Being one of the last Lakeland bears to mate, Bryce isn't too happy when he finds out the man fated to be his has covered his scent for years. Tired of Ahm shimmering in and out of his life, Bryce finally puts his paw down and demands Ahm make a choice. Either be with him, or never show his face around Bryce again.

Ahm shimmers away.

Ahm is the revered leader of the Shadow elves. His tribe is grounded deep in tradition, and turns their backs on anyone who mates outside their race. But when Ahm finally tells his cousin that he has a male shifter for a mate, the tribe calls a hunt on Ahm's head.

With a cursed bracelet on his wrist and nowhere to run, Ahm calls for help. What he hadn't expected was a clan of bears to come to his rescue.

But Bryce isn't a part of the rescue party, and he isn't so sure he wants Ahm around. Can the two find a way to work out their differences before the tribe finds Ahm, and can Ahm find a solution to a growing problem in his tribe before his beloved race becomes extinct?

Man, my heart broke for Bryce. Did Ahm really apologize or grovel enough? Not really. He put Bryce through hell. I am NOT a happy camper. Nope. But, I did laugh once they were together. They were fun, but I wanted more from Ahm.

Bryce and Ahm. Wow. Didn't see that one coming. I wasn't ready for it to end though and I laughed my ass off at the "names" they came up with and the garlic spray bottle under the pillow. HA!

Okay, all of my reviews for this series have been super short or no review at all. I PLOWED through this series. I think I started it on the 5th of November and it is now the 10th. Yes, that means I have read 31 books in 5 days. I am tired. I can't say this was my favorite series, but it was super addicting. It was fun and cute. The Alphas were hot and protective (overbearing at times--buckling them in their seat belts, etc.) The mates were young and dumb, but some were fierce and stubborn. I loved seeing all the species (timber wolves, grey wolves, tiger shifters, ocelot shifters, vampires, fey, demons, shadow elves, wood elves, hellhounds, half-breeds). There's a little bit of MPREG, kink, and mates with stories that will make you cry--well at least I did. Late in the series we meet some rare breeds such as a buffalo and rhino shifters. Those stories are told in Brac Village series, which I will start tomorrow.

Lo amé. Bryce y Ahm sin duda, aparte de Nicholas y Jason, son mis personajes favoritos de ésta serie.

This was good, but a couple of things kept me from truly enjoying it.

1. I never understood the sudden change of heart of Ahm. He'd gone years and suddenly he couldn't deny his mate.
2. The stupid names. I realize it was supposed to be cute and funny, but I found it annoying and not funny at all. It actually ruined most scenes that could have been romantic or moving.

Rachel says

I liked the story except I found that the characters could have been developed a little more. It was like

watching a Tyler Perry movie. A long time to build up to the point of the relationship actually getting somewhere then the book suddenly rushes through.

Looking at Ms. Hagen's portrayal of Ahm throughout the series has made it seem kind of unbelievable that his character would suddenly change and settle into ranch life. Yes he was lonely & alone but it just seems too sudden a change. I was kinda disappointed. Yet I find myself still looking for more. The pregnancy was a nice twist & his relationship to Christian was unexpected yet believable since Panahasi is the creator of these races anyway.

[Another one of the miscommunication trope that I don't like very much but I felt it par on course with Ahm's personalities. (hide spoiler)]

Nina says

The author is contradicting herself. Near the beginning of the book she wrote how Ahm spied on Bryce ever since he found out that Bryce is his mate and that he'd gotten to know him pretty well from afar, I read over a half a book now and Ahm is regretting how he never stuck around his mate enough to get to know him.

Aren't elves immortal? I don't see how Ahm's race has dwindled down to under a thousand considering this fact and the fact that they're usually a peaceful species, which Ahm claimed several times. I do know they were at war with Wood elves but it's my understanding that they were dominating since Carter went to procure a peace of land from Maverick for his people to escape Shadow elves to. There was no complete explanation given as to their near extinction because even with the babies dying and women avoiding getting pregnant they should still be a thriving race.

What kept bothering me throughout the book was that there was no mention of how Bryce even figured out that Ahm was hiding his scent?

Regardless of everything I had a laugh and a cry which is what I look for in a book, to tug at my emotional strings.

Ahm's reason for ignoring and refusing his mate seems ridiculous. What I mean is, not so much the 'reason' but refusing to TALK or EXPLAIN anything to his mate, just making decisions without giving Bryce a chance. He consistently hurts Bryce.

I liked this one. There were cameos from the other characters but not so many that you got the feeling they were taking over the story. Ahm and Bryce had a tough road to travel, getting over prejudices, misunderstandings and miscommunications but the two of them prove that fate never gets it wrong.

I confess that I wasn't all that excited for this book simply b/c I wasn't all that fond of Ahm due his characterization in some of the other stories, plus I had been really hoping that Abe was going to be mated to Bryce. I just adore that little guy and it's obvious that he's lonely and it kind of breaks my heart that he's going to be at the ranch surrounded by all those couples and everyone is going to have their mate and he's going to be alone—even more so than he was before :(

The plot twists in this one universe just keep coming and we get a pretty big one with Ahm and his connection to another character in this one. I have a feeling before it's all over there are going to be a lot more secrets being brought out into the light of day.

Mae Hanley says

Riley Lackland has met his mate, Ahm the Shadow Elf. Problem is - Ahm has covertly been rejecting Riley for years, and even if Riley wasn't fully aware at the time, he now knows the lengths Ahm went to in order to keep their being mates from him.

The writing at the beginning seemed very juvenile to me, very unlike the other the folks in Brac Village, even if they are funny as hell.

Valió mucho mucho mucho muuuucho la espera! Me encantó. Al principio odie mucho a Ahm; ¡Hasta llorar me hizo! Pero luego fue recuperando mi corazón.

A pesar de que estos libros suelen ser cortos la autora sabe enfocarse y amo que estos hombres rudos sean tan tiernos :3

Ame a Bryce completamente! & Ame las últimas 10 páginas con esa super noticia! ¡Quiero muchos muchos más libros de la familia Lakeland! *.*

Con un profundo gruñido, Chauncey metió la mano debajo de la almohada y sacó una botella de spray. ¡En serio? El hombre no le había estado mintiendo. Ahm tenía que luchar contra la risa. Chauncey Lakeland

dormía con una botella de spray llena de jugo de ajo.
«Qué cobarde».

JAJAJAJAJAJAJAJA lo mejor fue ese final tan gracioso! Pobre Chauncey xD

Shortstone says

For the 31st book in a long line of books, the template format continues. I am wondering if this author, as well as several other popular authors, just have a fill-in-the-blank story document on their computers. They fill in character names, throw in a relationship obstacle, flesh out a little character development, and introduce a couple of new story lines that won't get addressed until some future book (gotta keep that money coming in with an extended series). Usually the first couple of books are better but after that it is the same format over and over. Please give me a developed book for my time and money! Is that too much to ask for? Before I open these types of books, I know the main characters are going to end up together. I like romance and happy endings. But these series of books lately don't have any closure. I like series. I like seeing characters reappear and new story lines for them. I don't like that authors are not putting any effort into finishing the story lines they introduced themselves in order to rack up a book count for more sales. They aren't even cliffhangers, but flat out ignoring issues that are part of the relationship for the characters the book is supposed to be about! One of the best series I've read is the Cut & Run series by Abigail Roux. Now that is how a series should be written.

Another adventure with well known characters in Lynn Hagen's Brac Pack's Series. I was disappointed that Ahm's character seemed to change, from a stern mysterious warrior leader to someone who is squeamish over birthing critters. I did like the relationship between Bryce and Ahm, their banter was entertaining. The final encounter was somewhat anti-climatic though.

Well, I delved into the Braverse a 2nd time and now there are 121 books - yikes! I loved this Universe the first time I read it several years ago and now I love it more, I really do, but I've only been able to read these series (and I have expanded to all the books that are currently out in each):

Brac Pack
Christian's Coven
Zeus's Pack
Demon Warriors
The Exiled

These are the series that start the Universe. Reading them in order is a must. Each book has it's own love story but there is an underlying story that plays out throughout them all. As you get towards the end of these series, other series come into play and I noticed that, since I did not read them, I missed some of the characters being mentioned (good and bad) but I was still able to follow because the main ones stay the same.

One day I WILL buy these and read them all!!! (For the correct order, just look on the Internet for Lynn Hagen Reading Order):

Brac Village

Shadow Tribe

BPNG (Brac Pack Next Generation - Brac Pack kids)

The Remus Brothers

Wolves of Desire
