Kiss of Deception Anitra Lynn McLeod

[Siren Everlasting Classic ManLove: Erotic Alternative Paranormal Romance, M/M, werewolves, HEA]

Desire could destroy their deception...

When wolf-shifter Ivan Tang stumbles across a dogfighting ring, his soul demands he put the wrong to right. Infiltrating the tightly knit and deeply paranoid group means he's going to need an expert. Discovering his partner in the sting is a potential mate has made a difficult situation even worse.

Finding out that his commander is skimming money and drugs off busts means Ryder Moore's undercover narcotics career is probably over. When he's offered a chance to work with another team, he leaps before looking only to discover himself paired up with a man he can't stop craving.

As the mission pulls Ivan and Ryder into tight quarters, both men must put aside their personal feelings, but that turns the embers of desire into a raging fire. Wicked encounters only heighten the need to claim one another. Both men are willing to wait until the operation is over, but will Ryder be strong enough to survive the mating trial?

~SexyBookWorm~ says

Well my complaint from book 2 of there being iffy sex scenes was rectified in this installment of SWAT. Their sex scenes were hot and romantic! They would make hot Porn!

Unfortunately, this time I wasn't convinced Ryder and Ivan were meant to be. It bothered me how towards the end Ryder basically breaks up with Ivan and LITERALLY changed his mind within 1 sentence. It was like ummmm what just happened here.... And I know the book is focused on the mc's but in this entire series it seems as if the background story line always gets dropped and we never see a real conclusion with that. Even with the dog fighting ring. It was just like POOF! everything is fine. .. let's make out!

The first book in the series has been the best so far in my opinion. I'm loving these characters but even if a book had great characters the whole thing has to fit just right... The characters are at a 5 but everything else needs to catch up a little

Daesy says

Grammar

In the 2nd book we saw how Ivan and Erick saved some dogs from a fire, and in this we see Ivan and a detective, good undercover, try to find out who was to start the fire and who uses the dogs for fights. Xenos the man that helps Cooper's team giving them some cases, will help Ivan find a person that with his experience can help them. Rayder is beautiful and he and Ivan are attracted from the first time they see each other, also if their bickering doesn't make the other believe they feel the same. Rayder is not the usual mate, he is smug, too smart, and possessive, when all the other mates till now are only bottom he and Ivan like to change position, and this is more realistic. Anyway to make it short, they find the ppl who uses the dogs, while they are undercover. Rayder is faking to be a wealthy man and Ivan his wolf, that gets used in the fights. They have done all the rest, but still didn't kiss. Rayder the morning after their undercover mission, tells Ivan he is not sure if he wants to kiss him. Ivan is heartbroken, but he understands that this is Rayder's decision, and literally his life at risk, with a kiss. Ivan to avoid make Rayder see he is going to cry, leaves the room and goes in the shower, when he comes out he finds Rayder still sit on the bed, that tells him "we are done". Ivan already knows, Rayder doesn't need to tell him again, but at the same time the other man says also "now kiss me". Practically Rayder had faked to not give a sh+++ about Ivan, so they could finish their mission, but that same morning Xenos had called him and told that one of the man using the dogs, had gone to the police station and confessed all, giving also other names. They kiss and Rayder starts the trial. He will survive and Ivan for the first time in his life (he is 60, well werewolves age differently, Cooper is 94 ;O) will have a mate.

Nice story, but I always expect more so 3.5 stars.

Blue Bayou . says

Much much better than the last. Lets cross our fingers for the installation!

Theresa says

1.5 stars. I liked Ivan. I liked Ryder until he did a 180 character change and flaked out on accepting Ivan's mating kiss. The dog fighting sting was hokey. Marketing Ivan as a wolf stud to breeders without proving his fighting ability was flawed. The book ended too abruptly and too soon. The sex was oh so very hot though and I liked that they switched. The pack not recognizing Xenos as a fellow wolf shifter was a blooper.

Donna says

Dog fighting? I had some very emotional moments when reading those scenes. The rest of the book ran pretty much par for the course for me. It was a "busy" story with a lot going on off-page that we just kinda had to fill in for ourselves. Ivan was actually my favorite character in this series (so far), but his book wasn't my favorite book... bummer! :(

Ryder? *shrugs* But, if he makes Ivan happy... I will let him hang around! *grin*

Hc says

2.75 stars?

Ok.. I don't get the name.. really.. at... all.

I want to say the word abrupt comes to mind with this book.. I remember thinking earlier (I actually basically put this mostly on hold which is why it's more like 3 days reading) that something was bothering me and to make a note of it. Well... I forgot what it was but the word is probably still involved.

The end is kind of abrupt. The decision to kiss is abrupt. Ryder's about face on thinking it over and calling it quits and then (abruptly) saying do it right now... yep you got it.. abrupt.

That's really all I got.. just the one word. Liked it ok.. would I remember and have much of anything stand out.. probably not.

Candice says

While I liked the story, it just seemed to be missing something. The dog fighting was just not interesting to me.

Lyncait says

Kiss of deception : This book is about a princess. The princess whole life has been decided for her since she was born. The princess has followed along with all of this until one day. That were forcing her into marriage. There is a lot of anticipation because you will never know what will happen next. I wish that the author could of changed the ending. A person who likes mystery and romance will enjoy this book.

Kelly H. (Maybedog) says

Someone mentioned special werewolves and the reply was, "There are average werewolves?" Lol

The first bit is a lot of telling and basically a treatise against dig fighting. I didn't mind because I feel the same way and to be fair, there was discussion of people who grew up in the lifestyle and knew no other way.

Their lust is palpable.

Most chat programs have the ability to save the text.

Yet another shifter book with the promise of an exciting ending that never happened. The big thing happened off page with others not the MCs.

3.5 stars round down

V says

I think this sequel was great, I learn quite a bit about something that I wasn't very aware off, Dog fighting is something that I wasn't very aware off, however this story really made me think how much those poor animal are suffering.

This is more than a typical shifter story it's a very interesting plot behind it.

Serena Yates says

This third book of the 'SWAT' series was a little less mysterious than the first two, since all the shifters now know what the mate trial involves and how careful they need to be when finding their potential mates. Instead, it added some action and serious suspense by making this the story about finding out who is the arsonist trying to burn a building containing several abused dogs. Figuring out who runs this particular dogfighting ring becomes Ivan's focus, and he is the one who gets Xenos, their liaison to the LAPD, involved in helping him infiltrate the illegal group. Of course the LAPD officer Xenos recruits, a narcotics undercover agent named Ryder, turns out to be Ivan's potential mate, the first Ivan has ever met.

Ivan is determined to find the perpetrators of the dog abuse their team encountered in the last book. Not just because he personally despises people who could be this cruel, but also because Sax, one of his friends in the pack and a new mate, has real trouble dealing with the thought they are still out there, free to torture more dogs. Ivan has always been alone, and has begun to doubt he even has a mate, so his shock when he finds Ryder may be it for him is significant. The attraction is almost too much for Ivan to resist, but he knows it has to be Ryder's choice, in the end, and he holds back.

Ryder is a snarky and sarcastic cynic, who has not only had an extremely harsh childhood, but is about to lose his current job as an undercover narcotics officer. His boss is skimming drugs and money off most of

their operations, but Ryder has no proof and doesn't have enough connections to make any charges stick. So he is about to lose his job when Xenos contacts him. Not one to knuckle under easily, he goes into this new assignment with hackles and fists raised, making sure none of the super-alpha men he encounters could possibly accuse him of being weak. The fact that he is insanely attracted to Ivan, the guy he'll be going undercover with, doesn't make things easier.

Ivan and Ryder are both strong alpha characters, and I loved their posturing and ribbing each other. The resulting passion once they admit there may be more attraction than rivalry to their feelings flares up high, and the dynamic once they hit the bedroom is definitely fun and very, very hot. If you like this series with its idea of a "mating trial" to find out if the potential mates are really suited to each other, if you enjoy two strong man learning how to work together both in and out of the bedroom, and if you're looking for a suspense-filled action adventure with two very passionate partners, then you will probably enjoy this novella.

NOTE: This book was provided by Siren Publishing for the purpose of a review on Rainbow Book Reviews.

Booklover95 says

Unticlamactic I think. So much trouble going into getting things ready for the undercover operation , then having it last not even a day? Too unreal for me
