Kat says

kalis brother was murdered after she didnt want to talk to him on the phone. she felt really bad and went to his house to figure out what happened. her sister joined her but went back and forth to her husband and kids as she was having her own troubles at home. they figured out he was involved in porn but only financially. they also found out he had a daughter with a woman who he was accused of murdering. they found the daughter that was given in adoption but no longer wanted at 16. kalis sister adopted her

Robin says

I usually enjoy the Kali O'Brien legal series, and while this was fairly readable and kept my interest, I can't remember much about the plot, which is why I only gave it 3 stars. I figure that if no remnants of the plot stick in my brain, then it must not have been that great.

Debbie says

while reading this i remembered i'd read her before but couldn't remember which book. gee, i'm glad that i found her again.

enjoyed this one,too.

VLynch says

Lots of twists and turns, almost too many twists and turns. I liked the main characters, and there are some personal conflicts that are interesting. Not a bad read, but not quite a "great read".

Erin says

Really good mystery. Liked a lot! Will seek out the rest from this author.

Jim says

This is a very good read.

Complex plot and a number of sub-plots, and good character development. A well-written novel. I enjoyed the story, and it did not reveal the culprit until the end.

Jeff says

This is a suspenseful who-done-it with a credible plot and believable characters. It's not especially complex, but it's well paced. I suspected I knew the identity of the killer fairly early in the story, but I didn't guess the motive before it was revealed at the end.

Cindy Piller delivers a very satisfactory performance, giving distinctive and appropriate voices to the characters. This was an engaging listen.

NOTE: I received a free copy of this audiobook in exchange for this unbiased review.

April says

The Next Victim
: Jonnie Jacobs

This is the third title that I've listened to by this author, and so far my favorite. Kali O'Brien is out to prove her brother wasn't a murderer and his death wasn't an accident. She meets many people along the way. Twist after twist has the listener wondering not only who the murderer is, but also who is good and who isn't. I couldn't wait to find out who did it. I hope to get the next one soon.

The narration was well done. The characters were well portrayed by Cindy Piller.

"I was voluntarily provided this review copy audiobook at no charge by the author, publisher and/or narrator."

Dana Plewka says

Kali is at it again! When her brother dies while being a suspect in a murder, Kali starts an investigation to clear his name. The list of suspects with dubious characters is long and soon Kali and her sister are warding off threats to their lives.

I've loved reading this series and watching her character develop and mature. Although I had a pretty good idea "who dunnit" about half way through the book, there were still a few twists and turns that had me doubting my theory.

Piller, as always offers a stellar performance with a wide repertoire of voices that helps the listener track all the characters.

Lain says

Whodunnit was pretty obvious but still a well-written and enthralling read. The author's writing has Matured so much over her career- it's fun to watch her development and see her take her writing to a new level.

Icicle4 says

New author for me. Was pretty decent - not as good as Crais or Child, but not bad. Took place in Tucson which was interesting. I think I'll probably read some more by her -believe this book was the last in the Kali O'Brien series.

Roblyn says

Yet another beach read - slash n' trash - nothing to write home about but an entertaining book for mindless entertainment - If they had half stars, I'd give it a 2.5.

LJ says

THE NEXT VICTIM (Unlicensed Investigator-Kali O'Brien-Tucson, AZ-Cont) – G+
Jacobs, Jonnie – 7th in series

Kensington Books, 2007, US Hardcover - ISBN:

First Sentence: The call came a little after two in the morning and pulled Erling from a particularly pleasant dream.

*** San Francisco attorney Kali O'Brian is away on the camping trip but, when checking messages, finds a call from her brother in Arizona, with whom she has not had contact for some time. Returning to the city, she learns her bother allegedly committed suicide after murdering a woman and her au-pair. Kali travels to Arizona to settle John's estate and clear his name.

*** I've always liked Jacob's Kali O'Brien so it was nice to read a new entry. I enjoyed the balance of the investigation and look at the relationship between Kali and her siblings, as she learns things about them she hadn't known. There is an interesting conflict of the lead cop who knows he should recuse himself from the investigation because of an affair he'd had with the victim. It's nice to see Kali taken out of her S.F. environment. Jacobs gives us a good sense of being in Tucson. The dialogue is a bit stilted, but the story definitely kept me turning the pages.

Suzan says

Jonnie Jacobs has done it again. I just love her books. Can't wait until get my hands on the next.

Linda says

Great book...real surprise ending!
