Juan-Jacobo Bajarlía

Drácula, el vampirismo y Bram Stoker Juan-Jacobo Bajarlía

The supernatural appeal of Stoker's *Dracula* continues to hold readers spellbound more than a century after its initial publication. This work by Bajarlía is an important precedent in the study of vampirism. Through forceful and direct language, he analyzes Stoker's vampire-triad. This essay includes four additional, unpublished chapters that serve as a crucial part to this retelling of a classic.
