*Dear Reader,*

**You Don't Know Me** was the first romantic suspense novel I ever wrote. It was originally published as **Tangled** in the early 90s under the pseudonym Nancy Kelly. I'm delighted that it's finally available again in this repackaged edition.

Everyone in Wagon Wheel, Oregon, knew that Thomas Daniels was a mean, violent man, twisted by liquor and hate. His stepdaughters, Dinah, Denise, and Hayley, knew it better than anyone. And then, with one desperate act, their lives changed forever.

Now, years after he disappeared, Thomas Daniels's remains have been found and a murder investigation is underway. All three sisters—Dinah, a respected journalist, acclaimed actress Denise, and Hayley, hungry for her own chance at stardom—find their lives intersecting and unraveling again. And piece by piece, they'll confront the truth about that deadly night—and the dark secrets that could turn one of them into a killer...

*With its new title and new cover, You Don't Know Me feels like a whole new book to me—one I hope you will enjoy as much as I do!*

### Carol Schneider says

This was an alright read. Not terribly suspenseful. I wasn't surprised by who-dunnit and the supposed love stories that were interwoven within the suspense were bland and not very well "fleshed out" for lack of a better way of stating it. I had difficulty with the time line presented. The murder of the Scott sisters' step-father was 8 years in the past. The girls flee Wagon Wheel, Oregon days after his disappearance. The eldest girls, brainy, Dinah, and beautiful, Denise are high school seniors. Their baby sister, Hayley, is 16 when they head to Los Angeles. Having this knowledge places the Hayley character square at 24 and her older sisters at approximately 26. However, Denise's high-school sweetheart is described as a balding 30-ish gentleman when he returns to Wagon Wheel. Thirty-something does seem to be the appropriate age of the Scott sisters judging by past events of the story and actions however we know they can only be 26 or 27. This miscalculation in the characters timeline was an enormous distraction as well as referring to the stepfather by completely different name in more than one instance is disappointing. Simply a middle of the road book but it got me through on the sidelines this softball season.

### Donna says

The book opens with an unknown female dragging a dead body to place in an isolated storm drain. Eight years later, the body is found. It belongs to the most hated man in Wagon Wheel, Oregon so the list who might have killed him is long. His three stepdaughters left shortly after he disappeared so private investigator Conor Jackley focuses on twins Denise and Dinah and younger sister Hayley who are grown now. Denise has made it big in Hollywood but drugs and delusions have her in a downward spiral. Hayley wants to break into the big screen. Dinah, the brightest and the fixer of the bunch, writes a newspaper column.

This book originally came out in 1994 under the pseudonym Nancy Kelly. It was re-published in 2016 under Nancy Bush's real name. If you like romantic suspense, you should enjoy this book as it is typical of the genre. There are some dark scenes in the book related to child sexual abuse, drugs & alcohol abuse, bipolar disorder and mental illness, and domestic abuse. I was convinced at different points that I knew who killed the stepfather. I had four females in mind and one turned out to be correct but the author leads you down all kinds of paths to get there. This was the author's debut romantic suspense and I think her writing has gotten better over the years. I particularly like the stories she writes with her sister Lisa Jackson.

### Joanne Cobb says

I loved the book alto of twist and turns. I got to read the next ones

### Lisa says

This was a great story, but really dragged in a lot of places. Lots of pages could have been left out and the story would still. Be the same. Overall it was a good book and I do love this author and her sister too!

### **Kemi says**

I didn't give a rating because I only read about 80 pages before I gave up, and those 80 pages took me nearly all the month of October. It was bad. Like, avoid-at-all-costs bad.

It was like reading the first draft of a creative writing assignment by a socially-awkward high school girl who has only ever read Harlequin romance novels, and tries to incorporate a little of each book into her story. It was too much, and at the same time, not enough.

### **Teresa says**

Whoa...stayed up too late to finish this book. I am glad I did as the ending was a bit of a surprise! I rated this book with four stars as I felt it dragged at points. Curious by nature, I kept picking up the book to find out how this was going to turn out for the three sisters. It is an interesting read, many times unbelievable, but still a good read.

### **Diana says**

I'm starting to get annoyed at what is qualifying as a Romance Novel at this point. There was absolutely nothing romantic about this book until the very last couple of pages. Before that we read about physical abuse, sexual abuse, mental and emotional abuse and the torment that follows after a crime of passion.

This is a FAIL romance novel.

### **Barbara Hornak says**

#### **Three beautiful Angles with ugly secrets**

Everyone has secrets. When three sisters have a shared secret it effects each one totally different. From drugs and self loathing to total denial each chooses their own path in life. How it all comes together in the end caught me unprepared. This is rerelease of a book written years ago but is still b believable today. Great job, Nancy Bush!

### **Annette says**

I'm not going to do what a lot of people do on here and just rehash the story. I will say it was filled with useless pages that did nothing for the story other than dilute it. I have read many of Nancy Bush's novels and this is the only one I did not enjoy. I struggled to finish the book at all as you can see by how long it took to finish

**Deb says****For me best of her work yet!**

Nancy Bush has stepped out of any shadows with this novel! This is a fast paced well written psychological thriller. It demands your attention and you willingly give it! With ease it slips from character to character from present to past and back again. I loved it so will fans of Gardner, Jackson, Brown and Patterson!

**Conni Harness says**

A different kind of story, but well done. Another good read by a strong author

---

**Vicki Melendez says**

loved this book loved who done it

---

**Beth Lechman says**

This one will keep you going in circles trying to figure out who the killer is. Three sisters who all lead a very different life and are all hiding a secret. Denise, an actress who is so screwed up she doesn't know what the truth is. Her twin Dinah, a writer who is the fixer and Hayley the youngest who is determined to get what she wants at any cost. They are all running from the same thing and they have repressed their memories for so long they aren't even sure of the truth.

---

**Catherine says**

Secrets...yup everyone has a few. The three Scott sister have their share and then some. I like the basis of the story but the switching from one "story" to another made it hard for me to get into a character and like or know them. The last thirty pages are what brought it home for me.
