**Centurion** Jeremy Robinson , Kent Holloway

**A MAN LOST IN TIME BATTLES THE MOST DANGEROUS FOE HISTORY CAN CONJURE...  
...HIS OWN GUILT.**

A.D. 102. Two men--centurions in the Roman Legion--are locked in an eternal battle with destiny. One is a fugitive, driven mad by the deeds of his past. Haunted by a demonic force that has tortured him for more than half-a century, he fights to retain his sanity long enough to separate himself from civilization.

The other is Jack Sigler, callsign: King, a former Delta operator torn from the present and hurled into the pages of history. King must endure the long journey through the ages to be reunited with his loved ones in the world he knows.

When the plagued centurion cuts a swath of destruction from Jerusalem to Britannia, entire villages are destroyed, and the bodies of the dead are torn apart, becoming part of something larger, something ancient and evil. When King crosses path with the centurion, and sees the decimation caused by his affliction, he stands in the path of history once more, willing to fight, and sacrifice to save the innocent.

But who will save him?

**Jack Sigler, an immortal soldier stuck in the past, forced to live through thousands of years of history to return to his family in the present, is back in this third Continuum thriller from Jeremy Robinson and J. Kent Holloway, who once again boldly re-imagine history.**

## From Reader Review Centurion for online ebook

### Jordan Anderson says

Robinson's *Continuum* series continues (and yes, I know that's really repetitive) with the 3rd book *Centurion*, and I've gotta say, I think after a trio of these stories, Robinson and co-author J. Kent Holloway are on to something pretty great here.

What I liked about *Centurion*, especially compared to the previous 2 stories, was it's visceral and gory storyline. Sure, Robinson and his other co-authors have never been afraid to add in a fair amount of blood and guts and other splats of bodily fluids, but here, they really ramped it up. Not only did it give the reader the necessary creepy creaky feeling I think this story deserved, but it also added that much more menace and vileness to the antagonistic villain. Plus, the story, in general, worked well and gave even more humanity to Jack Sigler.

Obviously these 3 novellas are a far cry better than the set of *Chesspocalypse* shorts that were published a few years back (and that I'm still working through). Unlike those mismatched stories co-written with a bunch of different sub-par to average authors (well, aside from the always talented Sean Ellis), the *Continuum* series has benefited not only from the strong main character of King, but also from the consistency of Holloway helping helm the continuing saga for all 3 books.

One caveat however: these books, along with the rest of all the collected *Chess Team* shenanigans are starting to get old. It's a lot of the same stuff, repeated over and over, just in slightly different locations with slightly different characters. I've been reading a *lot* of Robinson's bibliography lately so I would wager that could be part of the problem and maybe I need to take a break from his stuff, but whatever the reason, I think it's time for Robinson to branch out and start something new, something like he did in *The Distance*, or *XOM-B* (even if I wasn't a huge fan of that particular novel).

---

### Peter Dutcher says

#### A great story by a great writer!

My only complaint is that this may be the last novel in the series. Jeremy Robinson has so many original concepts in his books that my mind is always blown.

This book is no exception. I loved the whole thing. Jeremy can write his faith into a book without sounding preachy or fanatical. I envy him.

---

### janet jackson-hartel says

#### Much sadness

Another fun adventure in history with Jack Sigler.

It was was with a very heavy heart that I finished this story.

Knowing there are probably no more Jack Sigler or Chess Team stories is a real bummer. Oh well, off to read Jeremy Robinson's KAIJU series.

---

### **William David says**

#### **Blood guts and lots of it.**

This book is one long nasty battle squish and squirt hack and cut. For folks who like that this is exactly what they will like

---

### **Dee Haddrill says**

Centurion is the third book in the Jack Sigler Continuum series, that brings us short adventures in the life of Jack (or King, as the Chess Team refers to him), as he struggles to return to his time and family.

Centurion is set in Britannia, 102 AD, and we meet a man tormented by demons, using him to destroy as much of humanity as possible. Despite his torment, he tries hard to get far away from civilization so that the damage wielded by the demons is limited.

When our hero, Jack, comes across the centurion, he is unable to sit back and allow the destruction of the villages and communities, and he once again fights to save the lives of the innocent, despite the severe price he has to pay.

One thing you can guarantee about a Jeremy Robinson book - you never know exactly where the adventure will take you. Jack Sigler's travels in the past are at once throughly enjoyable and absolutely heartbreakng.

I struggled in some ways, reading this installment, because Jack is such a beloved character to me, and to see the immense agony (both physical and mental) that he is made to suffer tears at my heart. Of course, I think Jeremy Robinson and co-author, Kent Holloway, get a perverse pleasure out of torturing the poor guy!!

Another pulse-pounding thrill ride, Centurion is an adventure that you don't want to miss.

### **James says**

#### **Centurion**

Another good story of Jack Sigler . . . . Hope to see several more books about him . Maybe a few from some of his other teammates

---

## **Wenzel says**

You would think as a fan of the Chess Team I would be happy with a Jack Sigler off shoot series. What I am not so much a fan of is when a series goes off to an alternate world/time/dimension. Happy to say this series is done in a way to make this work. Book three of the series (which is sadly at an end) delivers with great writing, superb actions, and a cast of characters that make this story very captivating. My only complaint is that this story gives us three new characters that were written and developed with such depth it is a shame they are bound to just this one book.

---

## **Eric Harvey says**

### **Great as always!**

Loved it! If you like the Chess Team series then you need to read this book! A great story with non stop action. I sincerely hope Jeremy doesn't stop with this one and we have many more to look forward to!

---

## **Diane McCormack says**

I received an advanced copy of this book for an honest review. It is a novella in the Jack Sigler series. I really enjoyed this story. It was paced and exciting. Jack or King as he is referred to in the stories is stuck in the past and trying to get back to his family. It is a thrilling adventure that has the creepiest monster I have ever encountered in a book series. The characters we meet are interesting to say the least. This is my 1st introduction to this series and I can truly say I am hooked. Couldn't put it down. Can't wait to go back for more

---

## **Jamey Goodyear says**

Centurion is the third book in the Jack Sigler Continuum Series by Jeremy Robinson and is co-written with J. Kent Holloway.

Early in the first century A.D., we find King in Britannia, King is a Roman Centurion traveling with a priest and an unusually young man. They are hunters chasing an infected Roman Centurion close to 100 years old.

The infection reminds me of the infection in Jeremy Robinson's horror Sentinel and Raven novels. (If you haven't read those, you are in for a treat.) This infection though is centuries earlier in earth's history and much more powerful. King and his companions, with the addition of a young girl and a female warrior, chase the infected around Britannia and all the way to Stonehenge before figuring out how to kill it.

It was great to be reading about King again. Although the story is short and is over quickly, it's a good story to add to his millennia existence.

I was given a copy at no cost for the purpose of giving an honest review.

---

### **Shawn Deal says**

The last of the continuum books finishes well. For good or for bad, depending on where you fall, this particular book really takes your suspension of disbelief to an extreme, more than most books in this particular series. At moments, I did just try to hold on for the ride. I enjoyed the story and have really enjoyed these Jack Sigler alone books. I can only wish there will be more to come.

---

### **Brian Sewell says**

Enjoyed this book immensely. Sad to see the Jack Sigler series go.

---

### **Trevor says**

Third and final book in the life and times of King in the past, sees him fighting a terrifying parasite like lifeform that causes havoc and destruction across the country. This is a good book, co-written with J. Kent Holloway and is slightly darker and more graphic than the previous books. This has been a good series, but King is better with the Chess team.

---

### **Kelly says**

Centurion is the third book in the Jack Sigler Continuum series by Jeremy Robinson and J. Kent Holloway. If you have been keeping up with the Chess Team series, you'll understand King's journey through time. If not, I suggest you pick them up, it all makes much more sense that way.

This book has King in the part of a Roman Centurion hunting Longinus, a man haunted by guilt and ridden by demons. And the way these demons hunt is sickeningly awful. King and his companions follow the gruesome path left behind by these things and King must learn to deal with the guilt that has been his constant companion since he left behind those he loves.

The characters created here by Robinson and Holloway are well written and I love the way the ending falls in with a famous work. Most will recognize it from high school literature. I look forward to another Sigler Continuum soon.

---

### **Erin Escarzaga says**

#### **Good Reading**

But, I could be bias... I love most all of Jeremy Robinson's books with be exception of his Godzilla type books....I can't get enough of Jack Sigler or his travels.....superb writing in my opinion
