The Alpha Billionaire In Love Trilogy: BBW Billionaire Romance Alexa Wilder

Together in one volume, all three books in the Alpha Billionaire In Love series by Amazon Bestselling Author Alexa Wilder. Over 1,000 pages of steamy, sexy, action-packed BBW billionaire romance! This is the second trilogy by Alexa and it includes The Stubborn Suitor, The Reckless Secret, and The Surprising Catch.

THE STUBBORN SUITOR

Cami Hendricks has a lot on her plate. She's a single mom, works full-time, and her ex is a nightmare. Plus, every time she sees her mother, Cami has to tolerate her jabs about her weight. As if all that wasn't enough, the first guy Cami thinks she might really like seems to be playing games with her. His hot and cold attitude is not what she needs, especially with her ex playing hardball for full custody of her daughter.

Drew Sloane is torn - he can't get Cami out of his mind. Ever since he met her at a party, all he can think of is her beautiful face and her luscious body. But the timing couldn't be worse. Before he can dedicate himself to winning Cami, Drew has to untangle a delicate personal situation.

Now that Cami has lost all trust in him, can he convince her that she's all he wants?

THE RECKLESS SECRET

With his player past, will she ever be able to trust him?

Maggie Emerson has had a crush on her brother's friend Declan for years. She knows he's not into girls like her - he's always surrounded by skinny model types. With her curvy body and a career choice that never made her wealthy family happy, Maggie is sure Declan will never fall for her. Except now that her job is in jeopardy, she has no one else to turn to...

Declan Archibald knows he wants no one else but Maggie. He wasn't ready for her before, but now he can't get her out of his mind. He tried wooing her a few months ago, and it didn't work - Maggie just thought he was using her. So how can he convince her that his feelings for her are real? When he discovers she's in trouble, Declan jumps to help. Will her crisis bring them closer together or push them apart?

Saving Maggie's job gets complicated, drawing dangerous secrets to the surface that threaten their already shaky bond. Maggie and Declan have plenty of chemistry, but can their growing love withstand so many obstacles?

THE SURPRISING CATCH

Ashley Woodsen has sworn off all men. The love of her life walked out on their marriage over a year ago, for a slimmer, younger version of Ashley. She couldn't forget his hurtful parting words, and it was just easier to go it alone. So why does she feel her heart flutter and her insides tense every time someone mentions...him?

Preston Alcott has always been a playboy. Wealthy, successful, and as alpha as they get, he's never had a woman say no to him. So why is this gorgeous curvy nurse constantly turning him away? It seems like she's looking for any excuse to keep from getting close to him.

If Ashley's reluctance to be with Preston wasn't enough, fate puts them together in a small ski resort, cut off from the rest of the world by a blizzard...and surrounded by a few people who may have played part in a murder. As they try to unravel this mystery, they may just figure out what can finally bring them closer to each other.

Preston is the only person Ashley knows she can trust here. Will she be willing to take a risk with her heart?

The Alpha Billionaire Love Trilogy

I really appreciated the real, hard situations that Alexa Wilder had as the back stories that each individual in this three part series has to go through to get to their HEA endings but also that this group dealt with them as friends and not only how they dealt with them but also showed that it does not matter how many friends you have or don't have around you. Every person has their own demons to fight to be able to let themselves grow enough to get through these situations alone and allow themselves to be happy.

There are many people out there that cannot get past what they went through to find the strength it takes to come through on the other side of that pain and be able to grow enough as individuals to be able to believe that there is another way and although you go through these terrible things, you can move forward with your life and allow the the good back into your life and come out the victor in life despite all that you've had to get through to let that happiness back in and that most times we are better stronger people for it as unfortunately some people can never be strong enough to let that pain go, to get to that place where they are free in their hearts enough to be able to get there.

Awesome Trilogy

One of my favorite series. Alexa knows her alphas and get heroines. Love how this series is three female friends finding their alpha men. You fall in love with them.

Carol Stalnaker says

What a great deal! Three of Alexa Wilder's wonderful series all in one book! Each story is about a great heroine and an exceedingly loving man who finds his woman. The characters are very likeable and beautifully described. There are cliffhangers within each story that are not as frustrating when the entire series is in one book. I loved the stories and couldn't put them down. Each is a fantastic read and has its own special HEA!

If it were only true

This book with its three related stories fulfills any woman's fantasy. Three delectable billionaires find and fall in love with normal, down to earth middle class women. Book one, Cami and Drew: divorced nurse with

child and billionaire. Cami is best friends with Maggie, who is also a nurse but with a trust fund. Maggie introduces Cami to Drew at Maggie's parents beach house end of summer party . With custody battles and a drunk for an ex, Cami's life gets very complicated but white knight billionaire comes to her rescue.

Book two : Maggie and Declan : even though Maggie has money she only wants to be a nurse. Declan is her brothers' Grant best friend and Maggie's secret forever crush. She avoids him because he is a rich player lawyer. He has wanted her for a long time but can't break down her walls. A crime has taken place in the hospital involving drug theft and all evidence points to Maggie. She goes to Declan for help and their love story begins there. You have a great drug theft mystery going on and you never suspect who.

Book three: Ashley and Preston. Ashley is a nurse at the same hospital Maggie and Cami work at and best friends. Preston is good friends with Drew and Declan He has seen her around at various occasions and he has wanted to date her. Ashley is suffering from a bitter divorce and she was a victim of verbal abuse to the extent she has no self esteem. She won't say yes to Preston because she thinks she is not good enough.

Preston with patience and love builds her up by always going to bat for her.

Oh what wonderful fantasies. Good reading for all.

SPECTACULAR well written creative reads by a truly gifted author. The author does not disappoint by

I Loved This Trilogy

Three couples, Six friends! Drew and Cami, Declan and Maggie, and Preston and Ashley. This was three exotic, well written, with great storylines, in addition 3 outstanding HEA novels. I would like to commend the author on their awesome attention to details. The attention to details is what made these 3 stories real and visual in my imagination. What an awesome ride this was. I recommend this book to all females, especially the BBW females, who are adult enough to appreciate excellent erotic literature.

Katy Dospoy says

Kinda blah

Even though each story had some dramatic moments they were all still very blah overall. I never understood romance authors writing in 3rd person. It adds so much disconnect from a story that is meant to connect to the reader. I did enjoy reading about women that were normal and not Barbie like. I also liked reading that they have insecurities like all NORMAL women do. But the actual stories were lackluster and anticlimactic. Left me disappointed

Edrenia says

Good

This book was really good loved all three stories . But the chapters where really long butches would recommend. I will read from this author again.

Veronica says

Not well written

I've read an entire series from this author and am at a loss as to why these books were so bad. The stories repeated the character scenes again even after the main characters had already walked through them. The first book was the worst in that I didn't know which was the more prevalent story line the issues with her ex or the budding relationship with Drew. Enter at your own risk is all I'm going to say.

This is a great boxed set of three interlocking (but could each be read as a standalone, too) romance series by Alexa Wilder. I received ARC copies of each of these books in this boxed set and loved all of them! I highly recommend this boxed set!

Thomas Eaves says

Sooo good!!!

This is definitely in my top 5 of books this year. I've read over 200 books this year and this one is definitely a good read. The friendships are realistic and believable. The men are real and flawed. The storylines aren't predictable, but they are realistic.

There are typos, but I'd you can get past that then you are in for a treat.
