Going all the Way Carly Phillips

Enjoy this sexy fan-favorite novella from *New York Times* bestselling author Carly Phillips, available as an ebook for the first time!

An endless seduction...

Proper Southern belle Regan Davis was groomed to be a blushing bride, not a jilted one. But after picking up a copy of *Sexcapades*, a book of secret games for uninhibited lovers, she decides she's had enough. She's going to prove she's more than capable of seducing sexy Sam Daniels. And there'll be no blushing allowed....

Mary Aquino says

As Good as Carly Phillips Always Is

Maybe I just like Carly's writing style...she always has intriguing characters and plots that make me smile. And some phrases I just want to use in casual conversation like, "he tasted like mint and sex".

I enjoyed the story, too.

Rosie Read says

The book that I read does not match this blurb at all. This book is about David, son of a hugely successful Savannah family and his friend (I have literally forgotten her name) who he's determined to move into a romantic relationship with after one night of sex a year ago.

This book is tiny and it took me three days to finish, I did not like this book.

There were small sections of dialogue linking together fairly formulaic sex scenes. I didn't really connect with either character and was not rooting for their relationship at all.

Entirely personal but this was just not for me.
