His Wrath Jenika Snow

Brea Collins's past kept resurfacing no matter how hard she tried to outrun it. When she finally settled in a small town, working at a club to save enough for what she hoped was her final escape, she never expected to meet Adrian Holden, a man who made her feel something other than fear.

Adrian's life has been far from a fairy

tale. He fought in the Underground, an illegal cage fighting organization housed below an up-and-coming nightclub. It was his anger and grief that fueled him, that made him the barbarian he was.

When he saw Brea, she called out to every protective, possessive instinct in him.

But their happiness could only last so long.

With two traumatic pasts and an uncertain future, there was bound to be something that drove them apart.

But Adrian was determined to have Brea at all costs, and he would do everything in his power to ensure that, even if it meant raw knuckles and bodies at his feet.

I haven't read many Jenika Snow books but this has been my favorite so far.

We were introduced to both characters in the last book. An incident with Brea left me wondering about her. I was so happy to see this was her book.

The story of two broken people coming together and healing each other.

My favorite quote from the book

"But we prevailed, grew stronger, healed and found each other." And that they did.

Brea went through HELL and she was still running, still hiding. Adrian was her knight in sweaty boxing shorts.

Watching them come together and bare their souls, sharing their horrible heartbreaking past was touching but once the secrets were out the couple got HOT! Seriously setting my Kindle on fire.

A dramatic few chapters had me on the edge of my seat with fear. Her past was back and I was scared for both them.

The ending made me smile. And I am excited about the next book. He is a character that I was very curious about.

Brea and Adrian's story is truly beautiful!!!!

Adrian is an underground fighter, with a dark and ugly past. Brea is in the run from a psycho, abusive ex-boyfriend. Adrian goes through life in a rage filled haze and the only thing that helps us when he is fighting in the under fights. It's the only thing that makes him feel alive, until he sees her. He can tell she has her own demons just by looking at her and he knows he should stay away, but he just can't. Brea has been on the run and looking over her shoulder for the better part of a year and she does not have time for anything else other than making some money to get further away from Cameron. Can these two find solace in each other or will they fight what they have? Will Adrian's violent past be too much for Brea? Will Cameron find Brea? All these questions will be answered in this beautifully written story and I definitely recommend it as a must read!!!

4.5 Stars

Adrian and Brea are both scarred, not where you can see but where you can't. Adrian is a fighter, illegal cage fights are what he does, they are how he survives. Physical pain becomes an outlet for the anger and emotional distress he feels everyday. Brea works as a waitress at the fights and Adrian can't stop thinking about her, noticing her. What no one knows though is Brea doesn't plan to stick around, she is hiding and as soon as she has enough money she plans to run away from the man who will most certainly destroy her if he catches up to her. What neither one of these characters realize is that their lives are meant to intertwine, and it will help heal them both. This story has an intensity and a suspense that will keep you turning the pages as

quickly as you can read them. His Wrath was previously released but has been reworked and you definitely want to add it to your collection. Please also be aware there is a trigger warning in the blurb of this story.

I enjoyed reading and the story has a way of drawing you into it until the very end.

The story is about, Adrian, an illegal underground fighter and a girl, Brea, who was on the run from her abusive ex-boyfriend.

Brea is working at a club, as a waitress, she is good at her job, but she has a aura of don't touch me, disconnect. Which is a tease to the men. She has worked below the bar in the underground and it sets her anxiety off the charts. The bonus to working the underground is the tips and one fighter, Adrian.

Adrian is broken and drawn to Brea, seeing she has the same broken, anxiety and shyness. But instead of denying, his feelings he is drawn to her and he's going to keep her...

Sassy Southern says

Brea is trying to settle down. It's not that she doesn't want to, but more like her past won't let her. She's currently working at a club, saving all she can for her final escape. And then she meets Adrian and for once actually feels something other than fear.

Adrian has fought for where he's at, literally, at an illegal cage fight ring. Using the emotions that drive him, anger and grief, have served him well and earned him the nickname Barbarian. Brea though, gave him something else and he instantly felt protective of her, not to mention possessive as well.

But both knew what they found could only be temporary. How could it be anything but with each having traumatic pasts they're trying to forget? It was just a matter of time, right? Wrong. Adrian is determined to fight for his woman, regardless of who and how many he must go through to keep her.

Can Adrian keep Brea safe? Will Brea give Adrian something else to fight for? Can they help each other heal? Is a HEA possible for these two broken by life?

One-click now and follow along as Adrian and Brea must work through their demons and find a love that can conquer even the greatest foe.

I really liked Brea's determination to do for herself and ensure she could stop living in fear. She was smart about it, not having those too stupid to live moments you want to shake a character for. As for Adrian, though he had his own baggage, he didn't let it impact how he treated Brea. He was not only respectful of her wishes, but was protective at the same time. It was a nice balancing act between wanting to do what he could to keep her safe while not disregarding that she'd made it this far on her own. They were great individually, but as a couple you knew both could finally be whole.- By Elizabeth

Brea has been on the run from her abusive ex for awhile when she meets Adrian, a fighter in the illegal underground club where she works. There's something about him that draws her. She should be scared of him, considering what he does for a living, but when she gets to know him, she realizes what her soul recognized all along - he's a gentle giant whose rage only comes out when in the ring and when someone he loves is threatened. Can Brea give herself over to him and risk hurting him when she has to go on the run again, or will she do what she always does, close herself off to everyone in hopes of not getting hurt again?

Surprisingly, considering the subject, I found *His Wrath* to be really sweet. Adrian is an absolutely swoonworthy hero. The way he loves Brea is so sweet and he's so gentle with her heart, letting her open up slowly and giving her the control in their relationship, as to not spook her. I thought Brea was a strong, tough survivor. I love how she trained and made herself stronger and more capable, and how she finally let herself find love with Adrian. All around, a super sexy, seriously sweet romantic suspense. Can't wait for Tate's story now.

I received an ARC for an honest review.

His Wrath is another re-write in the Underground series by Jenika Snow. I did not have the pleasure of reading the first one, but I can say that this did not disappoint.

This story is focused around Brea and Aiden. Brea is a waitress at the Underground, after meeting Aiden when he saved her from a couple of handsy patrons she hasn't been able to get him out of her mind. But Brea has a secret, she needs to make money and fast so she can finally stop running.

Aiden hasn't been able to get Brea out of his mind since the first time he laid eyes on her in the Underground. He wants her, but he knows that once he has her he will destroy her. He fights his demons every night in the ring, he refuses to let them touch her.

These two characters are damaged in ways that we could never imagine. Snow does an amazing job of showing the beauty in both of their heartbreak while showing that they can help each other heal at the same time.

received this book from the author at no cost

I enjoyed this book. I felt like it started to lag there a bit towards the end but over all I thoroughly enjoyed the story.

I liked how Brea was a fighter. It took her a while to fully see herself as that, but that was what she was. She was a survivor. After escaping a horrible relationship, she ran so she could start over. She never thought that she would fall for another man. Especially not one as large and intimidating as Adrian.

Adrian has not had a good life. He took the skills that were taught to him though and he took himself out of the gutter. Though he still spends time in the underground, its what he does so that he can survive. At first he wants to avoid Brea, but he can't and he falls for her. The fact that all his protective instincts come out with her is endearing. HE may be domineering and an alpha in the ring, but with Brea he's more than willing to move at her pace and what she is comfortable with. He never pushes her and that's something I enjoyed.

I loved the story, and the climatic ending was just what I needed.

I am loving these books and was so happy that Brea and Adrian were getting a story. This is a fab read about two individuals that you cannot help but root for from the beginning.

Brea is in hiding from her abusive ex the only thing that matters to her is saving enough money and disappearing from the face of the earth to somewhere that Cameron will never be able to find her. That is until she meets Adrian an illegal cage fighter in the club that she works at. She has worked the underground of the club a few times when she is attacked during a fight and is rescued by Adrian. She looks into his eyes and is immediately drawn to him, although she should be scared of him he is where she feels the safest she has ever felt. Can she trust the way that he makes her feel and can she escape the wrath of her ex before he finds her and destroys the life she has come to love?

Adrian is an illegal underground cage fighter, after suffering a trauma and a loss that destroyed his world he has been fighting to drive away his emotions of anger and grief. He has become renowned and very successful in the underground world and thought that this was his life until he saw Brea and the fear that she lived with in her eyes from that moment on something changed within him, his desire was to keep her safe and protected above all else. She makes him feel things that he thought were gone forever but together they start to heal. Can these pair of vulnerable people find their happy ever after?

This story is emotional from the start that you cannot help yourself you just want to hug them and pray that they get the HEA that they deserve, both bruised and broken by the lives they had together they become whole. Great read with all you could want from both characters can't wait for more in this series.

Really liked this. He might have been too good to be true but I don't care he adored her. He was all dark until her and he was so sweet and tender with her he made me swoon. She's sweet and running from an abusive ex but no tstd.

Just like all of Jenika Snows books I am totally in love with Adrian, her characters are what makes her books then she gives them a story that makes you feel like you are there and that is what she did with Brea and Adrian.

He fights in an illegal underground fight group and she works at the club above it these two are just what the other needs until their pasts try to pull them apart

Hazel Harkins says

WOW is all I can say about this book. Jenika Snow know how to put a book together that keeps you on the edge of your seat.

Brea Collins is running from a past and is in town just long enough to get together a nest egg that will get her to the next leg of her journey. She didn't count on meeting someone like Adrian Holden who made her feel protected and loved.

Adrian Holden was a hard man with nothing but pain, anger and grief which made him the barbarian he was until he met Brea Collins. She was everything sweet and good that he had no right to want but he did. He wanted her with everything in him.

Could these two heal each other and build a life together or would her past catching up to her put an end to the love they have found. Brea soon discovers she is no longer a victim but a survivor and Adrian will die to protect her even if the cost is bodies at his feet.

This is a breathtaking love story that I simply could not put down once I started reading it.

Shellby says

Jenika books are always quick, but great reads, and this one was no different. I did not find it to be an emotional book. But it was a not one to read were you could escape into

Flo Grugel says

Short and sweet addition, Adrian was swoon!

Rebecca Austin says

Brea Collins is on the run from her past and has found a small town to stay in while she decides on her next move. She is a waitress and has been asked if she wants to work in the Underground area where there are cage fights.

Adrian Holden is a very successful Underground fighter and the one that everyone wants to fight. When he sees Brea something takes over in him and he knows he needs to protect her.

But both Adrian and Brea have skeletons in their closets that have shaped them into the person that they are today. With the other's help can they overcome what they each are up against to come out of it all together?

This is probably my favorite book by this author that I have read!

I thought Brea was a great character who was on the run but also keeping herself smart and safe and aware of what was going around her. She hoped that she would not be found but she knew she had to be ready at a moment's notice.

I thought Adrian was great and I loved how he had a protective nature that wanted to keep Brea safe the moment that he met her. I also loved how respectful he was of her and that he wanted to take things slow as she deserved to be respected.

I loved when the two of them were both comfortable with each other to open up and so they each knew what they were getting into with the other. I liked that Adrian took Brea away to the beach and the fun they had.

The two of them had so much chemistry and the relationship progressed at a normal rate and it felt very realistic with how everything went down and I loved that part of it.

The end was super tense and I loved how it all ended and especially that it wasn't Brea or Adrian!!
