The Scarlet Letter Storm

Mary T. McCarthy

The Scarlet Letter Storm Mary T. McCarthy

The third and final book in the sexy, smart and thought-provoking Scarlet Letter Society trilogy! Maggie, Lisa and Eva, founders of the society return as we discover the final conclusions to their tumultuous love lives. Who is the father of Eva's baby? Lisa is having a hot affair after the tragic death of her husband - will her lover's son accept her? Maggie is divorced (again) and planning to marry her first husband, though a storm is brewing. At a former seafood warehouse on Matthew's Island, there's a secret porn website operation catering to high-end fetish fantasies for women. And the fallout from the swingers' club and drug scandal at the suburban subdivision has reached as far as the island.

But a hurricane is barreling up the Chesapeake Bay, threatening to wipe out not only Maggie's wedding, but everything the women cherish. An unforgettable conclusion to an unforgettable series, The Scarlet Letter Storm rages as a group of women stands together in the face of a catastrophe that could destroy many lives while proving that friendship is the one love that conquers all.

From Reader Review The Scarlet Letter Storm for online ebook

Debbie says

I literally could barely finish this and that rarely happens to me. It felt like a porno at times, random sexual encounters that really never tied into the story. There were a lot of characters she never really built up enough to make it work.

Jen says

Meh. Wasn't my favorite. Wasn't terrible. Just meh. I wouldn't go out of my way to recommend it, but I wouldn't tell anyone not to read it. I'm just indifferent to it I suppose.

Pam says

Sexy finish to a sexy series

If you like hit and sexy steamy love this is the book for you. The third installment of The Scarlet Letter society delivers. The series finishes with a bang. Just when you think McCarthy can't get any sexier or launcher she goes there and if that's your thing then you will love it. If you're not up for a little tiresome or hardcore action. Then keep it moving, Marymac brings the heat for real. And always the cast of friends who could be your own squad with their own problems and foibles. We love them even when they screw up. What are friends for? Grab some wine and possibly an ice pack for the cool down you'll need.

Abby Pechin says

Would have been better to read the first two books before this one. However, I did find that its contents were not to my liking. Then again, I prefer mysteries and this is a drama.

Susan Lance says

Only the first book in this trilogy is worth reading. The other 2 are just not worth it. Everyone either lives happily ever after or dies. I think the author was obligated to do 3 books in the series, but lost interest after the first one. It could have been such a good series - if she had expanded on the other characters (like Rachel).

Michelle says

I was provided an advanced reader copy of the Scarlet Letter Storm in return for an honest review. I've been reading Mary's writing for quite a long time now. I never get tired of her humor and realistic look at the things going on in her life and around her.

If you've read the first two Scarlet Letter Society books then you'll be gnawing at the bit to find out what happens next. So click that Buy button because you will not want to miss the end of the Scarlet Letter Society Trilogy.

Maggie, Eva, and Lisa have been through so much. Lies, love lost, death, and love regained. Not to mention the scandalous affairs of Kellie, Rachel, and Jeanne. Yep, you get to find out what happens to those three in this book. The things I had hoped would happen and what happened are fairly different, but hot damn, this read was a fun ride. Such a rollercoaster (and I dislike rollercoasters) of emotion.

You'll find yourself laughing at Maggie's crass but sharp humor. You'll feel Eva's distraught and hormone-fueled indecision about who the father of her baby might be. You'll be uplifted and smile when you see just how amazing Lisa's life has become.

We can't forget about Zarina and Jo, now can we? Zarina is back and she's started a little side business with Jo that delves into the feminine side of the BDSM lifestyle. Oh yes, you can't miss out on that. You'll be squirming in your seat, crossing your legs, and fanning yourself when reading those parts. sls3cover

Kellie, Jeanne, and Rachel are all moving on as best they can after having their lives torn asunder. Kellie seems to be doing better than the others. She's found new love and even though she hasn't left the suburb behind. Jeanne is back in rigid control even after finding out all the details about her husband's activities. She struggles to hold her head up, but is on the way to becoming whole again. I have to admit, I loved Rachel's secret in SLS2 and hated her addiction problem. I was hoping that she would find a way to fight it. She's on the Island poking her nose into places it doesn't belong again, but gets sidetracked. If you're like me, you'll root for her, too.

In the end, there's tragedy, but there's also new life and happiness. If there's anything I've learned from reading these books the best way to get through life is to seize what makes you happy, but try not to hurt anyone along the way.

On another note, if you've read the first two you've already learned words like Thunder Cunt and Cuntasaurus Rex. Mary doesn't disappoint in this one either with a new word for your SLS Vocabulary! Also, look closer at the image above and you'll see the line that never fails to make me giggle.

Olivia Farr says

"The Scarlet Letter Storm" is the third book in a series. Although it is part of a series, I found it easy to read as a stand-alone- all the characters are given context and key events are recapped. The Scarlet Letter Society is a group of women having affairs. It's easy to become engaged in their torrid affairs and relationships.

The writing was well paced and moved nicely. However, the dialogue was a built stilted at times and the sexual scenes (I would classify it as a romance) were pretty awkward in my mind. That being said, it was fairly engaging and pretty quick to read.

Please note that I received this book through a goodreads giveaway. All opinions are my own.
