### **Tayler K says**

I have no idea why I didn't read this when I got it as a gift a few years ago. But anyway, it's a very simplified retelling of the movie's plot. The illustrations and coloring are GORGEOUS.

### **Sylvia says**

I know that the Little Golden Books summarize movies into books just for kids, but they left out so much and changes some of the story line.

It's alright for what it is, A Little Golden Book, for kids.

A heart-warming story about the mother-daughter relationship, Brave makes its mark as the next big Pixar production and gives little girls a hero of their own to look up to. Princess Merida does not want to marry much to the displeasure of her proper mother. Defying an age-old custom of engagement, the controversy threatens the kingdom with chaos. Merida turns to a witch to help, but the magic doesn't go as Merida expected. Now Merida must face danger and adventure with her mother who was afflicted by the spell. To counter the curse, Merida must learn what it means to really be brave and the importance of family.

It is not the same story as the film. my son enjoys both for their awesome Princess and the mean bad guy bear who the mom saves everyone from. He's 4 and thinks its great.

### **Karalee Hoge says**

The e-book version of this story follows the original text. In this one the reader is greeted with bagpipes and can be read to or choose to read on their own. If the reader chooses to be read to, the narrator is the same voice as the mother in the filmed version, and it highlights the words as they are being read. It is a condensed version of the story and the illustrations mimic the hand drawn art in the film. Overall a beautifully put together app to encourage young readers.

### **Nikki says**

This book tells the whole story of Brave but it could use some work. The pictures are awful and the writing isn't done very well. This is not a very good book. I would recommend other books for fans of Brave.

### **Holly Letson says**

This was a decent story. I like Merida alright, too.

### **Ashley says**

A condensed version of the Disney movie about Merida. Alice was very concerned with Queen Elinor turned into a bear. She has not seen the movie but loves to roar.

### **Alicia says**

This jumped from event to event without going into much detail. I have not seen the movie, but I now know the basic plot. I heard the movie evoked emotion, this book does not.
