Theresa says

a graphic novel associated with the graphic cartoon series of the clone wars. owned by my son

Willis says

this book was totally awesome

Kim says

I thought that the book was great! Even though I am a "STAR WARS" lover-that's not why I liked the book. I liked it because it was "action packed, explosions galore!" One reason I liked(/loved)it is because it's a "decide your destiny" books.

Brenna says

THIS BOOK IS AWESOME!!!!!!!!!!!!!!!!!!!!!!

Ruari says

Good read!

Revol Koob says

I didn't actually think there were books like these... 'Twas a dream come true to read such, and it wasn't even that bad. It was fun playing with the many different choices and seeing their impact, which sometimes wasn't the kind I wanted. It's not fun to read yourself screwing up all the Rebellion's fancy plans...

Jeri says

This one was a better story than the first one. It made you feel as if you were the central character having the adventures (which is what it is supposed to do) and it had great vocabulary for the boys. We're on to number three.

Hanna says

Tämä oli oikea pelikirja! Aivan mahtava! Rakastan näitä! Erittäin viihdyttävä

Menee vinkkaukseen 3.-9. -luokkalaisille. Miksei lukiolaisillekin, koska Star Wars sopii kyllä kaikille!

Mikey, one of my sixth grade students offered me the opportunity to read one of his favorite books, The Clone Wars. He was so enthusiastic about them because they had alternate endings. I'd only read one other

book like this and it had been when my son was in fourth grade. That was about fourteen or fifteen years ago. Mikey proceeded to take me through the book and tell me which endings would end up bad and why I might want to make a different choice. I am glad he shared it with me. It was a fun book and to see the enthusiasm in his eye was worth it. When I returned the book to him I told him that I would not have made a very good leader as I was given that choice from the test I took at the beginning of the book. It seems no matter how many times I read the book and made different choices, somewhere along the road I got myself or my men captured or worse. I can understand why these books keep kids reading. I would definitely recommend this type of book to my students. I would like to publicly thank him for enthusiastically encouraging me to read his book.
