She deserves better than me

I live my life the way I want.
And today, I want her.
Emily. My Goldie.
Until I find out she's a virgin.
Screw that.
She's too good for me be her first.
No matter how much she begs me.
There's no way she could handle my pierced and inked c*ck
I'll make her legs quiver and move on to the next small town.
Except once I leave, I can't get her taste out of my head.
She's mine.
I just have to figure out how to find her again.

****A steamy STANDALONE contemporary romance with a sizzling hot alpha. No cliffhanger, no cheating, and a guaranteed happily-ever-after. Please note Carnal was originally published as Carny****

He Found His Blonde Goldilocks!!

Loved this book, I had read Carny before this one and loved it, so it was fun and easy to read Carnal. I absolutely love Simone's writing. This is one of those stories that pulls you in, makes you feel you are part of the story. The Carnival that Steel works for makes their first appearance in Colmar where Emily lives. They meet the first night it opens. Emily is a good girl, stays out of trouble. Her father's reputation is so important to him and he thinks her actions reflect on him. She thinks he is stuck in the 50's. A man's reputation is his own. She gets so frustrated with the way he thinks, she wants to do something to 'hurt his reputation'. She just could possibly do that just by taking the hand of a hot tattooed blue eyed Carny with a hair cut her father would approve of and cutting in line for the Farris Wheel, in front of everyone. Steel tells her "For you, it'll be VIP treatment all night long". I loved the way Steel plays it cool with Emily. He wants her but he's not chasing her, he gives her just enough of himself, his attention then let's her go so she will come back to him. And she does come back. They are so good together, the Carnival life isn't easy but together they make a life, fall in love and start a family. It really is a wonderful story, different than any out there.

I fell in love with this carny!

With this book, Simone Sowood has surpassed herself.

Carny is the heart warming story of Emily and Steel told with great sensitivity and emotion. The characters are complex, detailed and lovingly described. The story is a page turner, exciting and contains some unexpected twists!

I could not put it out of my hand and had to grab a tissue not only once!
An absolutely must read and one of the best books I have read so far!

I don't know what I expected, but definitely not this. Simone Sowood has given her readers a great original story. You get romance, hot, steamy sex scenes, overbearing parents, a small opinionated town, a hot alpha tattooed bad boy, family drama, love, and a HEA. Carny is a story of finding one's self and how true love can survive obstacles and make you stronger.

I volunteered to review an advanced readers copy of this book.

loved this awesome romance! Carny is a great read from the first page to the lovely conclusion and I couldn't put it down. The carny and the townie good girl - on the face of it, Steel and Emily have nothing in common except an unexpected but extraordinary passion for each other. Is that enough to build a life together on? Steel and Emily's love story is one of my favorites. It's a great journey, rich in story and emotion, and I am so glad I got to go on it with them.

Simone really knows how to write a story and make the characters very real and down to earth. I enjoyed the story of Emily and Steel! The unexpected twists, the change up on usual romance stories with a rich girl/poor boy, the steamy love scenes, it was all well written! You'll definitely enjoy this read. One-click today!! CARNAL

This was a unique read for me, firstly because I don't generally read a lot of books like this and secondly because it's so different to any other book I've read. A story about finding yourself and being happy with who and what you are and want in life, and showing others that stepping out of the box isn't always a bad thing but it can be life changing. I absolutely loved this book. It was an intriguing and very entertaining read. The characters were very likable and really sweet. Steel and Emily made an unusual couple who had an interesting start to their relationship, and I loved their connection and the chemistry between them. My only small grumble is that I would have liked a little more at the end, it just felt a little cut off. But nevertheless, it was a very sweet and enjoyable read. I was gifted a copy in exchange for an honest review.

Steel worked at a carnival for 10 years, these carnies became his family. One day he met Emily (goldie) when there carnival went to a small town. Goodies family was a well respected family of the town and her father commanded respect. Goldie was 20 and still under lock and key. Until steel (kayden) Loved this story, the only downfall was on almost every page there were typos. I can ignore 5 or 10, but on almost every page, it was starting to become noticeable.

Cindy Miller says

I really loved this book, been reading romance books for over 30 yrs and I can't ever remember reading one about carnies, this was a nice new treat for me that I enjoyed very much, what a steamy sweet story. I recommend this book, you will not be disappointed, great HEA!

Kelly says

Moriah says

Absolutely loved this story. Emily is the good girl in town and her and her friends go to the weekend carnival where she meets Steel. Steel is the ultimate bad boy with tattoos all over his body. They hit it off are separated for a while when the carnival leaves, but Steel comes back for her and they begin their life together. It isn't always easy, but they have a great relationship and will do anything for each other. A definite must read.
