Rachel says

This series by Gilbert Morris is one of my absolute favorites. Each book follows at least one member of a generation in the Winslow family tree and the member(s) gets saved and finds true love. There's also some commentary on the social conditions of the time frame. Truly interesting.

Mom says

5 - Rough life being the law and working for the railroad. Lots of gun fighting and casino life brawls.

Amy • A Magical World of Words says

It was good and entertaining. It was also predictable, and I don't agree with all the Christian concepts introduced. But mainly it was a good book. It wasn't too cheesy and of all the characters, I actually found Moira the most memorable, although I liked Lola more.

But it was well written and the Christian side of things wasn't awful; there was a strong moral message throughout.

Carol says

I enjoyed this story, there were several men involved with women (although this was set during the building of the transcontinental railroad & there weren't supposed to be many women available), but it wasn't evident until the end who would end up marrying whom!

I like this Series!

Pam Nelson says

This book was good but not my favorite so far. Got a little slow in the middle for me. Still plan on continuing with the series.

This book took place during reconstruction during the race to build the railroad.

I always love books by this author.
