detalle en el desarrollo evolutivo del argumento base. Aquí comenzaremos a ver los 'cabos' de origen de éste, con fondo dramático, nuevos integrantes, esenciales para la ecuación final. Así como algunas que otra sorpresa por parte de los secundarios del internado.

Genial en su parte final, con comienzo de un interesante flashback para recabar datos , con especie de Tyrant de por medio y todo!!

Iris says

Qué pedo con Mother Gracia

Chris says

Uh oh what's gonna happen?

Chisdragon . says

que buen manga

Matimate says

Resident Evil is gaming phenomena and various spin offs were made. The manga is situated in Resident Evil universe filled with evil Umbrella Corporation, BOWs, zombies, Chris Redfield and Piers Nivans.

Professor Doug Wright with his nephew were investigating strange plague which affected students in Marhawa School, prestigious place lead by mother Garcia, the nun and former girlfriend of professor's. She wanted things to stay calm as possible but out break literally kill it from the beginning. People were starting to die and BSAA was called in. Chris Redfield arrived on the scene and it was clear that there was something very wrong with one of the students, who obtained virus which lead to the unexpected results.

Quentin Wallace says

Another good volume in the series. A little more comes to light as we find out the headmistress covered up the death of a student, and it looks like the student may be behind the zombie outbreak. Also, while the school had been trying to hide the problem from the students, a zombie attack at a festival makes it a little hard to hide. We find out more about the mysterious hooded girl as the story keeps rolling along.

Still the same sexy females (maybe the males are too? I'm not much of a judge on that aspect but I would think so) as the art is exceptional. I'm also still following the story clearly, as I keep expecting the manga to lose me as most manga does lol.

If you're a Resident Evil fan, pick up this series.

Stacie (MagicOfBooks) says

I will also do a video review here at my channel: <http://www.youtube.com/magicofofbooks>

Since these books are so short, I'm not going to be reviewing them in depth that much. So stay tuned for my series review with book 5.

Book 2 continued to be exciting. The majority of the plot in this installment is in an underground area (a control/electronic area) where our group encounters some freshly turned zombies. The action was still intense, gory, and atmospheric. Also a few moments that I found genuinely shocking. And once again, only a few pages of Chris Redfield, which like I said for my review for book 1, didn't upset me. This series definitely survives on it's own and doesn't rely on "Resident Evil" franchise characters to drive it. Definitely

still very invested in the series so far and can't wait to get to book 3.

Ashley says

Another enjoyable read in this quick, brutal series. The zombies are still present, the headmistress nun is still crazy, and the mysteries keep on multiplying. Volume 2 starts right where Volume 1 ended and I was able to jump right back in to the story no problem. The story was interesting and I had fun while reading it. If you're looking for a fun, zombie series, give this one a chance.

My problems with this book were only minor. The first aggravation is that, just like the first book, this one doesn't really have an ending. My advice to reading these books would be to have all the volumes available in front of you, so you won't have to take a break from the story or suffer from that feeling of having to know what happens next.

My other gripe would be there was a lot of action in this book and it became kind of confusing following from panel to panel. Each panel illustration was full of detail and sometimes I got kind of confused trying to follow along. But those things were only minor and didn't make me not enjoy the story.

All in all, I thought this was another quick, fun read. The story is getting more and more interesting, so I'm excited to check out the next volume.

BOOKCITEMENT LEVEL 3.5/5

A quick, fun zombie ride!

Daken Howlett says

Notevole passo avanti rispetto al primo volume della serie, finalmente abbiamo una serie di scene e trame che sembra avere senso nel contesto di un prodotto legata alla serie di Resident Evil, molto più spazio dedicato all'azione, arricchita dalla reale presenza di un personaggio della serie (Chris) e di un'organizzazione presente nella serie (la BSAA) che finalmente non sono solo relegati a poche pagine, e buona parte dell'azione questa volta si svolge nei sotterranei bui e isolati degli edifici del complesso scolastico, con molti più mostri nascosti nell'ombra e molte più minacce...
