## **The Wicked Big Toddlah Goes To New York** Kevin Hawkes

The world's largest toddler is back in a wickedly funny and outrageous sequel to *The Wicked Big Toddlah*.

Toddie and his parents are just your average Maine family taking a trip to New York City. Sure, things are a little different for wicked big Toddie—he can pick up a fire truck and paddle over to the Statue of Liberty.

But when Toddie accidentally gets separated from his parents and ends up lost, he acts just like any other baby would act—he's scared and he wants his Ma! Will Toddie be reunited with his parents?

Kevin Hawkes once again proves his versatility as both a talented artist and a gifted storyteller in this hilarious sequel that is equally easily enjoyed on its own.

## **From Reader Review The Wicked Big Toddlah Goes To New York for online ebook**

### **Alyson (Kid Lit Frenzy) says**

Didn't realize that this was a sequel which would explain my confusion at the beginning of the book. However, I think I would still have mixed feelings about this one even if I had read the first book. The illustrations are fun and really bring the story alive, but still thinking about this gigantic toddler's adventure in NYC while on vacation with his family. I mean really - how can parents lose a giant toddler???

---

### **Antoinette says**

So I read this book *before* Wicked Big Toddlah, and I admit I was a little confused until I read the first one and got up to speed. I'm kidding--it's a kids' book! Like the original, it's pretty standard picture-book stuff, but it's still fun to read, even if there isn't as much opportunity to show off your Maine accent as there is in the first one.

---

### **PWRL says**

A

---

### **Laura Salas says**

Funny story. Sly sense of humor.

"Would you all like to go to the Museum of Natural History with us?" the children asked.

"Ayuh," said Toddie.

They saw elephants and blue whales and even a Tyrannosaurus rex!

"Nice doggie!" breathed Toddie.

---

### **Jennifer says**

This was a wicked cute book and I like that him and his family are from Maine.

---

### **Jodie says**

I thought it was just ok.

---

### **Tobinsfavorite says**

This is probably a two-star book, but I'm deducting one because I wanted to like it a whole lot, and I just didn't care for it at all.

---

### **Nielson says**

Toddie, the wicked big toddlah, goes to New York with his family. Everything is perfect...until Toddie goes missing. Will this gigantic toddler ever find his family in the big city?

This was just a confusing book to me. Granted, I didn't read the first book (this is a sequel) but I think that I would have been just as mystified. First of all, the idea of a huge toddler didn't click with me; second of all, a huge toddler getting lost from his parents didn't settle with me either. Then, as they are a family from Maine, I imagine they were speaking with an Eastern accent but the language felt inconsistent and sometimes I didn't even know what they were trying to say. Not a fan, there are better books to spend precious library money on.

---

### **Chris Young says**

He's big, he's a toddler, and he's in New York. How you lose your giant toddler in New York city is beyond me, but the titular protagonist reacts as any regular toddler would. He's scared and wants his parents back. Snoozfest.

---

### **Brittany says**

It rarely happens that I like a second book better than the first! This was too cute!

---

### **Laura Elisabeth says**

Didn't care for the parents' lack of interest in their child or the use of Toddlah's language (and his lack of a proper name). Nice illustrations, though.

---

### **Edward Sullivan says**

Silly, lively fun.

---

**Relyn says**

This was one of those books that felt like it should be funny, but somehow, just wasn't. UGH.

---

**Katie Fitzgerald says**

No review.

---

**Nancy says**

Toddie goes to New York and sees stahs (stars), other toddlahs and a homah (homer) at a baseball game. Definitely one of the cutest children's books evah.
