Oh, I just love these cowboy brothers... *Claiming His Cowgirl* is Vin and Lauren's story.

Vincent Rhone has been second guessing himself for almost 20 years since he pushed Lauren Kensington out of his life. Determined to give her every chance at happiness and not be "stuck" waiting for Vin to get his life together, Vin thought he did the right thing. But now Lauren is coming home—home for Drannon and Lacy's wedding. They haven't seen each other for years and it's about time the chickens have come home to roost...

Lauren found safety and peace in Crawley Creek when she was an abused and neglected little girl. She also thought she found love, until Vin pushed her away. But she promised Drannon she'd come home for his wedding to Lacy. Three days—just three days. She could handle being around her adopted "family" for that long and then return to her nice life in Arkansas. Right?

Oh, damn, I love a second chance romance. Even twenty years later, Vin and Lauren are still connected—first love has a tendency to do that. And, jeez, the tension between these two is palpable. But when they are together—holy hotness factor. You can't help but hope they put the past behind them and get back together—they smolder... I can't wait to read Hawke's story next! ~ Missy, 4.5 stars

Second chances and cowboys are kinda like all my Christmases come at once, if I am honest. Which I am. And this third installment in the *Crawley Creek* series is the bow on the biggest present under the tree.

It's been a while since Lauren Kensington has returned to the ranch where she found love and family. After having her heart broken by Vinnie, she left North Dakota and forged a new life for herself. But she never really got over the boy that broke her heart.

Vincent Rhone has made some bad decisions, not the least of which was sending Lauren away 18 years ago. It's his one regret, and he's never stopped thinking about the girl he let get away.

When a wedding brings her back to town, and a disaster keeps her close, they get their second chance. This time, Vin is determined to prove that Lauren's heart is safe in his hands.

Vin and Lauren, so hot and so perfect for each other! I really enjoyed this book. In fact, it's my favorite of this series so far. It had all my favorite elements. Cowboys, obviously. Lots of hope and love. Some very sexy times. And a touch of humor.

Ms. King did an excellent job bringing everyone together as they prep for Drannon and Lacy's wedding, all while battling Mother Nature. It was fun to check in with the couples from the first two books, and get some updates on the boys that, I hope, are yet to come—Hawke and Bran.

There's great emotional balance in this book, and it would seem there are some potentially heart-breaking times to come as this series continues. I can't wait to continue with these cowboys and their cowgirls. I hope Santa brings them to me soon! ~ Beth, 4.5 stars

#### **Vin and Lauren**

These two definitely had chemistry 20 years ago and it hadn't changed one bit.

The story was great, but would rather had more of the spotlight on them.

"A Super Amazing series!"

If you love cowboys and sweet plus touching stories then this book and series is for you! Each book in this series has been amazing!. It started with a couple Abe and Sera who had so much love to give only they could not have children of their own. So they started fostering lost and abused children on their ranch. Years later four of their foster children brought Crawley ranch now they want to keep the legacy going. Not only do the young men want to take in foster children they also want the ranch to be a safe heaven for ones with PTSD. One of the foster brothers has found his true love Lacy. They plan a wedding at the ranch and have invited Lauren to the wedding. Lauren Lauren had been taken in by Abe and Sera when she was a teenager. Now she works for a private funded First aid team. She also caters events with edible Artwork. Vin who is one of the foster brothers had been in love with Lauren for years. Now that she was back he is determined to win her love. It seems Crawley Ranch is not only a home for lost souls it is also a home where true love meets!. You will love this sweet and touching series with just a dash of suspense. The third book in the Crawley Creek series focuses on Lauren, who made Crawley Creek her safe home as a child. Lauren comes back for Lacy & Drannon's wedding but she is nervous to see Vin again. They had a connection as kids but it all ended when Vin left for the military and pushed Lauren away. She still has feelings for Vin but she doesn't know how he feels about her. Can Vin convince Lauren to give him another chance? And can Lauren risk her heart again? I love how the author brings back people who have stayed at the ranch as children and unites them with the peaceful and loving home that still exists.

The third in the series concentrates on second chances, which I love. Vin made a decision twenty years ago which he has regretted ever since. Now he has a chance to put it right, and maybe get his very own HEA.

This series is a like a warm blanket you pull over to snuggle down. The characters are familiar and the new ones quickly become favourites. The humour and love are rampant and are the mainstay of the book, which makes it wonderful for a sappy romantic like myself.

I loved how Lori intertwined the new and old storylines, bringing about a hot and steamy romance, whilst getting updates on stories already told, preparing for new stories and don't forget, battling Mother Nature.

With some definite smokin' scenes, this is guaranteed to warm you up. Definitely recommended.

\* I received this book from the author in return for a fair and honest review. \*

Lori King give another stunning love story to the family of Crawley Creek!

Vi was the first of many children taken in at Crawley Creek as a toddler. His life was literally changed when Abe and Sera Crawley took him in as a foster child. Their love is the only love he has ever known... Until Lauren comes to stay. Her sweet innocence and naivety are what draws Vin to her and yet causes him to push her away.

Lauren has grown up knowing she loved Vin differently than she did her other "brothers" at Crawley Creek. When she gives herself to Vin after her 18th birthday, Vin is torn. He wants her but knows he can't keep her. He has a choice to leave and make a life in the military or go to jail. His decision was what was best for her at that time. So now almost two decades later he wants to try and convince her to give him another chance. Not knowing Lauren has never gotten over him and still loves him.

Ms King has once again grabbed her readers by the heart strings and sucked us into her world at Crawley Creek. A world full of lost hope and second chances.

A must have for any person with a love of love. 5 Stars all the way! I received this book as a gift and this is my unbiased opinion and review.

#### **Great second chance story!**

I really enjoyed this story! This is the third book in the Crawley Creek series. I really loved Vins story. This author does a great job keeping the story new and old going. I feel like the Crawley Creek men are not only strong alphas but also brave survivors. Going into foster care is not easy for any child, the lucky ones end up in Crawley Creek.

The Crawley Creek Ranch stories continue to Fascinate!!

Lauren was a sometimes member of the Crawley Creek Ranch crew. Her mom was abusive, but could put on a good show at times and would get Lauren returned to her home. Our four “brothers” also became her brothers, except Vin who was so much more. When Vin messed up and his choice was join the military or go to jail he broke Laurens heart by sending her away – and she stayed away except for funerals and weddings.

Lauren returns to Crawley Creek for the upcoming wedding, and immediately feels like she is back where she belongs. Her heart has never gotten over the betrayal from Vin. Vin know he has messed up and hopes this can be an opportunity for a second chance.

This story exemplifies the meaning of family; whether from the same parents or by choice. The possibility of the relationship between Lauren and Vin is both heart-warming and explosive. The gathering of the entire family and working through any trials is excellent reading!!

I read these stories mostly out-of-order, which did not detract from them at all! Having read later stories, when I went back to read earlier stories I felt I understood even more importance of the events – and each story exhibits that sense of family that makes this a stellar series.

\*\*I am voluntarily leaving my honest review of this book\*\*

This is the third book in this series and they are better read in order. Lauren Kensington found her refuge at

Crawley Creek as a foster child. She had lots of first at Crawley Creek including her first love and her first heartbreak. Vin was also a foster child at Crawley Creek. Abe and Sera did so much for him. He has had his fair share of mistakes and regrets. His biggest regret was pushing Lauren away. Lauren will be coming back to Crawley Creek for Drannon and Lacy's wedding. Lauren has always wondered about Vin. This is the first time has been back where she will stay any really length of time. Vin is nervous with her coming back. His greatest wish is to get a second chance with her. Will Vin get his wish. Lauren has never really gotten over Vin either. When the two get caught in a storm together they are finally forced to clear the air about what and why happened all those years ago. Will this lead to the possibility of a second chance? This series pulls me in further with each new book I read in it. Each child that came to Crawley Creek had a not so great childhood. Some worse than others. Abe and Sera gave them all the love a child could need. This book is about two of the fosters that came to Crawley Creek. The difference was the Vin stayed and Sarah came and went many times. I felt for both of them. Vin had his reasons for pushing Lauren away and felt that he was doing what was best for her. Lauren held a grudge against him for since it happened. While she wasn't sure he meant what he said he still said them. I like second chance romances and this was a great one. I look forward to reading more by Lori in the future.

#### **Can You Really go Home Again?**

An incredibly sweet Romance, Lori King puts just the right amount of heat in this Second Chance Romance. I love how the Characters of her Crawley Creek stories have such depth, the connections they forge throughout the series is very heart gripping. This story of Vin and Lauren is a tender reminder of first love and the heartbreak one goes through, as well as the reconnection years later, with a twist. The Crawley Creek family is made up of a mixture of foster kids and all the emotions of abused kids and their feelings of being lost and found tumbled all together. This amazing group of people will have you looking for more as you get to know each and every character. I recommend this to all the Cowboy loving readers and those lovers of the HEA! Well Done!?

She found refuge when she was little and didn't want to go back.

Lauren loved Vincent and he broke her heart. First love can they reunite and get back their young love? We all have been there. But not all of us get a second chance.

#### **Good**

I was really looking forward to Vin's story. It didn't disappoint. I was very much into the Crawley Creek world. The drama. The hope. The faith. The love. The passion. On to the next chapter.....

The only thing keeping this review from being a 5 star is that the story stopped at 87%. I always feel jipped when this happens.
