Breaking the Mould Victoria Hamilton

In the new Vintage Kitchen Mystery from the author of *No Grater Danger*, when the town's resident Scrooge is found dead, Jaymie says *Bah humbug!* to murder . . .

“I have loved this series from the first book . . . it’s like returning to a favorite nook for a cup of tea. It will delight, entice, and drive a reader to want to solve the murder.” —Goodreads on *No Grater Danger*

Now that Thanksgiving’s behind her, vintage cookware enthusiast Jaymie Leighton Müller is excitedly making plans for the upcoming Dickens Days festival—the town’s month-long celebration leading up to Christmas. With a hot cider booth on the village green to warm the hearts and bodies of the townsfolk and a diorama featuring a scene from *A Christmas Carol*, things are shaping up for a festive season—until the town’s local Scrooge is found murdered, a vintage pudding mould covering his cracked skull.

Nearly everyone had a reason to dislike Evan Nezer—either for his bullying ways or his obnoxious arrogance—but with his body being found in Jaymie’s diorama, she’ll have to figure out who hated him enough to see him dead. With many suspects and even more secrets coming to the surface as she investigates, Jaymie feels buried by a blizzard of clues. But with Dickens Days on hold until the police can nab the killer, she’s determined to catch the culprit so the ghost of Evan Nezer doesn’t cast a pall over the whole Christmas season.

Another great book by Ms. Hamilton

Anne says

Breaking the Mould (book eight in the Vintage Kitchen Mystery series) by Victoria Hamilton began with a Scrooge-type character named Evan Neezer who is trying to cause trouble for the Queensville annual Dicken's Days celebration which is just days away. While Jaimie and her friends are dealing with that issue, a woman new to town, Jaclyn Marley, approaches her about joining the historical society, Sounds like it is going to be an adaptation of A Christmas Carol, doesn't it? Well, it's not. Instead it is a tale of a murder and determining whom the murderer might be with lots of ins and outs and red herrings. Jamie Leighton Muller is the lead (amateur) detective who is a character different than in most cozies with a husband and life that is both charming and run-of-the-mill.

Hamilton has developed interesting characters and lots of them with a well-thought-out plot and a fun holiday vibe. It was a totally enjoyable read that I would recommend to anyone who enjoys a good mystery, especially a cozy.

I received an ARC of this book in exchange for a fair and honest review. #netgalley #breakingthemould

Sandra Qian says

Breaking the Mould was very well written and a good read for the days you just want to have a cozy read. The characters were well thought out and very colorful throughout the story. I liked the twist in names that included a cherished Christmas classic.

The story is very slow paced with lots of description of people and settings which was not for me but others may like it to help them get deep into the story's mystery. I found the story pace too slow with all the description which took me longer to get through than I normally like. It just didn't have that natural flow for me.

I found I was reading about people and settings that didn't seem to advance the story but this could be liked by people who need more to set the scene for them.

For a mystery, the mystery part usually happens towards the beginning of the book so that you feel more involved in the sleuthing but this book does not work like that and kind of left me feeling overloaded with all the information and nothing yet to do with it until the mystery happened. You do get hints along the way, but it took too long for me.

If you like a cozy mystery that you can linger and cherish while sipping your favorite hot beverage, then this book is for you.

Thanks to Net-Galley for the ARC in exchange for my honest review.

Anna says

Thank you NetGalley and the publishers for a copy of this book in exchange for an honest review.

This is my first Vintage Kitchen Mystery and it is so well written that I did not feel that I couldn't follow along because I had not read the previous books. The characters are charming, though there were possibly a few too many to keep track of at times.

Jaymie Leighton Muller is preparing for the Dickens Days Festival. She's in charge of the hot cider booth on the village green and a diorama of a scene from Charles Dickens, *A Christmas Carol*. Then everything goes wrong with the murder of the town's very own Scrooge Evan Nezer. He's found in Jaymie's diorama staged with a vintage pudding mould on his head and a stake of holly through his heart.

Almost everyone in town hated the man and thought he was arrogant, obnoxious and a bully. The longer Jaymie investigates the crime, the more suspects she ends up with. The more suspects, the more secrets she uncovers.

Until the murderer is found, the annual Dickens Days are on hold and Jaymie and the police are working to solve the crime before the entire Christmas season is ruined.

Patty says

Breaking the Mould by Victoria Hamilton is the 8th book in a Vintage Kitchen Mystery, and another fun addition. I really enjoy this series and have been reading it from book one. Jaymie has come so far since we were first introduced to her. Jaymie is married to Jakob Muller, and the step-mother to his charming daughter. The town is busy getting ready for Dickens Days Festival, but when the town Scrooge, Evan Nezer, is found dead. Jaymie is determined to uncover the truth. I found this book to be a quick and fun read, with a well developed plot and characters. If you love cozy mysteries, which are my favorite, you will love this book. I recommend this book/series.

I received this book in exchange for a fair and honest review.

Grace Koshida says

Jaymie Leighton Müller is looking forward to the upcoming Dickens Days festival in her hometown of Queensville, Michigan. Jaymie's contribution is a diorama from a scene in *A Christmas Carol* which will be located next to the hot cider booth on the village green. But local Scrooge Professor Evan Nezer has moved into the house next to the planned Dickens Days displays and is threatening a lawsuit to stop the event. Someone then torches the cider booth and decides to silence the obnoxious bully. Nezer is found murdered in Jaymie's diorama with a vintage pudding mould covering his cracked skull. With Dickens Days on hold until the police can nab the killer, Jaymie is determined to catch the culprit. There are several people who hated Nezer so there are plenty of suspects and motives for Jaymie to investigate.

This was another delightful read in the Vintage Kitchen mystery series. I like how Jaymie's personal life is

developing with her marriage, motherhood to stepdaughter Jocie and her integration into the Muller family.

I received an eARC via Netgalley and Beyond the Page Publishing with no requirements for a review. I voluntarily read this book and provided this review.

Susan Johnston says

Princess Fuzzypants here: Okay. I confess. I love plays on words so when two of the key characters in this book set just before Christmas were named Evan Nezer and Jacklyn Marley, I knew I was in for a treat. The murder victim makes Scrooge look like a philanthropist, before the ghosts. He is a totally reprehensible excuse for a human and all the ghosts past, present and future could not have melted his heart since he clearly did not have one.

This litigious misery wants to destroy the town's Dicken's Days that herald the Seasons' festivities. Between the people he has damaged, hurt or destroyed, the line goes around the block as to who might want him dead. There is hardly anyone grieving but to be bashed on the head with an antique pudding mould and then staked through the heart with holly does seem a bit excessive. Clearly the murderer is trying to pin suspicions on either Jaymie or the old gent with whom Evan Nezer has a confrontation.

As the story unfolds and Jaymie discovers the villain, there is a certain sympathy for everyone who crossed the victim's path. I must admit I did suspect the killer but there were lots of motives swirling around. It's a good mystery with lots of nuances, particularly in how different people deal with the things life presents. There are some great characters, including Jaymie, her husband Jakob, their daughter and pets. There is a strong undercurrent of acceptance and appreciation for people who do not fit a "mould". I like that. Since there are few "perfect" characters, the stories always seem more realistic.

Five purrs and two paws up.

Kim says

For me, this series holds a special place in my heart. The first book in this series (A Deadly Grind) was my first every cozy mystery, which started my obsession with the cozy genre. Now to the present book (book 8) in the series, this book is just as good if not better than that first book. This book can be enjoyed as a stand-alone mystery or as part of the series. I love how the characters have developed and changed with each relationship and new interaction. The characters are still wonderful and have their little quirks but are now much more complex characters. The mystery is well-written and plotted with several red herrings though out the story to keep you engaged and guess whodunit. The setting of the Christmas season was a wonderful touch to the storyline to include Jaymie's husband's Christmas Tree Farm. This is still one of my favorite series and I recommend this book to any mystery fan and fans of vintage cookery and recipes. A bonus for readers at the end of the book, there is a recipe included.

I voluntarily agreed to read a copy of this book supplied by NetGalley. All thoughts and opinions are my own and in no way have been influenced.

Gail C. says

My thanks to NetGalley and Beyond the Page publishing for providing me an advance digital copy of *Breaking the Mould* by Victoria Hamilton in exchange for an honest review. This is the eighth book in the Vintage Kitchen Mystery series and my first time reading any of the them. I felt this put me at a bit of a disadvantage as there were a number of secondary characters who were part of the story without much explanation of who they were, what they looked like, etc.

The story had some good clues, although they were not as useful in solving the mystery as they might have been. I solved it easily enough, but didn't see a clear path of clues pointing to the killer even though I was expecting them. There were also some excellent red herrings that gave the reader an opportunity to go astray in their attempt to solve the murder.

I'm thinking this is a series that may best be enjoyed if the reader begins with the first book in the series. At the end of this book I'm not sure I have a clear picture of what the people look like, how the town is organized or why it is called a vintage kitchen mystery series. There is brief mention of a shop where apparently some vintage items are sold, but it is only talked about in passing and doesn't figure into the book in any meaningful way. Relationships between the protagonist, Jaymie, and the secondary characters are mentioned, but don't seem to have much depth within the book. It's quite possible these have been explored in earlier works and would then represent repetition to the majority of readers who have been acquainted with the series.

While this is a Christmas book in that it occurs around the town's celebration of "Dicken's Days" and the planned celebration featuring a diorama and other decorations highlighting *A Christmas Carol*, there is little else that has much of a Christmas feel. The one exception is Jaymie's family who live on a Christmas tree farm, and toward the end of the book there are some references to the opening of their lot for the season. The names of some of the characters were plays on names from Dicken's book, such as Ben Nezer, Evan Nezer, and Jacklyn Marley. Rather than adding to the book, I found these initially more distracting as in the beginning I didn't recognize the strong connection between the story and Dicken's novel. This slowed me down as I tried to keep my mind on track with this book rather than veering off to *A Christmas Carol*.

This book may best be enjoyed by readers who have invested in this series and are well acquainted with all the characters and the setting. For readers who are new to the series, I would encourage them to start with the beginning book to get better acquainted with the people and place for this series.

Series: Vintage Kitchen Mystery #8

Publication Date: 11/13/18

This author has done it again! Another well-written and well-plotted mystery is now added to the Vintage Kitchen Mystery series. I love the inhabitants of Queensville, Michigan more and more – each time I meet them, there is something more to love about them. In this book, I especially liked that we spent more time with Jakob – but I would love it if he got into helping Jaymie solve the mysteries instead of just being background candy. Another thing to love is this book is the author's sense of humor in naming the Scroogelike character – Evan Nezer. She also gives a 'shout out' to author Sue Grafton, and I loved that – and, we shouldn't forget Jaymie's love of reading Historical Romance novels.

The town of Queensland and Queensland's Historical Society are getting ready for their second largest

fundraising event of the year, the Dickens Days annual Christmas festival. Everyone is excited for the tree lighting scheduled for the Friday of Thanksgiving weekend. Jaymie is particularly excited because she has created a diorama that is the Cratchit's Christmas Pudding scene from Dickens' A Christmas Carol.

As they are setting the tree into place and anchoring the Cider House into place, the local Scrooge – Evan Nezer – arrives to make a scene. He's a particularly nasty man who has just moved into the house that directly abuts the town-owned area where the displays are being set up. He HATES the Dickens Days celebration and is determined to stop it – well – actually – he just hates everything, but the topic of the moment is the Dickens Days events. Since that area of Michigan is very windy in the winter, they need to anchor the Cider House so that it is steady in the winds. In order to do that, they have to drive a stake into the ground on Nezer's property and he isn't having it! "I don't care who's around, you can't use my property. GET OFF!"

It seems that Nezer does nothing but antagonize everyone he meets. He cheats them, lies to them and then gloats and tells them how inferior and worthless they are. Yep, he's a real piece of work! So, it is no surprise when he turns up dead – murdered. However, it is sad that he's discovered by Jaymie in her much-loved and anticipated diorama.

There is certainly no shortage of suspects in the murder, basically, the whole town has had run-ins with Nezer in the last few days. Unfortunately, the murderer left clues pointing to the one man in town that Jaymie is sure didn't commit the murder. Plus, there is a short timeframe to resolve the murder because they need to get the police tape removed and the diorama taken down so they can begin the events. So, of course, Jaymie starts to investigate on her own.

There are so many plots and sub-plots you'll need a scorecard to keep up with them all. Each of those is a bit of a mystery in itself and the murderer will surprise you.

I thoroughly enjoyed the read and highly recommend it. I do want to mention though, there is a bit of a political slant in the book. As you read, you'll see that anyone with any bad connotation to them at all is a "Right Wing Nut Job" or some other sort of weird conservative.

Includes a vintage recipe!

I always love how on baking competition shows people say "well I used my family's 80-year-old recipe for shortbread". Women then KNEW how to cook and had recipes that were not found on Pinterest. (I make that joke as I recently ran into a Chocolate Crinkle Cookie recipe online that left out the flour... the flour!!!!) I actually have a lot of vintage cookware from "the cottage" and my other grandparent's farm so I really enjoyed reading about the cookery items in the book.

Every time I read the dead guys named, I laughed ... Evan Nezer is so close to Ebenezer I wonder what he did to his parents to tick them off ?. The story is wonderfully crafted and I liked how you could not guess the murderer as soon as they appeared in the story. The added recipe was a bonus: it is what we will be making in the baking class that I run next week!

If you love mysteries like this, this is a great book that I can highly recommend. I so want to go back and read the entire series of books- I totally appreciate that the book is only \$4.99USD as so many books, even these cozy mysteries, can run \$45 CAD for a 200 or so page book: "that be cray-cray"!

I normally award stars, but this deserves ? ? ? ?

Bah Humbug Good!

Every town has their version of Scrooge, Bah Humbug and all that. But Evan Nezer takes the cake when he threatens to shut down the Dickens Day festivities that are taking place right outside his front door.

Not long after several confrontations with locals, Evan is found dead in the midst of a Dickens Day diorama and who didn't want him dead? He just rubbed everyone the wrong way and made more enemies than friends. But since it's Jaymie's Diorama, she's taking it personally and is determined to find the murderer and get the Dickens Day festivities back on track!

This was my first introduction to this series, how have I missed this? I was hooked from page one! Lots of

red herrings and suspects to keep your mind sharp and guessing for a good while. A great read for the holiday season and beyond!

Kay Garrett says

BREAKING THE MOULD by Victoria Hamilton is the eighth book in the Vintage Kitchen Mystery series.

The story revolves around the upcoming Dickens Days celebration held in Queensville, Michigan. Jaymie Leighton Muller, along with her husband, Jakob, and her nine year old stepdaughter, Jocie, all have a hand in the events.

The town has its own version of Scrooge in the form of Professor Evan Hollis Nezer who wants no part of Dickens Days. He seems determined to be detrimental to preparations too. Evan is despised by many as well as feared by some due to his harsh tongue and his continual legal bouts of suing everyone.

When Evan is found murdered in Jaymie's labor of love, the diorama of a scene from Charles Dickens, "A Christmas Carol" with evidence leading to her and that he was positioned to mock the scene, she knows she has to find out who did this and why.

Jaymie wears many hats from working at the Wolver Hampton Weekly Howler to working on her own vintage cookbook, but she has become a very good amateur sleuth helping to solve other murders in town. She's even earned the respect of the local police. Between the police and her, they have to find out who the murderer is and solve this mystery before the Christmas holiday season is ruined for the whole town. Tourism is big bucks for the businesses in town and the Dickens Days bring in lots of tourist. However, no one wants to visit a town that is tangled up in an unsolved murder.

It seems that the more answers she gets that the more questions she's got. Can she figure out who the guilty party is? Is her life in danger since whoever is doing these things is making it appear that it's pointed towards taunting Jaymie.

Along the way, we meet some of the colorful residents of Queensville. Some are helpful others not so. Seems there are quite a few secrets in this small town. Are they secrets worth killing for?

I would definitely recommend this book to anyone that loves a great, well-written cozy mystery that has you trying desperately to the very end to figure out who the culprit is. Love it when an author keep you hanging and a guessing that way.

It can definitely be read as a standalone. I have not read all the other books in this series and had no problem figuring out who was who or keeping up with the events. As good as this one was, after reading BREAKING THE MOULD, you will be like me and looking for the other books in this series.

Cindy says

I think this is my favorite cozy mystery that I have read thus far. I seriously never would have guessed the

killer. It really kept me intrigued the whole way through. Highly recommend.

Thank you to NetGalley and the publisher for an advanced copy of the book.

S.K. Smith says

There's a new scrooge in town – Professor Evan Nezer

This is a continuation of the cozy Vintage Kitchen series. I thought it was nice that the author had a cast of characters at the beginning. That way you can enjoy the book even if you haven't read the previous books in this series.

The main character, Jaymie, is adjusting to being married and having a new step-daughter. She is also busy getting her diorama ready for Dicken's Days, the town's month-long Christmas celebration. Things take a turn for the worse though when a body is found in her diorama. It looks like the celebration will have to be paused or even canceled if Jaymie can't figure out who did it. It's a struggle, though, since almost everyone in the town had reasons to hate him. The more she investigates, the more people have to go on to her list of suspects. She'll have to figure out who the murderer is though before there are more victims. This is a classic cozy. It did get a little slow in spots but the ending is quite a surprise.
