**Deeper** M. Malone , Nana Malone

**The plan was never to fall in love...** The plan was to avenge my father's death.

Hell, I knew better. Never fall in love with the mark.

For ten years I have plotted and planned my revenge against Rafe DeMarco. He took the most important thing in my life away from me and I meant to return the favor.

Except, I was wrong...

Now, I need his protection. And I'm the fool who went and fell in love.

The best laid plans and all.

(Deeper is the finale of the Deep Duet. Start the duet with Book 1, Deep.)

## Yvonne Daniels says

Deeper The Deep Duet Book 2

by M. Malone,? Nana Malone

?????????

WOW! I have to say, Deeper is a phenomenal book to read. It was suspenseful and entertaining and easily kept me on the edge of my seat; it's just an all-round great book to read. The Malone's books are flowing with details plus they are exciting to read. This story is well plotted and weaves romance perfectly with the suspense element that encompasses the story. This book is very exciting and challenging, it's also compelling. I am so surprise because there is nothing predictable about reading this book, I thought it would be easy to see where the plot was going, but instead I am anxious that a different outcome than the one I expected would happen. However, Nana and Minx proved me so wrong that these two ladies had me talking to Rafe and Diana as I read the book. Diana is a total surprise to me but Rafe being completely what I expected, yet they made it all still fit, plus they gave the book more drama, suspense and romance than I imagine they would. The story is based on revenge and deception and this time, Rafe is trying to be the good guy but his past is never very far behind. Diana has been planning revenge for long time. But there is a problem she is operating under a lot of misconception about her family. There isn't much build up to the sexy scenes. But there is the undeniable connection between Rafe and Diana that's wickedly sexy.

There is two things I would change about this series; one is I would give the evil (bad) characters more depth so that there is a contrast between the evil (bad) characters to make you fully appreciate the good characters and I would make the series into a one book for each couple story because I know I will read the complete series when they are all available,so that I don't have to wait to read the entire book.

But I must give the Malone's high praise for Rafe and Diana story. This series is full of sensual scenes which are extremely hot and interesting. These two ladies can write a story that has you wanting more and wishing that their next book release is available now to read. Oh my I really enjoyed how this story flowed, I hated this story to end I wanted it to keep going a little bit longer. I have enjoyed reading their HEA. This series is fascinating, addictive, suspenseful and a fun series that I have totally enjoyed and I'm looking forward for the next member's story.

---

## Philomena Callan Cheekypee says

This is book two in The Deep Duet series. Make sure you read In Deep, a novella and Deep book one before you read this one.

After reading Deep I couldn't wait to jump into this story. I wasn't disappointed as it was a great read.

Deeper is an intense read that I literally inhaled. I couldn't get enough of Rafe and his alpha male personality. Swoon.

I absolutely loved this series. This is probably my favourite book in the series. I'm looking forward to reading more from these authors.

??? STARS

ARC BOOK REVIEW

RELEASE DATE-29/1/18

So Deeper is the second part of The riveting "Deep duet" by M. Malone and Nana Malone.

And after where we left this I have been gagging to get stuck right back into this enthralling story and I just have to say Deeper certainly didn't disappoint, it just keeps getting better and better.

So we start back off here exactly where Deep left us with Diana on the move along with that ever so revealing flash-drive and with Rafe not far behind in hot pursuit.

and Instead of being in self-preservation mode after realising Dianna has lied to and used him all he can think about is her safety.

Which is just so heart-stirringly hot.

Rafe just comes across as such an absolute keeper, I actually loved him even more here, there's just something so very sexy about a man who is willing to lay his feeling so bare, leaving himself completely vulnerable and open.

I must admit though, I am bloody glad he has finally woken up and smelt the coffee and realised Dianna is not quite what she actually appears maybe now they can start to move forward in regards to trusting each other.

I hope also that Diana realises just how lucky she is that Rafe was prepared to give her a second chance.

So I would love to say that the evasions of truth are so over, but this is Dianna that we are talking about and although Rafe seems more than willing to lay all his cards on the table now, Dianna herself doesn't seem quite able yet to break the habits of a lifetime and still seems to be dragging her feet slightly in regards to full disclosure.

So right from the start here, We are thrust back into the action and this time around we also get to spend a lot more time with Rafe's extended family, which was fabulous.

We also get to see a much softer side to Dianna, which really helped warm me up to her.

I think I got a bit more of an insight here into what actually makes her tick and why she can come across as a bit cold at times.

I am also very pleased to say that the disconnect I was feeling in "Deep" is no more, I can now feel Dianna and Rafe's connection, so all's good on that front too.

what else, well we also get to experience a lot much action in this instalment.

and also whereas in "Deep" I would say there was more sex, less talk, in "Deeper it was, in my opinion, the opposite which really helped me to get more of a feel for our pair's dynamics.

So I think that about wraps this one up. I found Deeper a great read that kept my interest right till its satisfying conclusion and I would be happy to recommend this well-written duet.

I received an arc of Deeper of which I have reviewed voluntarily.

All opinions expressed are entirely my own.

### **Rosie J. says**

I thoroughly enjoyed the wrap-up to Rafe's Story. Throw in bad guys and a secretive government agency, add a man on a mission to thwart the bad guys and mix it all together and you have the ingredients for a TV Spy Series. Best of all, the heroine was a bad-ass! **Book 2 of 2**

*I voluntarily read and reviewed an Advanced Reader Copy of this book.*

---

### **Isha Coleman says**

Malone squared has become adept at setting the stage to leave readers wanting more. The Deep Duet is the latest example in their nailbiter storytelling. Deep left me at the edge of a cliff and Deeper had me diving right in. Diana and Rafe stepped into a maze of dangerous secrets. Rafe is no superhero, but like Batman his secrets run deep and his soul is quite tortured. A thirst for the truth has landed Diana in over her head. Vengeance drove her, now danger haunts her and only a ghost can save her. The tale of the dark warrior and his avenging angel is an enigma that began in lust and ended with love. A thriller from beginning to end.

### **Cheryl Whitty says**

Reviewed on behalf of <http://bookaddict.live>,

Wow what a book, I really enjoyed this Duet especially Diana and Rafe they were great together. “ O what a tangled web we weave when first practice to deceive “ I think that describes Diana’s part in a large portion of the Duet. This has excitement, suspense hot sex and I loved Rafe. I’ve decided that we would all love someone like Rafe. The chemistry between Rafe and Diana is combustible I felt the sparks through my kindle.

I don’t want to give anything away, but this part of the duet is action all the way. I think all the guys Noah, Matthias, Jonas and the girl were great fun, and I can't wait for Jonas and JJ's book.

I received an ARC of this book in exchange for honest review.

### **Marcia says**

Deeper picks up right where Deep left off and takes us to the end of Rafe and Diana's story. Deeper is a very good addition to this wonderful series about reformed assassins!! Deeper was a solid conclusion to the Deep Duet, but it wasn't as action packed as I thought it was going to be. I found Deeper to be more focused on setting the record straight between Rafe and Diana...and there was a lot to set straight. Whoa!! Now, don't get me wrong, I wholeheartedly enjoyed this one, but I will say I did expect more, especially after having read Deep and all of the other books in the series, and most especially since this is badass Rafe's book, and I love me some Rafe!! I think I sort of missed the interactions with the other guys, but I completely understood why there wasn't as much, since Rafe does have a somewhat frosty and tenuous relationship with the other guys.

Truthfully, I guess my biggest issue with Deeper was that I really did not understand Rafe's reaction to Diana and her betrayal of him, or her continued lack of trust in him. I have to say I liked Diana more in Deep than in Deeper, because she really started to irk me somewhat with her behavior and her inability to trust Rafe, even knowing all that she knew about her family, and I began to want him to have a better heroine, one who really deserved him. Yes, it truly confused me as to why Rafe was always blaming himself for things.

Having said all of that Deeper is a well-written story by two extremely talented authors, and I cannot wait to read the next book in this series.

---

### **Vivi Chatzikiriakou says**

**"The adrenaline rush Deeper delivers is so powerful and many times brutal that competes equally the sizzling romance between the main heroes. The Malones ends the series with the most unforgettable story."**

*"I received a complimentary copy of this book and have volunteered to leave a review."*

After reading **Deep** it was impossible not to read **Deeper** and I am very thankful that **Miss Nana Malone** trusted me with an advanced review copy of that last book. I was intrigued after Diana's and Rafe's story ended with a cliffhanger so reading the following book of their story wasn't under consideration. It was a necessity! ***Now, after I finish reading Deeper, I'm absolutely positive that the Malone's are meant to create the most unexpected, unforgettable romance stories.*** And I know that they aren't finished with the tough, brutally hot assassins of Blake Security. It's going to be more....

Deeper this time is focused more on Diana's and less on Rafe's welfare. Diana after leaving Rafe's apartment having in her hands some highly confidential documents that she stole from him, is now hiding from anyone who is after her. Reading the documents she learns the truth behind her family's business and how wrong and mislead she was by them. Her only and right choice is to put these files back to where they belong. And at the same time, to place herself to where she always meant to be, with Rafe.

This time Diana and Rafe have to deal with outside threats. Their insecurities, however, are still present and clearing the view of how they feel for each other is the first priority for the plot to move on. The story never dulls revealing one by one scenes so intense and gripping that it was utterly difficult to put the book down...not even for a moment. Diana's bad-ass attitude is a sight to watch in this book. She has a lot to say in this story and it is nice to see her both strong and vulnerable. She is a woman deep in love and ready to go deeper for keeping the ones she love safe and alive.

Rafe this time is more caring, way more human and less his cocky self; a detail I loved in him from the beginning. He knows the rules and plays at the rim of the rule yet when it comes to Diana he is ready to cross any of them in a heartbeat. The action-packed scenes he is into are in a highly dangerous level and he is as hot as he is in the bedroom. Well, almost as hot. In the bedroom he dominates the scene. He is the master of seduction and satisfaction. He aims to please but he is a killing machine nonetheless. So watch out bad guys!!

Deep duet has one of the most exciting plots I ever read. A story with a sizzling couple that has a dangerous

background story and many steamy hot moments, is meant to be an interesting story. The Malone's idea to deliver two books than one is very smart. While the story unfolds in a time of few months, Diana's and Rafe's relationship blooms slowly. Too many things happened these months between them and each one needed a quality space to completely unfold. I like when an author makes that kind of decisions in the first place. They give value and human perspective to their heroes and their story. A special detail that Malone's narration delivers efficiently. The happily ever after ending is as expected as it can be but how happily is going to be?

I hope I intrigue your imagination a little and make you grab the book, finding out what's really happening to them in the end because there is no way to tell you myself.

Until next time, enjoy your free time reading great books with the most unforgettable stories.

Vivi

## **Natshane says**

### **\*\*3.75 Deeper Stars\*\***

*Deeper* is the sequel to *Deep* and cannot be read as a standalone.

One look at the cover and I'm 100% sold, after the cliffhanger ending in *Deep*, it was impossible to not pick up the book and continue right where it left off.

As the story continues, the suspense was also kicked up a notch. When the truth was revealed, Diana found herself in a dangerous predicament, not only she was hunted by her own flesh and blood in exchange for wealth, she was also running from a notorious assassin who she betrayed, who she fell in love with, who wanted nothing but for her to return.

She was supposed to seek revenge, but in her quest for vengeance, she uncovered the bitter truth behind her family's name and also placed the man she loves in the direct line of fire. Will Diana continue to run? Or finally, embrace the fight?

I was truly swept away by Rafe and Diana, their romance was burning hot, intense and utterly passionate. I love Diana's bravery and Rafe's possessiveness, together they make the PERFECT combination! *Deeper* is the perfect conclusion to the duet and I couldn't imagine the storyline to turn out any other way.

*I voluntarily read and reviewed an ARC of this book generously provided by L Woods PR and the authors. Thank you for the reviewing opportunity!*

## **Laura says**

\*\*\*ARC Provided by the Author\*\*\*

## 2.5 Stars

At the start of this, I was really engaged with the story and wondering where things would go for Rafe and Diana. I wanted to know what was going to happen, and how they were going to sort things out, while allowing Diana and Rafe to have their happily ever after.

It was intense and engaging. And, then, it wasn't.

For some reason, about 50% into this title, I felt like I had read the story before. It didn't feel fresh and I felt like I knew what was going to happen before it did.

I usually love titles by this author, so I am going to assume this was a one-off and I am looking forward to the next title.

I don't totally recommend this title, but as it is the resolution of the cliffhanger in the first book, I can't say it isn't worth reading.

### **Renee says**

I received a copy of this book from the publisher/author to review for Stephanie's Book Reports.

Deeper is the second book in The Deep Duet. You have to read Deep or you are going to be so lost. Plus Deep is absolutely amazing and you are not going to want to miss it.

For ten years Diana has plotted and planned her revenge against the man who was all shadow and death. He took the most important thing in my life away from me and I meant to return the favor. Except I was wrong. Now because of her mistakes, there are men intent on hurting him. But I will not run from this. I need to protect him just like he would protect me. Even if that means doing the one thing he doesn't want.

Deeper picks up just exactly where Deep left off. With Diana breaking into Rafe's safe and stealing his most important information. Information that could get her killed. Now he has to find her because she has a huge target on her back and probably even isn't aware of just how dangerous it is for her to have the information she has sound. Add in not finding the diamond and her crazy, psycho brothers who want to basically see her to her Uncle and you have a story that is going to keep you on the edge of your seat. I devoured this book and fell even more in love with Rafe and Diana. They are both in dangerous positions and Rafe is determined to protect Diana at all cost. However she is equally as determined to protect Rafe from his brothers. Add in the FBI and Interpool and I guarantee you, you will not be able to put this book down. This is an amazing duet and one I highly recommend. You do not want to miss either of these books.

---

### **Eve Recinella (Between The Bookends) says**

**DEEPER** picks up right after book one. Diana is on the run after stealing from Rafe. Some new knowledge has her rethinking everything she thought she knew about her life and that leads her back into Rafe's arms. Rafe is confused and angry but still very much in love with Diana. He wants her to trust him enough to tell him what she is hiding. When Diana's past comes knocking on the door Rafe and company step up to the plate to help take them down.

#### **~WRITING - PLOT - PACE~**

So I enjoyed this one marginally more than I did book one. The writing was still fantastic. The pace was perfect, and the plot was engaging and kept me turning the pages.

#### **~HERO~**

I loved Rafe in book one and I continued to love him in this book. The guy was a SAINT to be honest. He had to be to put up with Diana. I honestly think he should have been way way angrier...

#### **~HEROINE~**

Diana...sigh. I hated her in book one and I only liked her slightly more in this one. She was just such a lying b!tch. I hate when a simple conversation would clear the air and we have a character that continues to evade and be dishonest all the while claiming to "LOVE" the person she is treating like crap. That said, she gets a little more palatable as the book goes on.

#### **~SIDE CHARACTERS~**

This one was fairly light on side characters. Many of the guys and couples from the previous series pop in and out but the focus stayed mostly on Rafe and Diana.

#### **~HEAT LEVEL~**

Medium. There were quite a few sex scenes, and they were fairly hot.

#### **~ANGST LEVEL~**

Low to Medium. I didn't find it particularly angsty. There is a bit of pushing away by the heroine, but not too much. I expected more anger and angst aimed the heroines way after what she did to Rafe, but nope, like I mentioned above, he pretty much forgave and forgot instantly every time she pulled a stunt. There was some OW drama which in my opinion was super pointless. It leads nowhere and caused ZERO issues so I am not sure why we needed a jealous woman Rafe had a fling with back in the day acting totally unprofessional and b!tchy. \*shrug\* There was no OM drama.

#### **~IN THE END~**

I liked this one. Mainly because I love this writing duo and I love these characters and the world they inhabit. That said, this duet was my least favorite so far. I wish Rafe had gotten a better heroine. C'est la vie though. I am certainly still onboard with the series and can't wait to see what guy is bitten by the lovebug next.

---

### **Nadia Debowska-Stephens (Obsessed by Books) says**

Deeper is the concluding part of this diet and they must be read in order. Diana is on the run, after following through with her plan, she discovers that the truth is far from her perceptions. Coming to terms with the revelations she has stolen from Rafe's safe she must accept that her belief that Rafe was responsible for her predicament was totally misplaced. Finding out the harsh and crippling truth about her family she soon realises that she may need to switch teams but is she too late to tell Rafe who she really is?

All he knows is she is his. Regardless of what or who she may be his driving instinct is to protect her, love her...keep her. Rafe will stop at nothing to endure her safety. Struggling to come to terms with her duplicity Rafe spends a lot of this story confused and emotional worried that she may leave him. His alpha side comes out to play at times to keep her safe. His whole world becomes focussed on her. Working together to bring down her family and end the game of cat and mouse can they fall any deeper for one another?

This part two contains all the answers to the questions we had in part one. It's full of action and angst, with the characters expressing more emotion and opening up with their truths. Drawing more of Rafe's family into the story the dynamic changes and makes it a warmer story. Danger and intrigue wraps up the plot nicely with a happily ever after that made me smile.

A four star let the truth set you free read.

### **Natalie The Biblioholic says**

***"I belong to you. You belong to me. And I will maim or kill anyone who tries to hurt either of you. Understood?" - Rafe***

So if you read the last book, you know that Diana figured out how totally wrong she was about Rafe. The man she had gotten to know was nothing like what she believed him to be and really, Rafe was exactly as he seemed - honorable, respectful, kind, considerate and protective. So... did I like her better this go around? Well, not at first. Despite knowing that Rafe was one of the good guys, I hated that she treated him as one of the bad ones. It wasn't clear at first what her motives were, but once they became clear, I definitely took a shine to her after that.

However, my heart and all of my attention was for Rafe. He was the end all to be all of this story. He was absolutely fierce and resolute in his determination to protect those that he loved and I respected him a heck of a lot more than I already did. I think it's obvious that I believe Rafe can do no wrong and in this part of the story, he just kept proving me right.

These authors had my heart galloping a mile a minute at some parts of this book. I really didn't know how things were going to turn out and I was tense. Thankfully they broke things up with humor, which took some of the edge off. I couldn't get enough of Rafe... again... obviously... but I was thoroughly entertained by the side characters as well. I feel like I need to know them better so I'll be adding their stories to my TBR. ***Fear*** is next and I can't wait!!

**Release:** Jan. 29, 2018 | **Genre:** Romantic Suspense | **POV:** Dual - 3rd person | **Heat:** 3.5 out of 5 | Book #2 of The Deep Duet

---

### Tanaka K says

Deep did not really impress me much but it ended with a cliffhanger and I had to know what happens next. Deeper was so much better in terms of plot and characters. What I got in Deeper was a bundle of thrilling suspense packed with nail biting and perilous charged plot. I felt the adrenaline and palpable action coursing through out the book. I was really pleased reading the conclusion to such a seductive and highly charged series. M. Malone and Nana Malone are a dynamic duo who gave a focused and mind bending story that had me on the edge of my seat.

Rafe is completely a swoon worthy character. He may appear all dangerous but he was someone willing to go above and beyond for the woman he loves and that takes serious balls in my book. I did not like Diana in Deep. I hated her and I could not sympathize with her at all. But in Deeper, I found myself liking her a bit. I praised her strength and bold nature that made her the perfect partner for Rafe. Yes there are attributes, I still do not like about her but she really proved herself a bit.

M. Malone and Nana Malone can write. The writing just flowed and I found myself so drawn. This is my first series from them and certainly not the last because their writing held charm and definitely enticed me.
