Tenjo Tenge, Vol. 1

Oh! Great , ?? ??

Tenjo Tenge, Vol. 1 Oh! Great , ?? ??

Soichiro Nagi and Bob Makihara have always been the meanest street brawlers around. When they enter Todo High they plan on carving out a reputation as the strongest fighters in their new school--easier said than done in a place that's dedicated to training its students in the art of combat. After realizing they're the new fish swimming in a tank full of sharks, Soichiro and Bob enter the Juken fight club as rookie members. However, the Executive Council--the archrival of the Juken Club--soon launches a surprise attack. Soichiro and Bob have a chance to show their stuff, as long as they don't get curb-kicked in the process.

Elizabeth (Elzburg) says

I watched the anime of *Tenjo Tenge* back when I was a wee lady. I was recently feeling a combination of nostalgia, boredom, and procrastination so I decided to pick up the manga. I've been meaning to re-watch the anime anyway, so this is as good.

Holy shit. First thing I have to say: TIDDIES. The manga has fully exposed anime manga tiddies, fam! And like, a pretty good amount of them too, but it never felt too oversaturated like it did in *Monster Musume*. Also, they look really great unlike the weird plastic-looking ones in the aforementioned *MonMusu* manga.

Wow, how far I've come. I used to hate fanservice and panty-shots and all the things this manga is full of, but I really didn't mind those things here. I think maybe because it's in black-and-white book form that it feels more authentic and acceptable. That was something that bothered little fetus me when watching the anime (holy shit I should not have been allowed to have the free range of the internet that I did), how obnoxious and sexual the fan service was. But in the manga it honestly never even felt like fan service. Just some nice lookin anime tiddies. Also yeah, a shit ton of panty-shots.

Now that I've peaked to the height of my reviewing "career" by writing two paragraphs about cartoon boobs, it's time to move forward onto the downward spiral of my... Ahem, "career". Yep, it was weird writing that word twice.

The story is about a martial arts club at a high school, and what happens when two hotshot delinquents come and start smashing up the school. I think the characters are probably the strongest part of this manga, and the relationships between them, though I don't want to say too much. I will say that I was pleasantly surprised by some of the ecchi genre subversions this manga has. (view spoiler) That said, the characters aren't fantastically fleshed out or anything, they're just likable and easy to root for and get behind. And it has a couple kickass female leads that don't feel forced, which is always super fun.

Speaking of ass kicking, there is a lot, lot, LOT of it in this manga. It actually probably comprises the very grand majority of the content in this manga. Honestly with all the nudity and fighting this really does seem like a teenage boy's wet dream. Too bad I'm not a teenage boy.

I honestly never and have never really cared too much about fighting, from books to manga to anime to movies. That stuff just very rarely catches my fancy. Worst case scenario it just makes me extremely bored. Happily, the fighting never made me bored (maybe it was the tiddies that kept me going) but it did definitely come close to doing so. So this wasn't a super duper exhilarating read for me, because of this. Which actually sounds counterintuitive. But I still did find it enjoyable nonetheless.

Here's a quote about his manga by Paul O'Brian written in this article that I really liked:

Strictly speaking, it probably doesn't qualify as pornography. After all, it does have a plot. And the plot isn't about sex. It's about violence, which is much better.

Content warnings: Graphic nudity, rape, molestation, and violence. Later volumes in this series also have extremely graphic depictions of gore and death, and semi-graphic depictions of sex. For your enjoyment here is the amusing official VIZ Media content warning:

...Graphic violence, strong language, nudity, sexual situations, gratuitous panty shots, a ridiculous amount of ass-kicking, anatomically improbable cleavage, and people behaving really, really badly. If you're letting your kids read this, what's wrong with you? Pff I turned out fine....

Please consider giving this review a "Like" if you've made it this far, it helps me out a lot! And follow me if you want more!

When it ended and I next have volume 2 with me *cries*

Doc says

This book is an omnibus containing volumes one and two of the original series newly uncensored for the first time(from what I heard) for English reading audiences. Having seen the animation of this series I already had an idea of what I was getting into with this book though the ending of the anime left me a bit unsatisfied(bad animation idea or brilliant marketing?)So after seeing it on the shelf years later I finally got around to reading the manga and I was not disappointed.

Oh! Great(yes that is the nom de plume) is not known for cute characters or friendly scenarios and this book proves it. Within these pages set in a school crammed with fight crazed delinquents this series has had nudity, blood, violence, a rape scene, a marriage proposal, and much more as each character's personality and past comes to light as their mastery of fighting increases.

If you like books that are not afraid to delve into the darker nature of humanity then this might be a good book for you to read even if the abilities of the fighters in the school are a tad on the unrealistic side. I know my favorite part of the book is when Mayu who looks like a little girl(happens when she conserves her Chi) suddenly unleashes her energy and returns to her normal form as she knocks another main character out the window not realizing he was not as strong as she thought he was. :)

Another rating: 8/10 (for whole series!)

Synopsis:

Soichiro Nagi and Bob Makihara have always been the meanest street brawlers around. When they enter Todo High they plan on carving out a reputation as the strongest fighters in their new school--easier said than done in a place that's dedicated to training its students in the art of combat. After realizing they're the new fish swimming in a tank full of sharks, Soichiro and Bob enter the Juken fight club as rookie members. However, the Executive Council--the archrival of the Juken Club--soon launches a surprise attack. Soichiro and Bob have a chance to show their stuff, as long as they don't get curb-kicked in the process!

My Thoughts:

I've wanted to read this manga for years. I never read the CMX releases because I'd heard about how heavily edited they were and I wasn't going to pay money for that. I can get why they felt the need to edit them. There's lots of nudity in this series that isn't really necessary, but it reminds me of reading/watching Ikki Tousen. The characters all beat each other up so hard their clothes are constantly exploding. It doesn't add anything to the story, but things like that have never bothered me.

There's not an overabundance of plot in a series like this, but I find them fun to read. Besides, it may take some time, but there's usually something else going on under the surface of all of the fighting, panty shots and over large breasts. It may not be profound, but it's fun and that's all I care about with a series like this.

So far, I'm really enjoying our main cast. I have a soft spot for Takayanagi. Poor guy. He feel for Aya at first sight, but she's only got eyes for Soichirou. Too bad for her, though because it seems Soichirou has eyes for Aya's big sis Maya.

It seems that the Juken Club has a rather persistent rival in the Executive Council. It also seems that the Executive Council chairman is Takayanagi's older brother. I'm looking forward to seeing more of that guy.

These are some seriously violent high schoolers and some of the male students don't seem to have any problems with violating a girl. Things like that can get pretty graphic, so beware of that should you decide to start this manga. It's only happened once so far. I have no idea if it will happen again in later volumes, just know what you're walking into.

Keya says

Although at times it feels like I'm reading a hentai, Tenjo Tenge is a pretty decent read. It is paced well and the art is nice, crisp, and clean the majority of the time. That's more than I can say for most manga, which often has chaotic art that makes it really difficult to figure out what's going on. I got a lot of laughs out of this first volume which helped lighten the load of the graphic rape scene they kept dwelling on that happened in the first third of the book. Hopefully they keep the use of rape low, as while I'm fine with gratuitous sex and violence, I don't really like gratuitous sexual violence. Looking forward to seeing where Ohgreat! takes the series.

Lord says

So finally I had a chance to read the famous Tenjo Tenge in an uncensored version and I really liked it. Not really sure why. Probably because it was impossible to put it down. Well, not exactly in a Cross Game-ish way, but still. The story is really just average fighting manga with tons of fanservice but there are some really well-done pages and some nice artwork, too. So I believe the story will get much better later. I immediately ordered the next omnibus, anyway.. Oh, and the book is one of the most beautiful manga I own. Oversized format, nice paper a color pages. Bravo, VIZ!

Heather says

4 Natsume Stars!

I've always been a fan of the anime, and finally got my hands on the uncensored, full contact editions of the manga. The manga doesn't have a lot of the little filler the anime does and I keep finding myself comparing the two; I think it's why I couldn't give the first volume 5 stars. That's in me, not the manga.

Just as a warning, there is a lot of nudity that the anime only hinted at, so watch where you're reading this. I tried reading it at work and got the shock of a lifetime.
