Every Little Thing Samantha Young

Hartwell, Delaware—the perfect place to get away from it all, and find what you never knew you needed...

Bailey Hartwell has many reasons to feel content—her successful business, a close circle of friends, and her steady boyfriend...even if their romance feels staid after ten years without a serious commitment. The only challenge in her life comes in the form of sexy businessman Vaughn Tremaine. She thinks the ex-New Yorker acts superior and that he considers her a small-town nobody. But when Bailey's blindsided by a betrayal, she's shocked to discover Vaughn is actually a decent guy.

Vaughn admires Bailey's free spirit, independence, and loyalty. As his passion for her has grown, his antagonism toward her has only worsened. Every little thing Bailey does seduces him. But when Vaughn's painful emotional past makes him walk away in fear he will hurt her, it opens an old wound in Bailey, and she uncharacteristically retreats.

Once Vaughn begins to realize he's made the biggest mistake of his life, he has no choice but to fight like he's never fought before to convince Bailey that the love they've found together only comes around once in a lifetime.

Better than THE ONE REAL THING (which I found a little generic).

EVERY LITTLE THING wasn't groundbreaking or anything--this is contemporary romance we're dealing with--but it felt less cookie cutter, and more importantly, while Vaughn and Bailey both had Secrets, they weren't secrets of the OTT, drama llama variety that Young frequently favors.

So HOORAY for that.

As far as foundations laid for forthcoming books, I am a little concerned about what the future holds for the one Devlin who might not be as bad as the others.

I mentioned the Kristen Ashley-feel I was getting in THE ONE REAL THING, but I'm 99.7% sure that no one but KA can believably pull off the sister-slept-with-your-husband-for-your-own-good scenario (or the your-bff-slept-with-your-wife-etc. version), and after Jack's apparent shenanigans in this book, I don't see how he could ever be satisfactorily redeemed, especially considering who Young appears to be laying groundwork for an HEA with . . .

BUT.

We're not there yet, so my misgivings have no bearing. YET.

Full review closer to the release date.

We all remember Bailey and Vaughn. We already met and fell for them in the first book in this series. The One Real Thing

Bailey runs the Boardwalk's old Inn and Vaughn opened a new luxury hotel on the other end of the Boardwalk three years ago.

And they were always coexisting in town. Not friends, not liking each other much, but okay with each other. Because both don't want the horrible Devlin family to buy out all business and destroy their beloved Boardwalk.

But there's also this huge attraction on both sides. But Bailey has been with Tom for ten years, and Vaughn doesn't do relationships.

But now things with Tom are changing drastically!!!!

Could now be the time for Bailey and Vaughn? They're old enough to finally settle down.

But they can't be within two feet of each other without arguing and hurting each other with their words....

Will we get our happily ever after???

READ THE BOOK TO FIND OUT! ?

?????????????????????????????????????

FINALLY!

Finally it's Bailey's & Vaughn's turn to get their Happily Ever After!!!

And it was perfect!

They fight and argue and throw hurtful words at each other. But that's all some huge foreplay for them!

The man I thought I might have been waiting for my whole life.

All this time he'd been standing right in front of me, wearing a suit and a sexy-ass smirk.

They fell for each other a long time ago, but they don't want to admit it to themselves.

Which is mega-adorable for us to read!

One might think at age 34 an 36 people would be grown-up enough to get their love-life straightend out....but those two. They're both running scared!

But of course their budding romance is not the only trouble in town. The Devlins are still trying to buy every business - and they don't shy away from using illegal and scary and idiotic tactics to do that.

Then there's business. Family. Exes. Friends.

Lots of troubles for our darlings to overcome until they can ride off into their happily ever after sunset.

I love that this is a more mature series. Those couples are all in their thirties we don't have any immature 21-year-olds running around. Even though I'm already waiting for little Joey's book once he's all grown up!! ?

I loved that we got to see all the other people in town again.

I complained about that a bit in the first book. We were introduced to so many people and so many future

stories, which made that first book way too long. I still loved it, but I loved this one more. All those people are still in it, but now that we know and love them, we don't care that the book is pretty long - we don't ever want this series to end! ?

I can't wait to see what the next book will bring us - there's Delilah & mysterious Michael and mega-shy Emery and former? bad-guy Jack Devlin!!!!

GIMMEE!!!!

EVERY LITTLE THING was such an adorable & funny & sexy & exciting lovestory! Run to your nearest amazon for your own Vaughn - this one is MINE!!!

4 Sexy Stars

Bailey and Vaughn didn't start on the right foot. They disliked each other from the first moment and they stayed that way for the couple of years after. Everything changes when Bailey's 10 years relationship ends and some events put them together. That's when they realize they may have more in common than they thought... and they may not hate each other as much as they also thought.

I'm going to start by saying Samantha Young books. "On Dublin Street" it's one of my favorite series and I'm starting to think this one will be as well. This was a very sweet book, well-written, engaging and although there was a bit of "back and forth" with the hero, which definitely annoyed me, it was a great reading. I'm definitely keeping up with this series.

If you're looking for a steamy and engaging contemporary romance this one is definitely a good choice. (I would advise to start from the first book, although it's not necessary.)

Rating: 4 Stars

Characters Development: I really liked Bailey, she was strong and didn't hold back, she said it exactly as she saw it and I do love that. And although sometimes she did say things she probably shouldn't have, I love how patient and understanding she was with Vaughn on the moments he behaved like an asshole. Vaughn was sexy in that powerful guy in suit way and he definitely had some issues that made him closed off and behave like an idiot at times, but once he finally decided what he wanted, he was amazing!

"We were two people who were attracted to each other and didn't want to be."

Firstly I have to say that I enjoyed this a lot more than the first book! I fell in love with Bailey and Vaughn's story. Samantha Young delivers a lovely, steamy and passionate romance.

"Vaughn looked at me like he wanted me. I knew there was power in my smile but wow."

The constant push-pull between Bailey and Vaughn made the story entertaining! They were intense and passionate when they were together. I have to admit that I didn't like Bailey at first but when I continued reading I understood her and liked her more! Vaughn intrigued me a lot and I liked him a lot!

"I've wanted you just like this. That smart mouth of yours sweet. That sexy body of yours mine to do with as I please."

This series just gets better and better! I can't wait for the next book!

3.5 SMARTBUTTERY STARS

“Not so smart for a smart guy.”

There are stories that are surprisingly hard to rate. While I loved a lot about this book there were some things I just couldn't get on board with. Let me explain.

Bailey is Hartwell-royalty. She is a descendant of the original founders and well-liked all around. She owns the inn on the boardwalk and is "OK" with her life. Is she happy? That would be an exaggeration. Her boyfriend sports a serious case of commitment phobia which clashes with her yearning for a family. Temptation comes in the body of Vaughn Tremaine, a man she despises and it goes both ways. Or so she thinks.

I was as attractive as a limp noodle to him. And it shouldn't bother me. The man was a jerk.

Vaughn's feelings for the princess of Hartwell are complicated. He wants her. Bad. But relationships don't work for him so he helps himself to a beautiful woman once in a while. It doesn't satisfy his raging need for the beautiful, vivacious redhead but it takes the edge off it. Too bad that he can't get Bailey out of his mind and it sure doesn't help that they have weirdly gentle encounters when they don't antagonize one another.

“No wonder you’re single.”

I gave him a look that would have made a lesser man’s balls jump back up inside him.

“You’re cold through and through. You haven’t got anything real to offer a woman. Nothing but money. And sooner or later they’ll realize not even money is worth a lifetime of nothing.”

It was harsh. It was horrible. And it was all about me, not him. Immediately I wanted to take the words back, but they were out there. Me and my stupid no brain-to-mouth filter. Like the ice I’d accused him of being, Vaughn’s expression turned an arctic level of cool.

“I’m single because I want to be, Miss Hartwell. Unlike you I’m strong enough to be alone rather than settle for mediocre. But then like attracts like, doesn’t it.”

wince

To say that Vaughn was an ambivalent character is an understatement. He is vulnerable and deep on one hand but also hard and sometimes cold on the outside. He definitely has a tendency to be a jerk. The things he did and said didn't always make sense to me. In once scene, after putting Bailey through an emotional wringer, he is taken aback that Bailey doesn't trust him, when only a couple weeks earlier they were making each other's life hard by being spiteful with one another. On the other hand he has very sweet moments and makes his girl feel special and protected.

“I’m sorry. I have a bad habit of being a bastard to you.”

Bailey’s eyebrows rose at his admission. And then something rueful and mischievous glinted in those beautiful eyes of hers.

“Maybe that’s because I have a bad habit of being a bitch to you.”

Bailey is a firecracker. With her the theme is "what you see is what you get". Censoring her thoughts doesn't work for her. She is confrontational and a straight talker and her nose is pretty much in everybody's business. And while this is true for most of the book she too had a couple of situations in which she acted a bit out of character and not the way I expected her to. The scene when Vaughn comes back from New York in particular. And again, while these are things that didn't add up in my book I still liked her as a person.

There was a lot to love about this story. Especially the detail of the small town descriptions made me feel like I belonged. As if I were right in the middle of it being another of the nosy towns people, watching Bailey and Vaughn standing off.

I loved the secondary characters and I definitely can't wait to get my hands on Emery's and Jack's story. I'd also like to know what happened to Daliah. I want to go back and read Jess' and Cooper's story. I fell in love with them although they were only side characters.

“I want you to watch out for Bailey. I know you do anyway, but I’m specifically talking about this Rex person.” He narrowed his eyes. “I don’t like the sound of him, Lawson.” His friend took a slow, casual sip of his coffee and studied Vaughn until he was almost squirming.

“Well?” Vaughn snapped.

“I was just wondering.”

“What?”

“If it’s uncomfortable.”

“If what’s uncomfortable?”

“Having your head that far up your ass.”

Altogether this was an enjoyable read and it made me curious to learn more about the town and the people in it. Samantha Young's spellbinding writing held me interested throughout the story and despite all my reservations it did make for a captivating read.

Bailey Hartwell liked a little dirt in bed. No lily-white princess. Loyal. Fierce. Protective. Kind. Strong. Funny. Sassy. Sexy. And goddamn perfect for him in bed.

Rachel Reads Ravenously says

4 stars!

“Vaughn Tremaine may have been a pompous, smug, wealthy, arrogant businessman who thought he was better than me, but he could also kind of be honorable when he wanted to be.”

Bailey is a successful inn owner in Hartwell, Delaware, a small and charming boardwalk town. Bailey has always had a comfortable and safe relationship with her boyfriend of ten years, until she walks in on him having sex with a younger woman. And while Bailey is upset, she's more dismayed that she wasted so much time on the wrong man.

Vaughn Tremaine is the sexy businessman who moved to Hartwell and got on Bailey's bad side right away. For years the two have had a contemptuous banter that had a strong sexual undertone. When something bad happens to Bailey at her inn, Vaughn is there to help her. The attraction between the two is strong, it's just a matter of whether or not they'll admit it to each other.

“I wish you and he would just admit you’re attracted to one another and stop acting like children at recess.”

Samantha Young is one of my all-time favorite authors, I'll read anything the woman writes. The Hart's Boardwalk series is a change of pace for her, but a delightful and sweet series many readers will enjoy. Bailey and Vaughn were a couple I was intrigued by when they were introduced in the previous book, and the heat between them in this book did not disappoint. There was a lot of push and pull, and some frustrating moments, but this couple is made up of two very strong people and it was wonderful seeing them fight for what they wanted.

I think one of the strengths of this series is the side characters, you really get a sense of community when you read about these people. I am dying for Emery's book, and the books of other characters mentioned in this novel. The pacing was a bit off in this book, some very slow moments like the first book. Usually with a Samantha Young book I am able to devour it within a few hours, but this one took me a couple of days.

If you want a romance with complex and powerful characters, this is the book for you. I cannot wait to read

more about this small town and all of the people in it.

“You don’t know how perfect you two are for each other. One ice, one fire, but both stubborn as hell.”

?*Every Little Thing* is the second book in Samantha Young’s Hart’s Boardwalk series. When I finished the first book, I was so ecstatic to get a book about Bailey Hartwell and Vaughn Tremaine. I love that enemy to lovers story line and I could tell that their story would turn into an epic love.

Bailey Hartwell is the owner and operator of Hartwell’s inn and the town princess of sorts. She loves where she lives, her community, and takes pride in her boardwalk. When Vaughn Tremaine first came to town wanting to open a huge hotel and being from the big city, Bailey showed resistance. Although Tremaine proved he wasn’t the big city slicker wanting to disrupt their town, he’s still had some tension with Bailey ever since.

The tension between them is some straight up sexual tension just screaming to boil over. You could feel it with every quip they threw at one another.

“I’m sorry. I have a bad habit of being a bastard to you.” Bailey’s eyebrows rose at his admission. And then something rueful and mischievous glinted in those beautiful eyes of hers.
“Maybe that’s because I have a bad habit of being a bitch to you.”

I just loved these two so much! Bailey is a fantastic heroine. I loved how strong and independent she was. Vaughn is pretty amazing as well. He was a great hero and someone who is loyal and protective to those he loves. I’ve also got to shout out to Vaughn’s Dad- he was just wonderful! I loved the back and forth banter between Bailey and Vaughn. I also loved the connection they shared and how powerful it was once they gave into one another.

Samantha Young’s writing is enthralling and I didn’t want to put this one down. I love the small town vibe, charming characters, and sense of community. Vaughn and Bailey’s story was sweet, steamy, and fiery. It captivated me from the start and I loved the moments of humor woven in. I’m excited for more from the Hartwell bunch (especially Jack and Emery! I’m not sure if their story will be together, but I would LOVE

books for both of them!)

3.5 Angst Filled Stars

Every Little Thing is a standalone and is part of the Hart's Boardwalk series. Think small town with cute people. I really enjoyed Vaughan in Every Little Thing. We got a little glimpse of him and what's not to love, he's a business man from New York and he owns hotels. I love me a successful Hero.

Bailey owns a little inn with her sister and Bailey works really hard to keep her place going. She's a spitfire and independent woman. The tension between Vaughan and Bailey was crazy.

This book was filled with angst. The whole time I was rooting for the couple to get it together. Vaughan and Bailey have feelings for each other, but Vaughan is very guarded. He sees how much his father loved his mother and doesn't want to feel that hurt, should anything happen to his woman.

I really do love the fact Vaughan has such a good role model, but he was frustrating at times. I kind of wanted to tell him to leave Bailey alone if he didn't want to offer her more. Vaughan may be hot and cold, but he is a good man.

Every Little Thing reads easier than The One Real Thing, but I did find that there was a lot of side story. You get a lot of meat on the other characters and how they interact with the main couple. I was rushing to read more of Vaughan and Bailey and when I did get them it was a little treat.

Overall, I enjoyed the book, but I'm not a huge fan of angst. I love it in moderation, but oh boy did Vaughn frustrate me. I still love Samantha Young and I'll never stop reading her books.

Jayme says

4,5 stars! There is something in this series, that it's easy to fall in love with the atmosphere and heroes of this town. I definitely fell in love and I wouldn't mind to spend summer in such a place. Or just more time while

reading the series.

About the plot: Vaughn Tremaine (36.) came to Hartwell to escape his life in Manhattan. He was only there to build a successful hotel, but somewhere along the way the ocean side town became his home. Great influence also had a certain sassy redhead that he liked, but wasn't going to have.

Bailey Hartwell (34.) loves her small inn, community and friends in her town. She is also very protective of it all. So when a wealthy businessman came to the Hartwell, she was less than welcoming. However, it seems that he settled here, and has no intention to stop annoying her.

“There was nothing calming about being this attracted to a man I wasn’t even sure I liked very much.”

My thoughts: It's not flowers and hearts kind of story where the characters fall in love, and together face the problems of life. They don't have easy path and first must fight with each other and their own desires to have some happy after. Because that, my friends is the enemies to lovers story.

The plot a little slowly getting started, but I already liked the characters from the first book, yes even arrogant Vaughn, and maybe just couldn't wait until it explodes between this two. And it exploded great.

“I bet you’ve thought about it. Fucking the hostile Princess of the Boardwalk into submission.”

I really wanted to know what the secret lies behind a cold and distant Vaughn. And Bailey, Bailey is a heroine, who is hard not to like. She is outspoken and has no filter. Their bickering were entertaining, but also sometimes give cold shivers.

As for the chills, I have to admit that I had them all the time during their interactions. Those pleasant and not so much. Just their chemistry worked for me. Not only in the sheets, there are really hot scenes, but also outside of it. You may think that there is lot of angst and frustrating behaviors, but for me it was a fantastic road to love, which had to happen.

“I love you, Bailey Hartwell, because you frustrate me, you annoy me, you bother me, you bewilder me, you make me laugh, you get under my skin, you take my breath away.”

What you just have to admit, is the author in excellent way presents secondary characters and creates around them secrets that you want to explore. Therefore, I have no doubt that I just have to read the next part of this series and just can not wait about who it will be. Although really, any of them promises in a fantastic way.

In summary I recommend this book and the series, to anyone who is looking for opposites attract - but don't want to admit it, kind of stories. Be ready for battle of wits, rejection and indecision, and then you'll be rewarded with sweet and burning hot moments. And of course, an amazing group of friends, which is simply worth exploring.

Every Little Thing is the second book in Samantha Young's Hart's Boardwalk series and not a book I thought I was going to survive waiting for. The story follows Bailey, Hartwell's golden girl, as her life takes a change. She's used to being content but she wants more, and that more comes in the form of Vaughn Tremaine. As much as she wants to hate him she just can't seem to stop admiring him from afar. Even when he's an ass towards her in order to push her away she still wants to know more about him. But Vaughn doesn't think he deserves something as good as Bailey and he may finally hurt her enough to where she won't accept him in her life.

Bailey had me intrigued from when we were first introduced to her in *The One Real Thing* because she was such a happy character and that didn't change in her own book. I loved that she had this infectious happiness about her that made me smile while reading her story. I liked that she never really lost that spirit of hers, even when life wasn't going exactly how she wanted.

Vaughn wasn't a character I would file away as an asshole-hero but he definitely had moments that I wanted to slap him. Then the other side of my brain would wake up and say "Hero being a jerk? I want him" I don't know what it is about these men in books that make me want to jump their bones when in real life I would be kicking them but I'm not going to argue with my needy side. But he wasn't just a jerk, he had a lot of sweet moments that made me swoon even more and I actually loved him with Bailey.

Overall, this is a great addition to this series and now I will sit here and patiently wait for the next. *Did you believe that?* Because I didn't, I'm going to be freaking out until I can get my hands on the next story! I think I know who it's going to be about and I'm so damn curious I could hunt this author down and force her to tell me if I'm right or not.

Ramona says

Samantha Young is one on my favorite writers. Period!! Since falling irrevocably in love with her Dublin Series, I've read every one of her books and could relate so much to many aspects she presented there. Family, friendship, loyalty are only a few of her trademark elements and for that I will always love her stories.

After saying goodbye to my favorite people from the Dublin Series, we were presented with another beautiful family and environment, this time having another background. If you thought Scotland was beautiful, wait until you discover Hart's Boardwalk.

This is the second book from the series and even if I enjoyed Jessica and Cooper together, I had a feeling that Bailey and Vaughn were going to be epic. And my intuition was right. They were amazing and I am very excited to tell you my opinion about it, since I love enemies turning to lovers stories. I believe there is a lot of sexual tension being accumulated and I enjoy reading the way they manage to be together in the end.

As you all know from the first book, Bailey is Jessica's best friend, a wonderful girl that fights with everything she has for the people she loves. She has a beautiful inn on the boardwalk, and although the place is crowded with hotels, her inn is special because of the vintage aspect and homey atmosphere it provides for the people staying there. Bailey had a boyfriend for about 10 years and when he cheated on her, her life is totally unbalanced, having her in a confuse situation. Spending all that time with only one person, managed to make her feel safe and not vulnerable. The passion, traditional butterflies were gone, but she was in her safe place. Now alone, she has to figure out her priorities and what does she want from a relationship. She is very protective over her friends, almost being like the mother hen, but deep inside she was waiting for someone to take care of her, but to make her surrender and just.. live:)

Vaughn.. First, I would like to say that I've imagined so many heroes as Matt Bomer that I think all of them should have his face:) But, sincerely speaking, for Vaughn there is impossible to picture somebody else besides Matt to portrait him. Now that I had this cleared, we can move on:) So, he is a talented and wealthy business man, owns a hotel on the boardwalk and is Bailey's mortal enemy. With the traditional "stick upon his ass" and tailored suit, Vaughn only knows how to work and dedicate himself to his job. He doesn't know how to loosen up, to live a normal life, to have fun, to be in a serious relationship. He has background issues in this category that made him swear off long term relationships, but the moment he meets Bailey, it is like BANG! All his walls came tumbling down and he began to fell in love with her, despite putting on a serios face and being rude to her 24/7.

That was his way of keeping her at a safe distance, for the sake of both of them. As you've seen in the first book, Bailey and Vaughn are enemies, but the only persons that don't acknowledge how good they are for each other are only them. Everyone around seem to see that. When they meet they are explosive, but they manage to keep their true feelings at bay. Vaughn is ironic, Bailey is rude, but they will shortly discover how alike they are. I enjoyed so much their chemistry, like this volcano that couldn't erupt and when it had the opportunity it created a catastrophe. Their scenes were so intense, so passionate, so well written that only leaves you thinking: " It was about time..."

I enjoyed seeing another side of Vaughn, one that was more relax, more vulnerable, more mundane. I liked that he was human after all, with fears, insecurities but also with a lot of qualities. Even if it took a while for him to realise, once he knew that Bailey was the one, the pursuing and way he got to her heart were amazing. I sincerely crushed hard on this man and I think pairing him with Bailey was a wonderful idea. I also loved Bailey as a heroine, mainly because I wanted to have her sincerity and with, alongside with that temper of her. I liked the way she reacted to Vaughn and the way the calculated and balanced Bailey was gone when he was near. I truly admire her for the hard work she put on running her own business, being independent and sticking up to her beliefs. What an amazing pair this guys do:)

As usual, Samantha introduced us to a big family that keeps on expanding, and I know for sure there will be a lot of surprises in store for us. The plot was very dynamic, the scenes were incredibly well written, with humor, love, irony and suspense. I loved the way it evolved, the way a lot of aspects from the first book were presented, making this story almost like a standalone, with its own personality.

For me, this is a 5 star read, and looking forward to meeting Jack and Emery because I am sooo curious about what surprises Jack has for us. I am sure that he hides something, and I truly want an explanation regarding his behaviour. And besides that, it will be interesting to see how he will make Emery get out of her shell.
