Beautiful Illusions Addison Moore

Sometimes the past comes back to haunt you—in the most heartbreakingly beautiful way.

Gavin's story.

I fell in love hard and fast as lightning. As quick as she came into my world she was gone. Demi said she has secrets—that she's done horrible things. Who hasn't? I'm not going to let the past determine our future. Sometimes love lays forever at your feet and sometimes you need to fight for it. Demi is worth every damn battle we'll have to go through. I'd burn down the world just to keep her safe. And, after what I've discovered, I just might have to. All I need with Demi is one more night to convince her we're worth it. And that one night is going to cost me everything.

Janet says

Heartwarming and sexy

What a tale. Whew. Ups. Downs. Murder. Lying. It's the whole gambit of mystery, terror, and very hot sex!

Gavin and Demi share a secret neither of them knows. They are drawn together in a most unusual way and fall for each other hard. Demi is full of lies and contradictions and Gavin wants to protect her.

I enjoyed the story very much and like how all the rough edges and wrongs were righted in the end. Good does prevail in the end.

Surbhi says

Ahaha,,, GRAVIN <3 damn i loved him :D

super awesome guy.. so swweet and he just had that caring and loving character tht made readers fall in love with him :) completely great.. it was so sad n terrifying to see what demi went thru :(but in the end, all was good ;) so glad for that!

Heather andrews says

Our girl Demi likes to speak her opinions, "has anyone ever told you that you've got balls the size of this mountain?" She's panting and far too impressed with what just happened." There was one scene that had me laughing at Demi and her interpretations of Gavin's words:

"Perfect. Let's take a quick ride." She glances down at my jeans as if I just asked her to hop on.

"Yeah" - her lips part as she eyes my crotch with heavy lids - "let's do it."

Gavin is every girl's dream he's willing to do anything for his girl, "tell me everything, Demi. I'm ready to slay giants for you, and I can't do that if I don't know what or who I'm up against." I loved Gavin he made this book for me.

Kristin Bennett says

Gavin! Who doesn't want a man like Gavin! He's smart, hardworking, caring & sexy as hell! He's in the right place at the right time to meet Demi.

Yes, Demi is the typical damsel in distress but she's got attitude & spunk! She's caught Gavin's eye from the start & what a head rush it will be when they touch!

I loved this book! It gives you the information that no life is perfect! And, all types of people can be together.

Shawna Shauntia says

Congrats to Addison Moore on her latest release that I can not wait to read

Nook Books and More Blog says

I am so blown away with this book! The second installment in the Beautiful Oblivion series... Beautiful Illusions is a MUST READ!! Theres ever emotion you can grasp! There's humor and snark, love, romance, and passion, and twists and turns that had me guessing till the very end which is truly a talent in its own! I loved every last minute but of course Addison blows my mind at every book she writes.

Emmy has had a rough life to say theleast. Her mother died giving birth to her and she lost her father as a teen, so she was forced to live with her step mother and step brother, this kid of reminds me of Cinderella because they where just bad to her. She finally embarks out on her own as adventure of just surviving and doing anything to make sure she can. But she runs into an incredibly HOT guy... Gavin Jackson! Omg how can she resist this guys major HOT here! He's had it rough too but usually he gets what his after. He lost his parents in a car accident leaving him to raise his sister. He works hard to take care of all her needs then he runs into Emmy! Be prepared to have a romance of a life time on this one!

This book immediately sucked me in. I couldn't put it down from the start. I was in love with the charcters because they make you feel such a belonging in there little crowd. The writing just flows through your mind signing to your heart. The love and romance will warm your soul and create desires you thought you haven't seen in a while.

Addison Moore is so talented an manages to sing to my heart every single time

KEN HAS THING CALEB. GAVIN AND DEMI GO CABIN. MAKE LOVE.

THE END

Natascha Housen says

**** 3.5 STARS ****

Laura Jobmann says

Wonderful Read

Although the first third of the book was slow, as the story evolved it provided some crucial information to set up the foundation of the last two thirds of the book. It was a heart wrenching story about two people who have been broken and with each other find the will to live life together after being put back together. I cried and rejoiced at the various twists and turns in the book. I highly recommend you read it.

Neilliza Swaffar says

The story about two lost souls, finding each other in their sad pathetic lives. Both just living to exist, but not living life like they should. This is a short and sweet story of their love affair. The love that they both deserved, that they never thought they would find.

Demi was living the life she never wanted, living in a house selling their body for mine. Something she never thought she would do. At first she was just an escort for the rich, to be a date to the dateless and it was never sex. Until one day when she was basically given no choice. Selling her body was never something she imagine would do, until she was given no choice.

The day she met Gavin, was suppose to be the first day she was opening her legs for money. Dress as a maid

with her duster, she finds herself looking at a very delicious man. Gavin thought his friends were playing a joke on him, but later they find out that she walked into the wrong place. Also introducing herself as Emmy. Instead of letting Emmy walk out, he invited her to a party. He knew by just looking at her shaky frame, that was probably her first day in that kind of business. For some reason he felt connected to her and he wasn't ready to let her go. He wanted to save her from the life she was living and wanted to protect her with whatever she needed protecting from. That was the night when their love affair began...

Demi ended up staying with Gavin, who gave her his world. After weeks of being together and taking things slow..they fell in love. Gavin as sweet as pie, he didn't have much to give...but he gave Demi everything he could. Everything was perfect, until Demi found out something that could tear both of them apart. Instead of facing the problem head on and talk to Gavin, she did what she does best...she ran.

Will Gavin look for her or just let her go?

Will Demi be ok without having Gavin in her life, after she tasted what real love really felt like?

Read and find out.

This was a nice short read, I enjoyed reading about these two characters. There was no dancing with their feelings, they were both straight forward with their attraction for each other. Especially Gavin, he didn't hide anything..he wanted her the minute he laid eyes on her. I loved that about him. He also wasn't made of money, but will do anything for her, no matter what he has to give up. Love love Gavin.

Countrygalssexyreads says

Beautiful Illusions

"Beautiful Illusion", by Addison Moore, was a tragic tale of two people who meet each other by happenstance. Gavin and Demi have so much in common it's scary. Both have experienced personal tragedy by losing both sets of parents. The similarities of their personal stories gets even crazier as you read. They both drown their sorrows in meaningless human contact in order to fill the void of their losses.

For Demi, I don't think I would have necessarily taken the path that she chose, but everything happens for a reason. When you read her story you see that it's completely understandable that someone would travel that rocky road that she embarked on. Gavin, chose a similar path to help soothe his inner demons. I loved Gavin's determination to make Demi his woman. His pursuit is something that every girl wants in their life.

Trust is a major issue in a relationship and without a solid foundation, it's hard to build the rest. Gavin proves himself worthy by all his tender, noble actions. Their connection was far more powerful than any of their meaningless hookups in the past. As the story progressed I got angry with Demi. I was shouting in my head, " What is wrong with you girl?! He's so amazing." But it was clear Demi's demons were far greater than even Gavin thought they were. The plot was well written and very unique. I love reading a story that is not predictable. This was definitely one of those stories.

Addison Moore never fails to create a complete story with well thought out characters. It's amazing that

people can experience such tragedy and still come out the winner. Love is a bond that is not easily broken and Gavin and Demi's story proves just that. Get the book and fall into a "Beautiful Illusion."

Tammy Hamilton Green says

Addison is truly one of my very favorite writers and she definitely brings it in Beautiful Illusions. Both Emmy (Demi) and Gavin have lost their parents tragically and have secrets, but fate has brought them together, and it won't be denied.

Siobhan Davis says

This is the second book in this series and on this occasion the story centers around Gavin and Demi. We met Gavin in the first book, but this is our first time meeting Demi.

Demi has had her fair share of knock backs in life - she has lost both her parents and had to deal with an evil stepmom and a thoroughly nasty stepbrother. She's been on the run for the last few years and is barely treading water. She ends up in Loveless out of desperation and accidentally bumps into Gavin. I think it's fair to say it was pretty much love at first sight for both of them.

There was a good twist about 40% into this book that I didn't see coming. Love when that happens.

This book has it all by the bucket load - hot romance, steamy sex, angst, torment, drama, betrayal, suspense, intrigue, revenge, pain, and longing.

The writing was superb and I loved both main characters and all the other side characters that made a reappearance in this book. The men in this series (except Warren Jnr. and Snr.) are totally swoon-worthy - the obligatory movie star knock-out looks mixed with strength, compassion and an all-or-nothing type attitude when it comes to the women they love. Aw, love it! Gavin was willing to give up EVERYTHING for Demi and it was so endearing, but Ace still has my heart. :)

This book lost a star for me in the last quarter. I'm not sure what happened really, but it was almost as if the author ran out of time or steam at the end and just rushed it. There was a really great subplot that was totally glossed over and I felt it should have been fleshed out in greater detail. Then it got a little repetitive with both Demi and Gavin talking about love, fate, how they were brought together etc. over and over again. It had already been said on previous occasions and it was overkill, not necessary. The only other thing I didn't like was how easily Warren appeared to be forgiven for what he did to Reese in the first book. So not cool. This is a serious subject matter and in my opinion it warranted being treated as such.

However, it was still an excellent read and I'm totally hooked on this series now.
