Shock Francine Pascal

When Sam disappeared, I thought the pain would kill me. Now that he's back, I'm thinking I had it wrong. The pain's not gonna kill me. He is.

Lucie says

Not loving this one. I'd been enjoying revisiting this childhood favourite series right up to book 25... but the last two have flopped, this one particularly so. The plot seems to have gone past unlikely and into the bad soap-opera realms of the ludicrous. It's as if FP has decided on the spot to turn a couple of trusted characters into traitors in an ill-advised attempt at plot-twistery. It doesn't work - she ends up contradicting a lot of earlier events in the series, or giving unsatisfactory explanations in an attempt to mollify the devoted readers. Maybe she's assuming that by book 27 some readers haven't read or have forgotten the earlier storyline? I was disappointed. Nevertheless, based on the strength of the first 25 I will persevere, bring on no. 28! Fingers crossed for a redeeming read.

Edward Creter says

Gaia's sitch is getting worse and worsen. Not only has she lost Ed Fargo as a boyfriend and friend, her father may be actually dead, and her Russian stepmother could be the death of our plucky heroine yet. I wish there weren't so many soap opera-esque plot twists like who should come back from the grave or who should we turn into a bad guy. It's a little old and very depressing.

Russty says

Good book... Read way out of order, only my second by this author(happened to find it lying around in some books I was about to donate), but plan to go back and try them all. Don't know if I'll make it back to #27(if my library even has it), but gonna give it a shot... Gaia is a very interesting character, with some of the sub-actors not far behind, and looks like many more are introduced in the interim. Should be interesting!!!

Laura Hedrick says

Another one of my thrift shop finds, & another one that's late in a series where characters have already been developed. Gah! I read it long ago & looked for the rest of the series but never found it. (yes, even as an adult I liked it--I have been a Francine Pascal fan since Sweet Valley High #1 when I was in 6th grade)

Alisha Brook says

Title: Shock

Series: Fearless (#27)

Author: Francine Pascal

Genre: Teen Fiction

Rating: 3 stars

I enjoyed reading these when I was younger. It was a good, short read with a great concept. However, it was very predictable.

Gaia was an awesome character, easily relatable even if she was more special than most. She still had her flaws, and in the book she was finding herself as a young woman.

Jennifer Worry says

This series just gets better and better with every book. Sadly I don't have the rest in this series so I'll have to go out and find them now.

Terresia Thompson says

loved it. i been waiting to read the next one. very soon though

Donna says

The whole "Gaia trusts someone, they betray her, cue angst" formula has worn a little thin
