Dare

Caitlin Daire

Dare Caitlin Daire

Drew Buckley is a grade-A tool.

We used to be best friends as kids, but now the sweet, scrawny boy I used to know has grown up into an arrogant, tattooed prick with a foul mouth and a penchant for too many women. We didn't even recognize each other at first when we ran into each other again, but now I'm back in his sights for all the wrong reasons...

His Dad ran off with my Mom and married her in Vegas, so now Drew and I are stuck with each other. I wish he'd go back to his old self, but he insists on making my life miserable with his petulant attitude instead, and my friends aren't helping. For some reason, they think he and I belong together, and the worst thing is that a tiny part of me can't help but think they're right. He's a tool, but damn, he's a handsome-as-hell tool...and the heat between us is undeniable.

Do I dare cross that line?

Warning: This book contains lots of HOT sex, drama, adult language and some violence. If this is not the kind of stuff you like to read, skip this book. Enjoy!

Paulien says

The love that's actually forbidden, aren't those the best kinds? Hell yeah! I'm convinced that they are. That's why I decided to read this book. I wanted to get to know Drew.... Here he comes.

-Characters

Drew: Was a sweetheart, but now he's an asshole. I don't know why he became so rude towards her. Even though he still kind of loves her from their past friendship, he is not nice towards her...

Sophie: is a nice girl. And I think she handled him all wrong. I was sure that if she acted like before (when they were little kids) he would've acted way different in front of her.

-Storyline

The story is about love, hate, betrayal and... I think that the story is not only about Sophie and Drew but also about her mother, and his dad. It's probably even more about their parents than about them. It's everything that happens between their parents that has a lot of influence on their love story.

-Title

It's all about a dare but even then... It wasn't. Don't let you fool by the title.

-Cover

The cover is hot but standard.

-Ending

Well, I think it's a good idea to have the second book ready when you're finishing the first book. Because it's pretty obvious that there still a lot has to happen.

This book deserves 4 stars!

Georgie says

You know what?!....

Yep its was a short read about stepbrother relationships...

Yeah there was a lot of drama packed into the pages...

But... it WAS entertaining and whilst the book itself dealt with bigger issues, Caitlin Daire still managed to

keep the feels of the book suprisingly light as well.

I am a sucker for second chance love and this book didn't disappoint!

the thing for me is - I'm not starting a book to learn about Einsteins theory of relativity...

I'm starting a book to get lost in the moment with the characters...as they experience it!

If I can immerse myself far enough by simply reading the words....

If I am no longer sitting on my arse reading (instead of working...whooops...did I say that out loud...)...

And if I am right there alongside the characters feeling everything they are feeling ...standing side by side with them, in the middle of their angst and drama. ...

Then as far as I am concerned the Book and the Author have already won!

So here are my 4 stars to a book I lost my day to while I felt the ups and downs of the words on the pages....

Fast paced, easy reading and steamy scenes....win win!!!!

Emma Jefferson says

Sophie a young girl who is still a virgin and wants to loss her V-card asap. What better way then to go to a club get wasted, Dared to sleep with a sexy man. No problem except she wants to get rid of it to some one she wants and cares about. Not a cheap one night stand. So when she bells out in the last min from a Sexy stranger she grateful she doesnt have to see him again.

Drew a famous actor whos an arrogant pig and doesnt give a dam about anyone. Get laid get out. So when Sophie leaves him with blue balls his pissed with her. A call from his dad to say his remarried to his child hood best friend sounds good. Until face to face with the one women who stood him up. Planing to get revenge for what she did to him.

A bet is what started this (Sleep with sophie get his rep back and get the car his always wanted, doesnt sound bad)

But will the bet destroy them ? mix a bad bet in and throw in an Ex-husband and a sercerete that can destory everythink.

Sophie and Drew a dare started it but can it last

Vieira says

This was just ok for me. It was a pretty easy read...lots of steam.....

Sarah Black says

Loved it.

didi says**Another perfect love story**

I have read numerous books of yours and loved every single one of them. I can't wait to read more

Sheryl says

4.5 stars

Tammy Moody hall says

this was really great book for a standalone I enjoyed it

Lyn says

Enjoyed reading this book. Love Drew.

Recommend it!

Ammts (Missy) says

These stepbrother books are ridiculous. I don't know why I bothered, particularly since I knew the plot would be the same as every other lame-assed step book. Wasn't even sexy.

Emily says

When Sophie Ramirez set out for the night it was with the plan to lose her virginity. However after meeting Drew and almost completing the task she realizes that Drew is just a player and changes her mind. Drew was not thrilled with the woman he met, he wanted her like no other. When he is sent to meet his fathers new

wife he never expected Sophie to be there, especially since she was the woman from last night.

Now Drew wants to have fun, a little revenge of his own for a sleepless night. Sophie though just grows more and more under his skin. When he decides to make a bet regarding Sophie, he doesn't realize it could change everything about them and could be his biggest regret.

I liked this one but I felt the chemistry was kind of mixed. One minute they are on each others nerve then they are madly in love. They have a history and grew up as friends changing to enemies. Overall fun read.

Heather says

Why do I even bother reading this type of book anymore (stepbrother romance)? They are all the same... The plot was too far fetched and almost had too much going on yet the romance seemed unbelievable.

Samantha Rhinesmith says

Samantha's books

I loved this story. It was not typical it was full of lots of twists and turns. The characters were funny and engaging.

Aiko Wong says

For a light reading, this book is really not bad. Love it!

Amanda says

This, my friends, is why we stopped double-dog-daring people back in grade school... Although yeah, it turned out just fine for Drew and Sophie.

There was a nice little bit of suspense in there... I won't give away too much, but lets just say Sophie gets something unexpected in the mail which spooks her and Drew has to deal with psycho ex-girlfriend drama (always fun!). These twists definitely add some suspense and drama to the story, which otherwise would have been rather dull if the only conflict was between Drew and Sophie. And the ending... Wow, I was NOT expecting that twist!!

This is the second story I'm reading by Caitlin Daire (since they're standalones, I've been reading them out of order- the first was Score - A Stepbrother Romance) and I'm sensing a bit of a common theme of the girl leaving the guy high and dry in a hotel room.... I'm hoping that's not going to continue, because reading that will get old quick.
