#### **Hot**

Slate and Maggie are so great together the sarcastic wit and way they feed off each other is great. The sex scenes are hot and endearing. This is a great love story set in a shifter world where humans and shifters barely tolerate each other and a fragile truce exists between the two when Maggie is attacked by a rogue shifter Slate and the others protect her to keep the truce in place never expecting to fall in love. Such a great short read I highly recommend it.

#### **Interesting human/shifter Romance**

Maggie is not your typical human. Her job is to be Snow White at Disney World. Unfortunately, she is attacked by a rabid wolf shifter. Slate is one of the special ops shifters whose father was part of scientific experiment to make shifters. He is the second generation man-made shifter who has fallen for Maggie

The characters have great interplay among themselves that sometimes it's hilarious. Drama bring story to its conclusion in the form rabid wolf, illness, and romance. This is one of the four books that complete this series and I would highly recommend reading them.

## **Good series**

I enjoy tha antics of these brother shifters. This book has one major flaw. In the big fight scene wirh the main character. He is wounded and it states in the arm bur then he limps away and suddenly his injury is in his leg. Poor proof reading.
