Fuzzy Green Things Jennifer Szewczuk

Genius. Wealthy. Lonely. Odd. Sophie Berger spends her free time forming intricately laid plans for world domination. Her guinea pig just died. Her car is falling apart. Her parents ignore her. Her best friend is paranoid that her older brother is stealing Sophie away... and rightly so, because Sophie has been getting goosebumps whenever Andrew is within a hundred yards of her...

Handsome. Sweet. Genuine. Intelligent. Off Limits. These are just a few words that describe Andrew Stevenson, the older brother of Sophie Berger's best friend. He would be perfect except for that last one...

I received this book free through Goodreads First Reads.

I did not like it all that much. Sophie had goosebumps and lifted her eyes more times than I would have liked. The word choice in many places was redundant and she used the same words over and over again. I also was very confused in some places as she skipped over telling us who was speaking in some places, did not introduce characters in others, and also did not always tell the reader when the character left a certain place and then all of a sudden they are somewhere else. This made the story feel very disjointed. It also seemed rushed to me. I will still try the author's other books, maybe it was just this one that was a fluke.

I really liked this short book that I won (free) through Goodreads. It's nice to know even the future ruler of the world can be taken down by the smile from a cute boy. Even if it is the smile on a cute boy who's totally off limits.

Well I tried Jennifer Szewczuk's first book and enjoyed it, so I decided to give this one a try as well, and once again I was not disappointed. This one leaned more toward humor and less toward drama, which was refreshing. It was another fast paced novel that focused on the meat of the story and disregarded the filler and I like that a lot.
