**Timothy Pitkin says**

I do like that they are putting their own twist on Silver who was one of the few rivals in pokemon that while we never knew much about him but he was still pretty unique. Also liked the new character the Masked Woman and the connection they seem to be building with Silver. Also liked that they also show what happened to many of the characters from the Red and Blue arc.

Continuing on from the last volume, Gold and Silver continue to fight with each other, but also tag team in multiple instances in order to defeat Team Rocket, which seems to have resurfaced once more. I really appreciate how this volume changes the dynamic of the two from enemies to rivals. The main plot also is becoming more engrossing with a mysterious new villain, and returning characters.

This book was interesting. The reason is because I was surprised on how the trainer never gave up. Also how these book teaches a moral to not give.

## **Joseph Hare says**

The Gold and Silver saga continues to be thrilling, and a very interesting development is the sudden inclusion of Red and Yellow in the storyline. This volume opens a lot of doors and only closes a small amount of them. I enjoyed these chapters a lot, I really root for the characters and feel invested in their goals and relationships with each other.
