## Identity Crisis Lila Munro

Someone once said you never truly know a person,

Chad Dearborn was raised with a silver spoon in his mouth. He was given everything a person could want and more, country clubs were his daycares and Paris and London his playgrounds. Heir to Dearborn Inc., Chad stands to inherit a veritable fortune. But the problem is his parents want to gift him the perfect wife to go with it. A woman in the form of a molded, plastic, jet set dolly. Certainly not Chad's idea of an ideal mate. He wants a woman that can hold her own, in and out of the bedroom. Who knew he'd find her in one of Portland's hottest leather clubs? Chad was fascinated by what went on there, but something just wouldn't let him cross that line.

until you sleep with them.

Country clubs? Europe? The closest Tori Myers ever came to those things were the covers of magazines. With an absent father, a less than attentive mother and nowhere to go, Tori finds herself drawn to an alternative lifestyle at the tender age of eighteen. Vertigo is a treasure chest of Dom's willing to give her anything she wants. But when Chad Dearborn walks through the door, Tori figures out sometimes what your heart wants isn't necessarily what your body is willing to compromise to have.

Or do you?

The thing that just wouldn't let Chad cross the line with his sexuality has come home to roost. And as a result, he's faced with a huge decision. Accept who he is and what he wants. Or continue to fight the biggest identity crisis of his life.

## Dhfan4life says

I was with it a bit at first, had some somewhat sexy moments. But then once things evolved out further, it was like what in the known universe is happening right now? And not just once but all through out the story. I'm just at a loss.

---

## A.R. Von says

True love knows NO boundaries! Lila wrote an amazingly, hot, erotic story of how a couple came to be and what the husband will go through just to make his wife happy. This book is an excellent example of how the BDSM lifestyle is used to fill a void, satisfy ones craving and bring people together. Even if one is new to the scene. It's also the first book I've read that has two Doms and one Sub instead of the usual two Subs and one Dom. I found it very intriguing!

Tori has been in the scene for many years. She's frequented club Vertigo for that long with her good friend JC. One night she sees a man the stands out of the crowd like a sore thumb. Not even dressed appropriately for the club or the scene. She sees him there more and more and he always has his eyes on her (and only her). He repeats to her that "one day she will be his wife", but she has needs that he cannot satisfy. On a slight turn of events she gives him a chance.

Chad is one rich dude! He has secrets and desires. But what he desires the moment he spots Tori in Vertigo is her and only her. He is not personally into the scene, mainly a voyeur. But is willing to do what it takes to get Tori to be his and keep her happy. He takes some time throughout their relationship to learn and investigate ways to bring Tori what she needs. He arranges training for himself and a surprise for Tori with Ren (a friend that is a Dom in the scene and recently found out about Chad and Tori's arrangement). Ren is intrigued and works with Chad to help him be the Dom Tori needs and more.

Chad is an amazing man to do all he does for Tori. Once all the pieces fall into place there are not just two happy content people, but three as a whole. Complete and one as a unit of three. Loved it!

## Katherine says

Dom and sub find another Dom to complete them. Some sweet and sexy bdsm scenes, but also trite brand and wealth dropping.

---

## Jessica says

Torn between 2 and 3 stars for this one.

I like the concept and can see the potential, but the execution had problems. There's a lot of info dumping

and mostly telling instead of showing, not to mention the brand name dropping on almost every page. Actually, that may make me give this 2 stars, it was that annoying and distracting and poorly done. You're trying to describe a rich young prepster who has style and class, and you put him in Ed Hardy? And the heroine's repeated pondering of how much she loves her husband's fragrance, Clive Christian No. 1, but no explanation of why -- because it reminds her of him? because she's fond of powdery orientals? because it's ridiculously overpriced and fits the character sketch?

And that's the main problem I had: the author throws out those little details but there's no emotion to ground them. At the end of the story I have no more idea of who the characters are than I did at the beginning. So the big sex scene that most of the story builds up to? Boring. Mechanical. So didn't care.

## **Heather in FL says**

This was a nice story. Definitely middle of the road for me.

We have Tori, who had a rough time growing up, who is a submissive. And Chad, a silver-spoon heir, who stumbled upon the BDSM club Tori frequents and pretty much immediately falls in love. Turns out he's dominant, though he doesn't initially show it. Tori doesn't think Chad can really give her what she needs as a submissive, so she sort of torments him by constantly letting other Doms take her away for sessions in the club. But Chad keeps returning. Finally, he gets involved in the play, but he can't inflict the pain Tori feels she needs. Tori also tries to push Chad away because she feels like she won't fit into his world, that she's socially beneath him. Somehow, Chad convinces Tori to marry him with the understanding that he can't live the lifestyle because of who he is, but they'll play three special nights a year. For the most part, it works for them, though Tori would really like more. She loves Chad and understands why it has to be this way.

But Chad has come up with a very special present for their anniversary. Sneaky boy, Chad. Sneaky and creative, too. I suppose it's a little easier to be creative when you're loaded, lol. And we learn why Chad can't inflict the pain, and while his reason is understandable, I'm not sure why it took him several years to tell her. I think it was quite presumptuous on the part of Chad to find someone to add to their relationship on a permanent basis seemingly without talking to Tori about it. It also seemed unrealistic that Ren could love Tori (and vice versa) when they hadn't really spent that much time together. Attraction or strong lust? Sure, but love? Then again, I guess it didn't seem like Chad got to know Tori that well beyond the club (because she wouldn't let him) before proposing marriage, so maybe that's just how this group rolls.

Since I'm not really into the pain aspect of BDSM, the scenes were just okay for me. I think because of all the insta-love, it was hard for me to "feel" what these three people apparently felt for each other. But it was still an enjoyable story.

## **Darcy says**

This was a fun one. I liked how Chad was infatuated with Tori right from the start, loved that Tori made him work for things. Of course being that she was heavily into the BDSM life and Chad looked like a tourist it made sense. I was surprised that Tori felt the same pull and took Chad up on his offer.

I think Chad's plan for their anniversary was a bold choice, one that had the potential to go wrong on him. I

loved that Tori wasn't sure who was who, loved that when the full plan was revealed she embraced it. I also loved that the result of the plan allowed everyone to have their needs met.

---

## **Gale Stanley says**

One hot story of multiple partners and BDSM!

---

## **Raven DeLajour says**

*Identity Crisis* is a short but very realistic and passionate novella/short story. I was pleasantly surprised by Lila Munro's writing and enjoyed the story thoroughly. I really like Tori as a character and sympathized with her husband, Chad. At times I felt bad for him because it was clear that he wanted to please Tori and fulfill his fantasies but his fear got the better of him. I wasn't expecting the BDSM, either, but that just made the story better for me. While the story is definitely sexy, I also feel that it has a heart. I think it's really hard to mix in the sexual scenes because sometimes it feels like there's too much of it. That isn't the case with *Identity Crisis*. I highly recommend it to erotica/romance fans and I will definitely be checking out more of Lila Munro's writing.

This was a free read from All Romance.

## **Kelly says**

This is another one where I'm not quite sure how I feel about it. I never really connected with the characters - the flip flopping between the past and the present had a lot to do with that, I think. I enjoyed the ending but for the length of the story it felt like it took a long time to get to the point where I was excited to see what was going to happen next.

This book was a free Kindle download I picked up 04/11/12 for the Why Buy the Cow? reading challenge.

## **Jen says**

I liked this story -

I liked the flashbacks that Tori had while remembering what it was like when she first met Chad - he was a total stranger to the BDSM world, and stood out in the middle of the club. And yet, he only had eyes for her.

When her friend approached Chad, he said he wouldn't be with anyone but Tori. because she was the girl he was going to marry someday..

And true to his words, they were married.. 5 years now. When he asked her, he gave her the option to say no,

and he would walk away, but if she said yes, they would live as a Vanilla only couple, except for 3 times a year when he would find her someone to give her the type of pleasure she craved.

I loved the way the book was set up - Chad was called away on their anniversary. one of the three days that it was her turn to submit. But it couldn't be helped, and she understood.

All the while Chad was planning on a surprise for her. Something Tori had wanted before he met her, and something he knew she craved.

The night they met up was HOT! I still don't get the whole craving to be punished thing - but I still love reading it :)

### **Carole says**

I thought this was a pretty good read.

---

### **Judith says**

A riveting journey into the experience of three people, all of whom are at different stages in realizing their true inner identity. Based in BDSM, the original couple are married, the wife a true BDSM submissive and a woman who enjoys many aspects of the lifestyle. Husband, not so much--he likes to watch and there are aspects of dominance he enjoys. Enter Ren, a true BDSM Dom and a person who has come to love the heroine, but will only become a part of their lives if invited by the woman he loves. A novella with lots of emotional punch and which is short enough to enjoy during a brief lull in one's routine.

---

### **Rhonda says**

I loved this book. The hero finally decides he needs to buck and go after what he wants with his wife and screw what society or his family thinks. I love how he brought Ren into the relationship. Making sure she was comfortable with him and how Ren takes charge and shows him what Tori is capable of and all she's sacrificed experiencing to be with him.

---

### **Lillie says**

This was a short engaging read that was quite different than the blurb. The book starts on Chad and Tori's fifth wedding anniversary. Tori is in love with her husband and he treasures her. The only bump in their relationship is Tori is a submissive and Chad can't give her what she needs. We get flashbacks to how they first met and a deeper understanding of who they both are. The current POV from Chad gives insight to why he can't/won't be the Dom Tori needs and the steps he's taking to change that. Their love is obvious and the sacrifices both have made are believable. My one complaint about the book is in the spoiler section.

(view spoiler)

---

### **Juls says**

had lots of potential but fell short! :(

this book was WAY too short. i think if the author had more build up of the character it could have been worthy of more stars.

I felt thrown into a relationship with no back bone. Chad was really hard to like and in a rare instance I preferred the female role over the male. Tori told it like it was and held her own.

I really hated the reference to the many name brand items, like bags and fragrances. What was the author doing, getting a cut from the companies for the use of the names? kinda trashy.

would not recommend
