A uniquely, imaginative fantasy based on a sentient being who resides in the wind and can communicate with humans. The only reason I'm giving it four stars is because it's incredibly short. Great opening that peaks your interest, I will definitely read, or rather, listen, to any continuation of this short story. Excellent audio narration!!!

I received this book free from the author for an honest review. The book peaked my interest but is not written like a short story, but more of an introduction. I like the premise and the two characters so far have potential. The narrator, Jack Nolan, does a good job narrating, although sometimes he pauses in the middle of sentences. Overall good start as I am guessing there is more to come.

Wyatt planned a lovely camping trip, bought some new gear, invited friends, and then suddenly became unemployed. Sitting at his campsite, his friends having departed, he drinks a few beers and starts hearing voices. Lucky for him he is not going crazy, but rather chatting with a wind esper, Thunder Born, who is in hiding from his own kind while he rebuilds his strength after a mugging (of sorts).

I have listened to 2 other Livingood books, Pale Rider and Magic Factory, and the man set a high bar with those works. Summer Sword is a close third in enjoyment, though I feel this work has the most potential for a worthy series. In fact, this audio edition contains a snippet from Book 2 in the series, and I quite enjoyed the teaser.

So Wyatt is someone I can immediately sympathize with. While I have never been fired or let go from a job, I can totally relate to having a sudden change in circumstances.... and when you couple that with friends deserting you, you have one sad puppy of a character. He definitely needed Thunder Born.

The wind espers in general are pretty interesting. They can give a part of themselves to affect the world around them, or to pacify a larger, meaner wind esper. Thunder Born is mugged harshly at the very beginning of the story and he has to stay in hiding for a time to rebuild his strength. Hence, he is lonely too and decides to chat up poor Wyatt via the camp fire.

Things get fun & raucous once these two have built up their friendship. Indeed, a sword comes into play. There's an accidental fire, perhaps a near drowning. Even a thoroughly burnt marsh mellow. Yep. Best camping trip ever. While this story was a little slower to start than other Livingood stories, I did quite enjoy the plot once the setting was in place. I definitely look forward to the full version of Book 2.

I received this book free of charge from the author (via the GoodReads Audiobooks Group) in exchange for an honest review.

This one is a really nice blend of fantasy and a current world human being. It felt like a breath of fresh air to read this and to imagine what it'd be like if humans and wind/air could actually chat and be friends. The concepts of air being an object is quite impressively imagined. It's just the right length.

Though I felt the narration was a little too fast, I'm used to listen to 0.5x more than the normal speed but this was already too fast at normal, well no harm done but what if someone wanted to listen at a slower pace.

Thanks to the author/narrator/publisher for providing me with a free copy.

I really enjoyed Summer Sword by James Livingood. It tells the story of a kindhearted guy, Wyatt, who planned a camping trip, invited friends, spent quite a lot of money then found himself unemployed. At his campsite, he meets a wind esper, Thunder Born, who had been bullied and was hiding from his attackers. Together they form a friendship, and we can learn a few life lessons as we learn about their lives from the conversations. Lots happen on the trip. There's a sword. And there's a forest fire. And there's burnt marshmallows. And there's the near-drowning death.

All in all, it was a fun book. Looking forward to Book 2.

My rating: 3.5 stars

This was a very short book that created an interesting world in just a couple of chapters. However, I do not feel like this short book had a very developed plot (due to the shortness). It is obvious that the author is setting up a series of books and this story would fit perfectly in a series but I was hoping for something just a little more. I like how the end of this story gives a lengthy preview of the second story that is coming out (and it sounds good too).

For Summer Sword, the section before the first chapter (that describes the wind espers, etc) confused me a little but I understood it better once I got to the first chapter. I liked the relationship building between Wyatt and Thunder Born and seeing their somewhat similar paths.

The narrator did an ok job. I felt that he read a little faster than I am used to. Which is just fine, it's just that when I listen to a book at 1.5x speed, it was quite fast (I wish the Audible app was smarter with their speeds and offered more options).

All in all, I like the imagination of the author and am curious about future books. Thanks for letting me listen to your book, James!

Summer Sword - Birth of Djinn Magic by James Livingood is a story about a unique friendship that develops between a wind "spirit" named Thunder Born and regular guy named Wyatt. Wyatt is kindhearted soul who planned a fabulous camping trip for his friends, but soon finds himself unemployed and alone. Just when you think Wyatt is losing his spirit due to all the catastrophes that befall him during his camping trip, his friendship and bond with Thunder Born rejuvenates him and makes him whole again. For such a short story, Summer Sword contains several thought provoking insights if one only looks beneath the surface -or should I say, looks high in the sky and listens to the wind?

I listened to the Audible version of this story narrated by Jack Noland. He has an easygoing voice that made Wyatt come to life. He was very believable and had great intonation and pace. I thoroughly enjoyed this audiobook, which I received for free in exchange for an honest review.

Steve Caldwell says

This is a fun short story about a man named Wyatt who just lost his job, Who, while camping, is approached by a diminished air spirit named Thunder Born. They start to converse and form a friendship. During a forest fire, when Wyatt is dying in a river running from the fire, the air spirit gives him air, filtered through the water, which somehow transfers some of the air powers to him, allowing him to use the air spirits power, to see and hear air spirits. First in a series, it has a good solid foundation, with a couple of fun characters in Wyatt and Thunder Born. It is age appropriate for any age, and is really a nice whimsical fantasy tale. Jack Nolan does a really good job narrating, bringing the characters to life.
