Bound Mormon

Nix Knox

Bound Mormon Nix Knox

Finding his calling just might cost him his relationship...

After surviving a savage beating, Noah Cameron is determined to live life on his terms. Not only has Noah embraced his need for bondage and married his Dom, but his near-death experience has compelled him to quit his job and search for his passion—helping other gay Mormons.

Ex-professional Dom Ronan Porter enjoys role-playing with Noah, but each day he moves further away from the harder elements of BDSM. When Noah's website, BoundMormon, conflicts with Ronan's hopes for a more normal lifestyle, Ronan is caught between what he wants for himself and supporting his partner.

Just as they've started their life together, two paths beckon—and threaten to tear them apart.

Natalie says

Again, brief and underdeveloped

The blurb for this story was rather deceptive. It made it sound as if there was a major conflict to be resolved between Ronan and Noah. It also I was waiting for Noah to start demanding heavier scenes that Ronan didn't want and that Ronan was going vanilla. This was not the case at all. The conflict was very short-lived and not at all what I was expecting. I also thought that Noah would be deeply involved with a gay support group for Mormons. That also wasn't really the case and the reality was rather disappointing. The only really good part was that the majority of the story was some fairly hot sex scenes.

Z-squared says

I missed these guys! Noah and Ronan are just so damn cute together. And pretty well-rounded as a couple. And holy-Winchester-abs are they *HOT!*

Free on Smashwords. Rock on!

Leo says

Nice hot read

Trio says

great characters, but The Mormon and the Dom was a much better book.

Tessi4M says

What a nice surprise. I didn't know this book was on its way. I loved meeting Noah and Ronan again. A short read offering insights into their lives and their relationship with Noah struggling to find his calling. And with some nice hot scenes from the playroom as well.

Elaine says

I liked the story, but I have to read book one to get a better understanding of it. A free read from Amazon.

Tammy says

Love catching up with Ronan and Noah again. Very insightful things are happening in the playroom. Noah finds his calling. Hopefully there will be another book about these guys.
