## **From Reader Review Chapatti Or Chips? for online ebook**

### **Shraddha says**

It was first book of my entire life which i wanted to just get over..i found it too dull and boring and Gross...  
A story which had no story apart tiny tales about sex and description of body parts with different names.  
Wish someone had told me not to waste my time over it.

---

### **Somya says**

It's my guilty pleasure read. I've read this book about 4 times now and that's saying something because I haven't even read Lolita this many times. It has a very moderately likeable plot written in a very moderately likeable style but I like it.

---

### **Miss says**

Loved this book soooooooo much! first Nisha Minhas book I ever read.... would really love to listed on audiobook....cannot find anywhere...does anyone know if it is available?

---

### **Julie says**

ok. Not much of a dilemma really as the 'heroine' ends up jumping into bed with the 'hero' at every opportunity.

---

### **Michellestevens234 says**

excellent book

---

### **Sunshine says**

fun n fast!!no depth..but can empathise wit t character!!

---

### **Moon Love says**

I've discovered the secret to most of Nisha Minhas's books. The formula is the same. Take a hot white guy. Make him a philanderer, a total b@\$!~^d, and unavailable when it comes to his feelings. Add a beautiful Indian girl who is torn between being Indian and British. And presto! You've got a story. I'm not exactly sure

what I was thinking when I picked this book up, I should have learned my lesson after the first four, but then I thought, "Maybe it'll be different." Well there is one more left and knowing myself I'll probably read that too. But the point is if you've read one book of hers, you've read them all. And if you didn't like it, then you won't like any of the others either.

---

### **Sadie-jane (sj) Nunis says**

i'm actually upset with the author.

such absolute bollocks this book...

i feel like i've wasted time that i could have spent reading A PROPER BOOK.

no depth at all...

yuck.

i've removed all her titles from my list of books to read.

---

### **Mizla says**

ooo... dave n naina!! love the whole plot ;)

---

### **Shoshana says**

the ending sucked.

---

### **Gina says**

Hilarious, British humour, Cultural Conflicts, high recommend as a light read.
