Relentless

Elizabeth Knox

Relentless Elizabeth Knox

Bellamy:

My life was supposed to be so simple; getting the rest of my inheritance at 25. I would invest it in my music career and become history, literally.

What I didn't expect was to find out that everything I believed to be true about my family was a complete lie. I didn't expect to find out that I had a half-sister by my real father; a man that was the devil reincarnate. I didn't expect to find that I had family who had run a criminal MC club in Texas. And I sure as heck didn't expect to be thrown full force into the MC life from the time I walked into Bubba's and revealed who I was. I was no longer a daughter, friend, and singer. I was Bellamy Mason, sister-in-law of the Skulls Renegade MC Prez, and I had a target on my back.

But there was something else that hit me like a ton of bricks too, and his name was Abe "Butch" Warren. And let me tell you, he was a pleasant surprise.

Butch:

She walked through that fuckin' bar just like her sister did. Her red hair flowing down her back, that ass that I wanna take a bite out of. Those were the thoughts I had about her before I got to know Bellamy.

I don't know what it was, but the fuckin' second my eyes locked on hers she was mine. She was pure, she was innocent – she wasn't cut for this lifestyle, and I knew that.

Here's the thing, I'm not cut out for relationships and Bellamy Mason is not a girl you just fuck. She's the real deal, the girl you take home to your momma, the one you lock down as soon as you can.

I was bringing danger to her doorstep, and she had no idea. I knew the risks, and I ignored them. Selfishly, I wanted her.

What will destroy us first; my enemies, or my need to not define us?

Doris says

Bellamy has had a hard life since losing her parents and at her 25th birthday she finds out some shocking news...she has a half-sister she never knew she had. Since Bellamy has no real family around she is determined to seek out her sister and see if there is a possibility of forming some kind of connection. Bellamy has no idea what she is in for when her sister just happens to be a relevant force within the Skulls MC.

There is trouble brewing at the MC so Butch and Slash are put on Bellamy as body guards as she tours the country on her way to being the next big star. Butch is all alpha and feels a connection with Bellamy but is Butch a person who is looking to get tied up with a one woman?

I received this book as an ARC for a freely given and honest review.

Britt Franks Red Hatter Book Blog says

Relentless was my first read from Elizabeth Knox and it certainly won't be my last! A hot, sweet, and captivating story I was quickly sucked into this book and couldn't put it down. Having not yet read the other books in the series, I can safely say this works as a stand-alone. While there were things mentioned I didn't know the history of, I wasn't lost or confused. I was intrigued and already making plans to go back and read the other books. It also means I'll be going on a reading binge ASAP because I'm hooked on this series now!

A rising star, Bellamy has been put through the wringer in life. Working her butt off to make her dreams come true she continues to keep climbing despite what life has thrown her way. Learning she has a long lost sister brings her right to Butch. Butch at first comes off as arrogant and cold, but the sparks between these two are instant and we quickly see the amazing man this sexy biker really is.

The chemistry between Bellamy and Butch is HOT, but what makes this book even better is the romance between them is more than simply hot. It's sweet, it's real, and it will completely melt your heart.

Jos says

Absolutely LOVED it:)

This author has become a favorite over the past couple of months!!!! I adored everything about Bellamy and Butch, they were so perfect for each other.

My only issue was the Epilogue, it was great but for me I needed and wanted more so I hope to see more of them in the future because they deserve all the bells and whistles in life aka marriage and babies, lol.....

PointedlyBlunt says

For sake of saving time, I'm going to write this review as a list.

What I liked: the characters were likable. Butch and Bellamy were ok, nothing special. Slasher was good, though. He was funny and sweet, but sometimes jerkish and grumpy. His behavior seemed the most natural and believable out of everyone in the book.

What I didn't like:

1. It was practically all telling and no showing, which made it so slow and dull that it took me three days to finish when it should've taken one afternoon. Seemingly important scenes kept dropping before anything significant happened, and were always wrapped up with "then we did this and then we did that" type of conclusion. It was very anticlimactic.
2. Butch and Bell's romance was contrived. I never felt the connection or why they even liked each other, especially Bell. She almost never thought of Butch when outside of his company, but was head over heels when he was around. And their insta-lust turned to insta-love was too fast to be believable. Just because the author writes that the characters stayed up all night talking and learning about each other, didn't mean I was convinced. Scenes like that are important to the reader if we're supposed to feel connected to the story. I didn't.
3. So! Many! Exclamation! Points! This is a personal preference, but I get annoyed when exclamation points are used to excess outside of character dialogue. And the quote, "An exclamation point is like laughing at your own joke" exists for a reason.
4. "H-E-double hockey sticks." I looked past when Bell would think "fudge" instead of the f-word, but this was going too far. Just say hell. I realize that Bell's hesitancy to use swear words was a way of portraying her innocence and naivety to the reader, and that brings me to my next point:
5. Sweet, innocent, only-ever-been-with-one-man-and-the-last-time-was-months-ago Bell, doesn't just turn into a vixen during sex, she turns into a professional porn star. They have anal sex two times in the book, and neither time is she prepped or lube used. Worst of all, during one of those times, Butch also fists Bell while having sex outside on his motorcycle. The chick has very little experience and has been celibate for several months, but he manages to get his fist into her while still in her backdoor without any lube or prep? That doesn't happen without some serious injuries and pain.

Just, no.

The woman can take a D in her A while there's a fist in her V, but she's too delicate to even think the word "hell"? That's about as believable as a heroin addict avoiding pot because *that shit will fry your brain*.

6. The writing was bouncy. It had characters going from one situation to another and I had no idea how they got there because the descriptions were too vague.

7. This is me being super-duper picky, but I'll list it anyway. I'm from the Philadelphia/Camden area. They are literally a three minute drive from each other, all you need to do is cross the bridge. Considering Bell and the band she toured with were interviewed by tabloids, I got the impression they were pretty famous. And unless a musician or band is unknown, almost garage band status, never are two shows scheduled in both locations so close to each other.

8. None of the conflicts in the story were resolved. The unsolved murder of Bell's parents? Nothing. The threat of Bell's ex-boyfriend releasing their sex tape? Nothing. Bell's insecurities about the one time she saw a club whore touching Butch? Never discussed. The disappearance of Bones and Reed's dad? They say they're searching for them, but that's it. The aftermath of Bell and Slasher's kidnapping and torture? Yeah, they get out, but I still A) have no idea why what happened happened and B) the club never discusses retribution for any of it. It made no sense.

I'm clearly in the minority here, because I just couldn't get into this book. I haven't read the previous books in the series, and if I had time I would've tried, because even though it's claimed this can be read as a standalone, there were too many references to characters and events from the previous books for me to know what was going on. I plan on trying this author again in the distant future, but it was too sloppy and slow for me to take that chance anytime soon.

Safety: (view spoiler)

I received an ARC in exchange for an honest review.

~~~~~Julie's ??? Review~~~~~

Bellamy lost her parents and learns she has a sister. She is a singer whose ex is determined to ruin her career. When she meets her sister, she gains an entire MC family. They always protect family. When danger comes, Butch and Slasher are sent to keep her safe. This sets things in motion to change her life forever.

Will her Ex be successful in ruining her career? Can Butch keep her safe? Will Slasher be able to get past what happened?

Excellent writing

~~~~~Lindsey's ??? Review~~~~~

This book became my favorite because music was involved. This series has not been like the typical MC series. I think this one was my favorite MC series.

Jes says

Relentless is the 4th book in the Skulls Renegade MC series by Elizabeth Knox. Even though I haven't read the first three books, I absolutely LOVED this book. It was sexy, funny and had just the right amount of drama to keep you hooked.

Butch and Bellamy are two people from opposite sides who fit together and need each other more than they thought. Their chemistry was perfection from the start; loved the way she stood up to Butch as she entered Bubba's for the first time. Then when she came back later that night – HOT!!!

Elizabeth's writing is addictive. I love every character that is part the MC and can't wait to go back to read the first three to fill in some gaps and questions. My heart is broken for Slash right now and I need his story to fix it.

Bex (Beckie Bookworm) says

4 Stars

So "Relentless" is Book Four in the Skulls Renegade saga and it was another worthy addition to what is fast becoming a favourite series for me.

This edition revolves around Elana's newly discovered half-sister Bellamy; a rising star in the music industry and Butch/Abe a member of the skulls who along with Slasher has been sent as hired muscle for Bells protection while she's on tour.

This one's a bit different in as much that Bell has no experience of the MC lifestyle.

She's a lot more naive than previous heroines but what she lacks in street smarts she more than makes up for it in sweet sugar.

Bell discovers after her unfortunate parents' demise that her original origins are something totally different from what she thought and left alone in the world desperately wants to connect with and forge ahead to build a relationship with her newly discovered sister.

So that's the basic gist here Bells goes looking for her sister and with now being connected to a notorious MC Bell gains their protection as a much-needed by-product caused by her new family additions.

So loved Bellamy adored Abe and even Slasher himself started to appeal to my girly giddiness.

Especially now he's gone all dark, broody and imperfect.

He really came into his own here and I'm so looking forward to his story being next up with Reckoning; can't wait for that one.

So, I really enjoyed "Relentless" like a lot and it was so easy to feel and connect with Abe and Bell as they were such likeable individuals that you just wanted to succeed in life's lotto.

I loved that the continuing storyline of the previous novels was also interwoven here with the MC itself in a web of confusion over what has befallen Bones and Will.

This was also off the charts in terms of spice and while I did enjoy Bell and Butch's sexy shenanigans I was also slightly sceptical of the logistics at times given Bellamy's past record was basically her douche ex Zac.

In the end, I just went with the flow and enjoyed myself immensely (it is fiction after all) while also fanning myself frantically; mama mia these two had some seriously epic encounters here I must say.

This had a bit of everything and easily managed to capture and retain my interest quite easily.

This series, in my opinion, does need to be read as that; with each book adding a chunk of the puzzle almost building us a bigger picture.

And as I said earlier; really looking forward to Slashers book especially with how events played out with this one.

definitely a big thumbs up from my corner.

Thank You to the Author for providing me with an ARC copy of "Relentless (Skulls Renegade, #4)" of which I have reviewed voluntary.

All opinions expressed are entirely my own

Keanna Hudson says

Holy feels!! This book takes you on a rollercoaster of feelings. And I loved every second of it. It also has some of the most steamy, yummy scenes ever!!! Dmitri is my favorite biker, but he may have some competition now with Butch!! hehe. My heart broke a few times during this book. Bell is one tough chick, I mean, she's related to Elena so you know she's tough. You learn about Slash a little in this book as well and already I love him as well. I can't wait to learn more about Slashie! lol

Alphas Do It Better Book Blog says

4 stars

Well crap, another author to feed my MC addiction; I need rehab! When Relentless became available for review, I snatched it up and realized that I needed to go back to the beginning; not because the book required it, it would do well as a stand alone, but I'm addicted to MC clubs so I wanted it all. I read the first four books in two days, Relentless being the fourth. It's so good and like my favorite dessert, left me craving more.

Bellamy hasn't had it easy, from her parents death at a tender age to a super-douche ex-boyfriend trying to ruin her career, she's had to grow up and be tough. On her 25th birthday, she gets shocking news...she has a sister she's never known. Now she's on a mission to finally have a family and the career she's always wanted. She never expected to run into a man that wants to battle all those demons and help her catch her dreams.

Butch isn't a soft, sweet guy; he's a big, bad biker and he takes whatever he wants. When Bellamy walks into the bar, he sees just what he wants and with her, we see the sweet, sexy as sin guy underneath all the machismo. Gah, I love these two, they're perfect for each other. My favorite bikers are getting some competition! I also really fell for Slash, whom I really didn't like previously, in this book. He's funny and fierce and there's so much under the surface with this guy.

I have loved all four of the Skulls Renegade books and while they do suffer the serious need of a good editor, they are fantastic. I can't wait to learn more about this badass biker family!

Laila Viking says

I liked the mix of romance, action, drama and suspense in this story. The characters are likeable and well described. The story has a prologue and an epilogue which both are very welcomed. The epilogue finishes the story off in a good way.

I like it is written in dual POV, which gives the reader both the thoughts and feelings of the main characters. That makes the story even more emotional and captivating. The twists and turns are so unexpected that they made it worth the read.

The chemistry between the alpha male Butch and the feisty woman Bellamy is over the top. Their passion is amazing and so well described.

An amazing and enjoyable story that is worth the read!

Catherine Bibby (Rochelle's Reviews) says

(Reviewed by Cathy Stansell of Rochelle's Reviews)

This is the 4th book in the Skulls Renegade MC. I looked so forward to reading this book. I absolutely love MC Romance books because they are always so hot. The thing about this book is it has the sweet love as well. You know what I mean when the guy does the sweetest little thing for his woman and it makes your heart just melt.

This is the story of Bellamy and Butch and its an awesome read. I love the way Butch comes off as an asshole, but then he turns around and turns into a sweetheart. Bellamy has been through some crap but she just keeps on plugging away. She is an up and coming singer and she works her butt off to make it in the business. She thought for so many years that she was an only child. She finds out that she has a half sister. She is determined to find her sister. But guess what her sister is in the Skulls Renegade MC. Lets see what Bellamy can sing her way into with this club?

This book made me laugh and cry. I get into my books that much and Elizabeth Knox makes her books that way. I love the characters so far in this book series and I look so forward to reading the next one.

AC Squared Book Blog says

Having read all four of these books in only 2 days I can see just how much this series has evolved. I think each book got a little bit deeper. Now Relentless was the complete opposite of Revenge and other past books though. I loved that it wasn't set primary at the MC, but we got to see Bellamy's lifestyle and got to experience Butch and Slasher outside of the MC life. Of all of the romances we've seen so far I really think that this one was the sweetest. Bellamy seemed just so innocent and she'd been so wronged by her Ex. I love that Butch swooped in and helped her naughty side come out.

Butch and Bell were something else! I loved these two as a pair so much, because they are so very different.

I love how he helped to boost her confidence, and how she really picked him up. These two were really two characters that were at the end of their ropes and they really helped each other. I also loved how excited he was to see her as a person and in her own light. He was just so confident in her.

Then we got to see how she interacted with the MC. These girls at the MC are the best, they accepted her with open arms! She fit right in and wasn't afraid to be herself. I love how she really let herself go and felt free to be who she wanted to be with the club. This club is truly a bunch of family members and she instantly became another family member they needed. Apart from Butch and Bellamy, I also love the relationship that she developed with Slasher. I really can't wait to see what will come of his story!

Heather andrews says

Butch knows how to put his woman in her place, "I walk over to her, planting my arms on both sides of her legs. "A stranger, with whom you want to do a lot more with, and we both know it. So, let's get this straight right now, Sugar. You and I are not strangers, and we're da*n well not going to be." Butch leaves no room for arguments, "no buts. You want the puppy, the puppy likes you, I want you to have the puppy, and my Ma wants you to have the puppy. So, you're getting a da*n puppy. I'll ask again, what are you gonna call her?" I liked this book, Butch was such a caveman.

Erica says

Relentless is book four in the series and since this is my first book by the author I have not read any of the previous ones, I didn't feel like I was missing anything by not having read them so I'll assume each can be read as a stand alone.

I was intrigued by the blurb and volunteered to review this book but honestly it was a miss with me. I couldn't connect with the characters at all, I tried, I kept reading when I considered stopping hoping it would get better for me but sadly it didn't. If anything towards the end it felt rushed.

There were small things that were left unresolved and that bugs me. The situation with her ex, unresolved. Butch says they'll take care of it then nothing more.

The heroine's naivete was not the least bit endearing either, she went from having been with one man to taking things she wasn't properly prepared for quickly with Butch giving them to her with virtually zero concern. She went from one extreme to the next and not really in a sexy way at all.

The entire relationship just didn't fit, something was missing to tie them together either emotionally or sexually, it just wasn't there for me.

Sissy's Romance Book Review says

Relentless by Elizabeth Knox is book Four in the Skulls Renegade MC series. This is the story of Bellamy and Abe 'Butch'. You really do need to read the other books to fully understand and enjoy this one.

Bellamy had great parents but they are now past away. While working toward getting her inheritance she started her music career. When the last of her inheritance was given to her on her 25 birthday two letters from her parents were there for her too.

In the letter from her mother she learned that the father she knew was not her real father. That he was a awful man who was the Prez of a MC Gang also that she had a half sister.

When she went to find her half sister who was married to the Prez of the Skulls Renegade it put her life in danger. Not from the club or her sister but from a revival gang that might want to hurt her because of her new connections to the Skulls. So Abe was put in place to protect her along with another member. But Abe and Bellamy had sparks fly from the first moment they met...but Bellamy had been hurt before by her one and only real boyfriend...can she trust the biker named Abe?

Loved this book!
