The CEO's Reluctant Lover Alexis Blake

Carter Davis' new nurse is perfect, except for one point - she isn't actually a nurse. She's a corporate executive and his new next neighbor.

Vanessa Imenerse is a beautiful, African American woman, who is both smart and savvy. A corporate headhunter is trying to get her to accept a job as CEO of GainsCorp, so Vanessa thought she'd enjoy a well earned vacation in New York at his expense. The only downside is her neighbor is constantly shouting at people.

Vanessa decides to investigate. She discovers her neighbor is an incredibly handsome man who is bed bound while he recovers from a car accident.

When Vanessa walks into his apartment Carter sees a beautiful woman who identifies herself as Vanessa I'm-a-nurse (Imenerse) and he immediately thinks she has been sent by the nursing agency to replace the girl who quit! Vanessa tries to explain the misunderstanding, but he won't listen and through compassion she decides to help him.

They both fall in love while she looks after him and after he recovers they explore New York city together.

But neither of them realize that the job Vanessa has been offered is to replace Carter in his career as CEO of GainsCorp.

Can their relationship survive this massive dilemma?

Vanessa is torn between the great job offer and the man she has come to love. Once again, she must choose between love and her career.

And when secrets from Vanessa's path began to resurface, will their bond be able to keep them together? Or will everything fall apart...

Zandra says

Holy grammar issues, Batman! I was not sure if I could finish this whole book, and honestly I did not. I gave up about 60% into it. I could not stop rolling my eyes while reading. This story is EXACTLY the type of sappy dribble that made me ignore the romance genre my whole life. This book definitely lacks the edge I prefer and is a bit too cheesy for my taste.

Taz Will says

Cute story, editing needs to be done because it was missing a bunch of words and other things. Vanessa went to NY because she was deciding if she would take a CEO position or not. They gave her a month to figure it out. She ended up meeting Carter, who was on bed rest from an accident. He thought she was the maid, go figure, and was rude to her from the jump. The book moved by telling what was going on with them over the weeks. Then her ex, the one she'd dumped in the opening pops up. Her and Carter seem like a good couple until the end something about her keeping a secret from him. Not sure about reading the next one but I'm not saying I won't.

Nyimah says

Wasn't the worst book I have ever read. But it was far from the best. The story was pretty cookie cutter and non-realistic. If Disney made adult sitcoms that's what this would be with dramatic over simplified scenarios and conflicts falling perfectly in place.

Tameka says

Intriguing

Can't wait to read the next parts to the series. What is Vanessa hiding? And I warmed a lot to Carter in the end I wanted to slap him at first. I wish these two dynamic couple a happy ever after in the end

Taria Flood says

Sub-par plot but more important were the mistakes! I mean, couldn't she get someone, anyone to proofread? I highlighted mistakes, and there are a lot, but not all of them. Simple mistakes like "there" when it should be "their". Come on authors, please proofread or ask a friend. You can't put that out there and then expect people to pay for your work.

The actual story was meh. It felt like it needed more. I'm not interested enough to read part two.

Felicia says

This was an interesting read. The errors I found while reading the book bothered me but other than that, it was an interesting story. I would love to know what happens to them next.

Amoy says**Was good****Was good**

good book to read if you like interracial like me, however it's a 3 part series. This one was good let's see how the others pan out

Alice Morrison says

I love this book. It is a greasy read.

Lornajean(Nutnut1) Ford says

was ok was a free read not really sure if i want to read the next one unless it was free or maybe under £1

Rena says**Not really reluctant**

Overall, the story had a interesting twist. I wasn't crazy about the ending. However, the title didn't seem to fit the story as both people weren't reluctant.

Rosepetal78 says

Um, no. Moved way too fast for a series book.

Linda Washington says

Just okay, the story was ok just seem a little rushed for me, I would have liked for a lil bit more of the story, to quick to the point .

I gave this rating because the story line could have been a lil better, I would like to read part two just to see how it ends
