### **Spammonia says**

The ending to this series was terrible. It seemed as if the writer was tired of all the plot twists and suspense. The buildup to the end was immensely enormous so I guess he got overwhelmed and wrote an underwhelming ending. I still read it though.

### **Karina says**

I learned in this book and many other series of unfortunate event books that in life nothing is fair! To me this was a pretty good book I enjoyed it very much and if you havn't read any of these books you are surely missing out, so read one. (: First off, thank goodness for Lemony Snicket without him I would definitely not appreciate the things I own and have in life. This book is about three Baudelaire children, their parents are dead and they are in the middle of no where, being accused of murder. Oh and did I mention while they are being chased around for murder that a evil man named Count Olaf is searching for them, trying to steal their fortune that the three childrens' parents have left behind for them for when Violet comes of age. Okay, so now I would like to tell you about the three Baudelaires. Violet is 14 years old, she loves to invent, and can invent almost anything out of whatever, she is super talented. Claus is 13 years old, he has read thousands of books and surprisingly he can remember about every detail in those books he has read. Sunny is the youngest Baudelaire, she is 4 years old, she doesn't have much of a vocabulary, and she has four teeth that are as about as sharp as any lions teeth, therefore, she enjoys biting on things. These three children are just trying to escape and survive as well as they can until they come up with a plan to do something that will benefit their lives. There you have it that is basically what The Hostile Hospital by Lemony Snicket is all about.

### **Graham Wall says**

I haven't read these in a long time, though I think I only made it through the first three or four. Reading became tedious when I noticed how the plot never changes throughout the books - then again, it's absurdist fiction. The books are well written, but I don't find myself that inclined to read the same story nine times.

---

### **Leslie says**

No matter how many times they told me how the ending would go, I still I wanted to read it. I suppose it's because Lemony Snicket had created very memorable characters and like any fan, I just didn't want it to end that way.

---

### **Hyein says**

I really enjoyed this book because it was unique. I found this book accidentally and I noticed that this book is the one that was made to movie. The book is not like others. Even though it is for children, it doesn't tell children hope or coincidental events. Three children in this book lost their parents and all of the sudden they became orphan. If it was like other stories, they would suffer hard time but eventually they will live happily ever after. However, the author wants to be cruel for these children. They are having hard time every minute and they can't run away from that. After they over come one hard situation, another one happens. Though those three children have their own ability and they are not normal children, they cannot over come it. I just read first book, The bad beginning, so I was curious about how will their destiny will go. If I have a chance I want to read other eight.

### **Paige Wise says**

This review is for books 1-13

I thought that these books were very interesting. I liked how snicket made a secret little org. and all of that stuff good one!!!!!!#@\$\$%^\$&())%\$\$#\$%^\$&%^%\$#

---

### **MBracco says**

I read this series over the summer. I usually finished the books in a day- that's how much I loved it. I recommend.

---

### **Virginia says**

I must say that this series disappointed me. The first few books of it that I read were pretty good, but after the third or fourth one, I really had to push myself to finish them. It isn't that they're hard, but they are quite repetitive, and it seems that half the time, Lemony Snicket spent more time telling you to put the book down than he did telling the story. It drove me nuts.

---

### **Lord Kai says**

An outstanding set of books i have ever read ever in my life!!!!!!!!!!!!!!!!!!!!!!

---

### **LilDaddy says**

I don't why there are three book cover looks but anyways this first book. Was about I think about two orphans that are taken to a bad orphanage. The man who takes care of them is the person who is bad. He takes good care of them at first. Then he takes care of them badly, anyways this book was very interesting.

---

### **Gracie Hodge says**

"A Series of Unfortunate Events, A Bad Beginning" by Lemony Snicket, The book had great detail and always kept you on your toes, that's why I rated it 5 stars. It's about the three boulderdare children who lose their gigantic house and parents in a terrible fire and have to stay with their uncle, Count Olaf. Count Olaf's house was very old and run down, and he always made the kids do these horrible, back-breaking chores.

---

### **Isabella says**

4.5 - I grew up with these books and let me tell you these are some of the most thrilling and amazing books I've ever read. They had me on the edge of my seat with endearing and engaging writing. I could never find myself putting the books down. It is one of those rare finds in a series where you think "how could this author possibly make the next book any better" and you find yourself baffled that he has anyway. With thrilling mysteries to uncover book after book only to find out the biggest mystery of all hiding right under there nose fans won't be bored.

---

### **Lara says**

This series was one of my favorites in middle school. I loved the author and how he constantly broke the fourth wall. The definitions of words were entertaining for me but actually really helpful to my sister, who struggled to enjoy reading overall but loved these as well. It's a charming little story, although I will say that the ending was incredibly disappointing (I'm still not sure I really understood what happened...), and the narrative started to get a little repetitive around books 7 and 8.

#### **Books**

The Bad Beginning 4 stars  
The Reptile Room 4 stars  
The Wide Window 4 stars  
The Miserable Mill 4 stars  
The Austere Academy 4 stars  
The Ersatz Elevator 4 stars  
The Vile Village 3 stars  
The Carnivorous Carnival 3 stars  
The Slippery Slope 3 stars  
The Grim Grotto 2 stars

### **Tanvi says**

I've read all the Series of Unfortunate Events books and I really like them. You'd think they were really depressing and they kind of are, but they're also funny-in a sarcastic, ironic way.

---

**Karen says**

These are really cute books for kids. I've only read the first nine and I know there are more than that.
