Great Stories

Books 6-9 from Feehan's Ghostwalkers series are just as intense as the first five in this series. Book 6 is Preditory Game which features Jess Callhoun and Saber Wynter, Jess was in book two Mind Game. Saber Wynter is his lady of the story. Loved this story, Feehan gives us humor, suspense, fight scenes and we get to see Jess's team members in action.

Book 7 is Murder Game is Kaden's story, Kaden was first mentioned in book one and makes an appearance in almost every book but six. Kaden's story is intense, loads of suspense, the sexy time between the sheets will melt panties. Murder Game is one of my favorites of the series. I loved Kaden and wanted his story for years. I have read this book many times.

Book 8 is Street Game and Feehan will introduce entire new Ghostwalker team, which is Team three. Mack is the male lead, he is all Alpha and Jamie is his leading lady. Feehan gives this couple explosive steamy scenes. Team three has great characters and I hope one day Feehan will give us Javier and Rhianna's story. Book 9 Ruthless Game is set around team three, main male character is Kane and his leading lady is Rose both were in book five Deadly Game Ken and Mark's story. Kane and Rose's story is a beautiful story but it has suspense that keeps you on the edge of your seat.

Absolutely loved each of these books, I have read each numerous times and I call in love with them all over again. Feehan is one of my favorite authors, I love each of her stories but her Ghostwalkers Series pulls me in the most. If you have read this series I highly recommend it but I feel they need to start at Book One Shadow Game and then read the rest. This is a paranormal military romance series. Happy Reading!!!!

OK so this may be my favorite series of all times. I love that it has both strong women and strong men. You are in the edge of your seat, you feel for these characters, it's hot! You want to be in there to kill the bad guys yourself. I wish she would write more.

Must Buy

I'm a huge fan of this series. This pack is worth it because you will want to binge read or re-read the GhostWalkers.

Paulette Nelson says

The mind is all things possible. The enhancements are handled by men and women that were given the drugs of a mad man. I'm glad that they are Luton their own, or are they? We just wait and see. I love how relatives are with the town and the sisters
