I am not a big fan of historical and this book had a lot of The grammar errors in the text detracted from the story somewhat. Lady Gabriella is sold by her husband because she is barren. Drummond is the buyer. Full of sexual encounters between the two lovers. I found some of the things in the book unbelievable like being married 25 years and never seeing a naked man really. I have yet to decide if I want to continue with this series.

I love historical romance. I would not put this book in that category. This is erotica that is set in the past. I could not finish the entire book due to the fact that he calls her madame nearly every time he talks to her! Annoying

## **Diane K. Peterson says**

Pretty much typical erotica to me -- lots of sex, not much plot. The characters were OK, but their relationship was a little hard to understand, especially at first. At least the book was cheap and short!

My first book from this author. I got this book from kindle because it is free. I didn't know that this an erotica book. Anyway, I liked the plot that is why I got intrigued of it. Honestly, I am disappointed with this book. I just hoped that the author organized the story well. I don't like the characters of the h/h. It would be better if there is something more from it. I love my erotica novels to have story inspite, of the smexy scenes.

For the smexy scenes, well I read a better version of it. It is not really that hot from the other erotica books that I read.

I included it in my BDSM book because of the spanking part, but I think it is not that kind of book. I am very interested about the Archangels story, but I am hesitating about how the story will go.

For me this book is 2.5 stars. If only the author will organize and put some characters in the h/h this will go to 4 stars.

#### Erotic period romance

I stumbled on this freebie by pure accident and was immediately drawn in by the “Billionaire’s Boys Club” vibe. I admit, I’m a total sucker of powerful men being brought to their knees by the most unsuspecting of women.

I don’t prefer Regency age stories. My wheelhouse is the mid to late 1800’s but I figured as long as this wasn’t heavy on the history I could manage. It ended up being a very nice surprise which was light on the history! Yay!

I loved the opening scene where we meet our group of wealthy Lords all gathered around a game of Monte. This group of friends referred to as the Queen’s “Archangels” were spies for England during the war against Napoleon. They were known as a fearsome band of men, the sort one didn’t dare cross. With the war now over these men attempt to find their new role in a society that doesn’t require their services any longer.

The first book, *"My Lady Compelled"* focuses on the alpha leader of the Archangels, **Drummond Penhurst, Duke of Kittridge**. We briefly meet the other 4 Lords all who have been physically scarred by this war but aside from this minor detail the author doesn’t delve much into their personal histories. But what we do know is that this group will give their lives for one another.

Drummond is informed that **Lady Gabriella St. John** has been put up on the auction block by her husband after 25 years of marriage since she is barren but his mistress is now pregnant with his heir. I wasn’t sure I was going to be able to handle this! My ears were already burning with fury! Anyway, Drummond wins the auction for Gabriella who we find out had jilted him 25 years earlier for the man who was now selling her off like chattel.

Enter the dom/submissive trope.

Drummond wastes no time exercising his dominance over Gabriella and the sexy scenes hit you fast and hard. Totally unexpected! Gabriella, of course is no pushover but having been trapped in a loveless marriage for 25 years makes her a prime subject to become Drummond’s submissive.

Shirl Anders weaves a very erotic period romance, heavy on the erotic which doesn’t take away a woman’s power which I totally loved. As Gabriella discovers the joys of intimacy in the hands of Drummond and allows herself the freedom to explore her own sexuality the story molds into something powerful and engaging.

I enjoyed both of the main characters as they discover the boundaries of love and sexuality.

Again, this book is heavy on the erotic. There isn’t much content to a story but I didn’t find a need to drag this out for what it was. We get the gist but the emphasis here is on sexuality and anything outside this realm was just icing on the cake.

This was my first read from author Shirl Anders and won't be my last as I look ahead to the next books in her "*My Lady*" series.

This book was a short read of 80 pages so if you're looking for a quickie, light on story line but HOT in the bedroom and several other places you might enjoy picking this one up!

I'm not a big historical fan but I really liked this one. Lady Gabriella is sold by her husband of 25 years because she is baron and the person that buys her was her suitor 25 years earlier before she married her jerk of a husband. Drummond has always loved Gabriella and never understood why she didn't marry him. This is their second chance at love.

I will also say that at 90% (the last chapter) I was laughing so hard that I had tears in my eyes.

I look forward to continuing this series.

### **Judith says**

A highly erotic Regency romance with emphasis on the "erotic." When Drummond found out that Gabriella, Lady St. John, was being "sold" by her husband in a "wife sale," he could not resist buying her. In truth, they had been a first love for each other, and Drummond was still puzzled after 25 years why Gabriella married someone else. This is a novella about the way Drummond stripped away Gabriella's false modesty and her socially correct and false perceptions about the true passionate nature of love between husband and wife. As leader of a now inactive spy organization called the Archangels, Drummond had the resources to prevent her husband from "buying her back" as he now knew he couldn't go on without marrying her as he had hoped to

do 25 years earlier. A short story jam packed with hot loving and some exciting interaction of the Archangels as they enable Drummond and Gabriella to find the HEA.

Lady St. John is purchased by a man that used to be in love with her and still is from her husband of several years. Drummond has to convince his love that the purchase was for her own good and that she also still had feelings for him as well. Pretty good read and not too long of a story either!

### **Taryn says**

My Lady Compelled is the first book in The Archangels series. It's a series of 6 erotic historical romance books that take place in the Regency era. The Archangels group consist of 6 men who helped England by spying on the French.

The book starts off with Lord St. John having a "wives sale". His wife, Lady Gabriella St. John is barren and he sees no need to have her anymore as his wife. Lord Drummond Penhurst, the Duke of Kitteridge hears of this sale and names his price. Lord Drummond has always been attracted to Lady Gabriella. He thinks by taking her as his wife he can teach her how to pleasure a man properly. Little does he know Lady Gabriella has never seen a man naked or what to do with one even though she's been married for 25 years. Lord Drummond wins the sale and starts his mission off by pleasuring Lady Gabriella three times. Lady Gabriella is in shambles after that. She has never felt or experienced anything so unbelievable in her life. She figures since she was bought and paid for that she now needs to do what he said, especially after he brought her to climax and donned her in diamonds.

If you want a fast historical very erotic read, then this book is for you. The story line wasn't that strong but that didn't bother me while reading this book. I wanted a hot steamy erotic romance and that is exactly what I got. I did enjoy it and I plan to read the rest.

I love this love story, rescue is one of my favorite themes. First sex scene is a fantasy of many. I'm not usually into BDSM, but this is light on the B. S, M and heavy on L O V E!
