### **Samantha says**

Hare loves the snow, but Bear just likes it. The friends make snowmen, and snow angels, but it's sledding that finally wins over Bear's heart.

Simple text that would be good for reading aloud with both toddlers and PreK set against pencil, watercolor, and wax crayon artwork.

I hope there are many more Bear and Hare books in the future!

### **Elena says**

A lovely book about two friends, Bear and Hare, who go out to play on a Snowy day. Introduces what you can do on a snowy day such as: catch snowflakes, make snow angels and go sledding.

### **Kelly says**

Bear and Hare are friends who love the snow. But Bear seems to like it less than Hare.

This is a very quick book with nice illustrations.

### **Alice says**

**3.5 stars** A cute book about bear and hare and snow. Since this is the most snow we have had a LONG time...this book is very close to home! I like the 2 feet of snow on the ground, but shoveling it...no thanks!

### **Charlotte says**

Really enjoyable book that is just right for 18 months. The story is simple with just the right amount of words and time spent on each page. The pictures are entertaining and give little readers something to talk about. We enjoyed watching as bear learned to like the snow more and more.

These two friends open the door and “It’s snowing!” Hare loves snow, but bear isn’t so sure. Hare makes a

perfect snow angel, but bear sinks down. Hare makes a small snowball, but Bear makes a huge one. Well, you see how this is going. But there is hope, and it comes at the top of a hill. Finally, Bear learns that snow can be fun. For the littlest ones, Emily Gravett uses her beautiful expressive illustrations to show the feelings and the fun between Bear & Hare.

Emily Gravett is one of my favourite picture book authors/illustrators! I love the quirkiness of her stories and her illustrations are fun! That being said, however, *Bear and Hare: Snow!* is not one of my favourite of Gravett's books. Though I read it to my under-2's crowd, it would be best for toddlers.

Although this offers nothing so new for the winter scene, it's just a darn awful cute book about 2 friends experiencing winter together. The text is brief - perfect for the younger crowd and the illustrations are perfect!

I love this author's books, and while this is not the author/illustrator at her most whimsical, it still has plenty of appeal and is sure to be read several times. Two friends, Bear and Hare, are thrilled when it starts to snow, but Bear gets tired of the fun more quickly than Hare. But Hare manages to find an activity that will get Bear excited once again. Young readers will be able to relate to the delight with which the snow is greeted and to the various ways the animals spend their day. I had to smile when looking at the illustration of Bear making an angel that looked like a trough in the snow. As always with this creator, readers will want to pay close attention to the eyes and facial expressions of the characters. The illustrations in this book, originally published in the United Kingdom, are created with pencil, watercolor, and wax crayons.

### **Shandy Htun says**

The very first thing about this book that you will notice is the quality of the paper. The cardstock-feel makes you pay attention to the illustrations of the book. The snowflakes that appear in the book stand out against the background and against the characters, Bear and Hare. The plot is very simple, and tells us about how Bear and Hare enjoy the snow. This would be a great book to read to students who live in Arizona, because it would allow them to "experience" snow.

### **Jana says**

This charming picture book would be great for young readers who can relate to all the fun things friends can do together on a snowy day. The two catch snowflakes on their tongues, make snow prints, snow angels, and so on. The lovely illustrations were rendered in pencil, watercolor, and wax crayons.

### **Ann Cooksey says**

I liked this book. Beautiful pictures and an elegantly simple, relatable story of two friends playing in the snow. I gave it 5 stars because when I shared it in story time, the kiddos loved it. It even captivated the two-year old crowd in my "Time for Twos" story time which is not an easy thing to do. One of the kiddos pointed out that Bear catches more snowflakes on his tongue than hare does. Any book a room full of two year olds loves gets 5 stars from me!

For my bear storytime. Didn't get much use, but it's a cute story.

### **Chris says**

Funny.

### **Angela says**

Fun in the snow, mostly for Hare until they go sledding and Bear starts having fun.
