Jackie Lewis says

There is something about the way that Christine Feehan writes. I think she really pours her heart into her stories. There is so much intensity there. This was a really interesting, enjoyable read.

Sarah says

Sarah Drake story

Sarah's home was whispered in the wind, Damon felt compelled to go to cliff top house where he meets the mysterious Sarah Drake.

Damon is a damaged physically and emotionally from an attack where his close friend and colleague died because he wouldn't give up national security secrets.

When he cuts ties with work and retires to the sleepy town of sea haven. he finds he's not as hidden as he thinks.

Sarah's returned home but not just for good but to protect Damon from bad guys.

What she didn't expect was for Damon to walk through a magically locked gate starting the Drake sister prophecy off.

Great story but amazing start to Drake Sister series.

HEA

Kate Drake story.

Katie is a world renowned writer that feels the pull of home and decides to open a shop in Sea Haven. While riding she bumps into her childhood crush Matthew.

Matt realises noes the time to make a movie and show his true feelings for Kate.

But while checking out her new building an earthquake happens and opens a seal that has kept a angry spirit trapped waiting for the right Drake to bring him peace.

Kate thinks she the invisible boring sister that doesn't have much to give a strong sexy contractor but Matthew so her is so many ways that she's always been perfect for him and he's just been waiting for her to come back home.

Great HEA.

Abigail Drake Story

This is Abigail book who studies sea life mostly dolphins in this story. Abbie has a dark secret that none of sister know but can feel something's wrong. It isn't till Aleksandr Volstov shows up saying he is Abigail fiancé. This book is a lot darker then the others in series. I like that CF has made it darker and more dangerous but also shown there's more to Jonas and Jackson then first shown.

Looking forward to Joley and Hannah's story.

Libby Drake story

This is 4th book in the Drake sister series. Libby is the famous doctor in the family. Libby has alway had feeling for Tyson some not living a lot of confusion, stressed, anger but Libby has alway understood Tyson and how his almost special mind works.

At first I struggled to like Ty because he came across as very insensitive and self-centred but with Libby's help I think he became the man he always wanted to be.

A lot of action happens in this book and a lot of people attacking Libby and Ty.

Didn't enjoy as the others on series but I did liked that all sisters are together and Joley, Elle and Jackson take

a bigger role in this book.

Hannah Drake and Jonas Harrington

I absolutely love this book. From the very beginning I've wanted Jonas and Hannah together.

This book is very shocking and graphic. Some may feel too dark but I think it is a much needed tone to the series. It sets Joley and Ilya book up well.

Jonas has loved Hannah Drake his whole life and struggled with her profession and attitude towards him.

Hannah has always loved Jonas but felt like she's not enough for him.

A lot happens in this book a lot of crying and shocking developments but it moves the lives and story on so well. The ending is beautiful and perfect for both characters. Great HEA

Joley Drake story

I've got to say I wasn't sure about this book. I'd had so many hopes I was worried CF wouldn't be able to deliver them. I'm really glad to say she did better and beyond what I was expecting.

Joley has always known Ilya would win in the end. Joley is very stubborn and doesn't like being told what to do even if for her safety. Ilya unfortunately sounds like he's always giving orders. They seem the complete opposite but work beautifully together.

You learn a lot about Ilya's past and how his magic works but you also get to see more how both Joley's and Ilya's Magic blend and working together.

A lot happens in this book not just with the two main characters Hh but also the band's lives and relationships play a big part.

This book has a much darker feel to it but I really like that. With Ilya I don't think it would have worked out as good as it did if it was lighter like the earlier books in series.

This book does start the story for Elle's book which as you're reading you can sense something's not right and something bad is gonna happen to her.

Great ending perfect HEA for the Hh

Nancy Sebert says

This series came before the "Bound - Sisters of the Heart" series, so I felt compelled to read them all - very quick, easy to read, fluffy, silly, but entertaining. I was expanding my reading diet by choosing these romances that were recommended to me by a friend at work. They are romance, but they also have elements of mystery and suspense, as well as fantasy, with their "witch" powers. These are all elements of my favorite kind of escape reading. So they were fun, but I am ready to move on to other genres next.

Amyk01 says

Loved them all. Couldn't stop till finished.

Karen Cavanaugh says

So good, that I'm reading them again and again! More paranormal than fantasy, more suspense and intrigue than some mysteries, and of course, lots of steamy romance -- all make this series one of my favorites! Sea Haven is a bit of a continuation, but is just as great a read (which I'm also re-reading).

Allyn Goodwin says

The Drake sisters are a great read! Love the magic

Rebecca says

Total guilty pleasure. Loved the magic.

Paulette Nelson says

Love the way the drakes have returned home. Also that they find the one that is right for them. They command the elements and have a love for each other.

Roberta Kolar says**Each but good**

I like this author but a warning to those that haven't read her, she does a lot of explicit sexual scenes. I'm not into vampires but like her Game, shadow and Sea Haven series.

Denise Simpson says

Love this series! Great read and shows sisters and their love for each other and their men.

Mischelle Vandenburg says

Every one of these books are awesome! Christine Feehan's characters are believable, well thought out & keep you wanting more. Her Dark Series is just as awesome! I would recommend her books to anyone! I even had the guys at work starting to read them.

Melodie De bruyn says

Adriane Alexander says

Gladys Garcia says

Gilly towler says

The drake sisters series is awesome. I read them one after the other and felt bereft at the end of the last one. The books centre round a family of magical sisters. They each have special magical talents and are based in a quaint little seaside town. The characters are well written, the stories weave a delightful and unpredictable plot. I just wish there were more of them.
