Amber's Allure: An Erotic Intentions Book Evie Harrison

As far back as the records of Jacob Channing's family go, no one has ever gotten divorced. That's because each and every Channing was lucky enough to find their soulmate-- and most of them found their partner early.

At thirty-two, Jake's just about given up on the whole thing- until the night he goes back to work to grab a file and finds the girl of his dreams shaking her hips while cleaning his office.

Amber never believed in soul mates until she met a certain tall, dark and handsome CEO. This pancake-loving cleaner is about to find out that happily ever after arrives when you least expect it.

This steamy insta-love novella will melt your heart and your reading device!

****For a limited time I've included Sweet Like Candy and Sin's Temptation in this ebook. I hope you enjoy Jake & Amber, Ryan & Julia and Jordan & Natalie!**

Erotic Intentions novellas are quick and easy reads. They're your go-to when you need a happily ever after but don't have days to spend locked in a story. There is no conflict or drama- just love and romance!

These sensual novellas are best enjoyed with an open mind and a smile.？**

Love me some Jake and Amber!!!

This is my favorite Evie Harris book so far!!! Jake and Amber were so awesome from beginning to end! Sometimes reading a story with no angst that is just a story about a couple meeting, falling in love, having over the top HOTT Sex and creating a life together is what you need. This was that book for me and I was totally in the mood for it so it was perfect!

I loved the cute way they came together. I was happy with the insta love. I loved the way they became a couple and the epilogue was fantastic!!!

This is a great novella with a cute story and some steamy loving!!

4.5 'Alluring' Stars

Evie Harrison (aka Ella Fox) gave us yet another delicious sugary sweet smutty read, perfect to satisfy your craving for a feel good, insta-love and steamy hot read!

Jake has been looking his whole life for his destined soulmate, until one fateful night he finds her cleaning and shaking her booty in his very own office, of all places. Needless to see he does miss a sec, and immediately starts sweeping her of her feet (lol), and captures Amber's heart, in the most swoonworthy of ways. Amber never believe in love at first sight nad happy ever after, but all it took was one look and one touch from Jake to make her believe.

Amber's Allure is the perfect smutty treat for those of you who love to indulge in beautifully written, fast paced, low-to-no angst, insta-love short stories, topped of with a sweet and hot epilogue! Totally addictive! Can't wait to see what EA gives us next! <3 <3 <3 <3 <3

“Amber’s Allure,” he murmured.

“Huh?”

He looked up at me and grinned devilishly. “It’s my very favorite fragrance and I know it’s going to be a lifetime addiction.”

Ps. OMG, I forgot to mention you get all THREE books (previous two included in this one) for close to one dollar!!! All this smutty delicious compiled in one book! Need I say more?! Get it now!

If you are looking for a quick read with insta love and no drama this is so the book to read. I’m enjoying these short books as it helps keep me in my reading flow. Sometimes getting back to the basics of a guy meets girl, guy falls in love with girl brings you back to when you first started reading. The meet is always so cute between the characters and there is always just something about the man finding his virgin love. Brings me back to my days when I wasn’t so choosy. HAHA

Jake and Amber live two different lives, but once eye contact is made its clear to see that they have an instant connection. Jake is head over heels in 5 seconds and Amber wasn’t far behind him. Evie Harrison does well at keeping things simple and the flow of the book seamless. Her men never hesitate to go after what they want and seal the deal before the girl can even blink.

As far as I'm concerned - perfection!

This book hit the spot for me. Safe. Sweet . And oh so very sexy.

- You CAN have a hero who is not a manwhore
- You CAN have a romance that doesn't have ow/om
- You CAN just enjoy a story about falling in love that isn't angsty

- no cheating
 - no ow/om drama
 - older man/younger woman
 - no pushing away
 - sweet and hot
 - great epilogue 6 years out

This is the third book by Evie Harrison and so far I've really enjoyed all of her books and I hope she continues writing them. Jacob Channing is 32 years old and the CEO of his family's company, Fragrance Allure. He has a younger brother and two sisters who have all found their soulmates but he's still single. Amber is 23 years old, when she was 13 her Mom moved to Iceland with her fifth husband. She had no other family so she moved in with her BFF, Caroline, who lived with her Grandma. She works at night cleaning offices and during the day she babysits Caroline's son, Macon. Caroline's husband is in the military and he's stationed overseas and she's finishing her degree during the day. Jake left something in his office one night and when he goes there he's mesmerized by the beautiful woman singing and dancing while she cleans his office. Amber is caught off guard by the gorgeous man who catches her making a fool of herself in his office. Jake's Grandmother always told him he would know his true love when he found her and he wasn't so sure until he looked into Amber's eyes.

These are Jake's thoughts when he first meets Amber :

IT WAS AS IF FOR THE FIRST TIME IN MY LIFE MY HEART, SOUL, MIND AND BODY WERE ALL ALIGNED AND IN AGREEMENT ON THE VERY SAME THING.

Actual Rating: 4.5 Stars

This was another well written, consuming, and enjoyable read by Evie Harrison. It was short, but I couldn't get enough of it, or what these two characters shared!!! This author blends the best amount of heat, swoon, connection, and fire and I loved it! I felt and loved and enjoyed every bit of this book and I can't wait for more from this author!! If you're looking for a quick read that will give you it all, then be sure to get this great novella this second!!!

These little insta love stories are like a box of chocolates: sometimes they are good, sometimes they are not. This one was good and hit the spot!

Liz says

Not bad, but it was like reading the back cover copy of a book. It was so short and had absolutely no drama or conflict to resolve.

It didn't even feel like I'd started reading before it was over.
