Nice...but too short!

Wynn says

Short and steamy. Hunky Lincoln is John Zane's bodyguard (Blurred Lines Volumes 1-4) who gets away from his kinky boss to hook up with Mindy, a Hollywood makeup artist, who lacks self-confidence – until the she spends the Christmas holidays with “Link”.

AngelinaT says

I am a fan of the whole Blurred Lines series so reading this little extra sure was like a Christmas present. It gave us a better glimpse of Lincoln (Zane's bodyguard) and his rendezvous with Mindy the make-up artist. It was sexy and it still left me wanting more from these characters! Love the nickname he finally picked for her...his little Minx!!!

Sónia Tigol says

I really like this short story.
I loved the love story between Lincoln and Mindy.
This book was very good.

Michele Adams says

This book is an add on to the Blurred series as it is the story of two of the supporting characters from that book. I was really excited to read this book to find out what finally happens to Lincoln and Mindy but it fell short.

In the conclusion of the Blurred Series you get an ending but all you get in this book is a closet meeting with a chance for more. It was sweet don't get me wrong or let me take the wind out of the book but I was hoping for something more on how these two character's future intertwine with Zane and Candece's.

Stacey says

I loved this short little number. As always a great kinky read from Breena. Now, we have to have more from Link & Minx! I sure do hope we have a full book about them after this lush snippet.

Stefanie Minshew says

If you love blurred lines:

Getting to know a little about Mindy and Lincoln is so worth this short ready if you are a blurred lines fan! I will not miss a story in that series and anything extra about the characters is a huge plus in my mind. It's great to see a tender Side of the bad ass body guard of John Zane.

I hope readers will take the time to read the series that first introduces us to mindy and link

Meagan Hunt says

So happy this book exists! I love love love Lincoln. I seriously hope to see more of these two, I think they deserves to have their own HEA!

Sheila Lord says

What a great Christmas short story I guess I'll need to check out this series

Nicole says

I love when other characters in a series get their turn, very cute, but too short they deserve a full length novel

Rachel says

I loved this quick little read about Lincoln and Mindy.

Christine says

I enjoyed this short, sweet and hot glimpse into Mindy and Lincoln's relationship. The discovering nicknames and each other fit well for these two. The Christmas carols were a perfect touch for the holidays. I can't wait to read more about these two and their blossoming relationship.

Jessica says

The short story was fairly good. I didn't realize it was number 8.5 in the series. I wanted to read this story, because it's near Christmas time. I didn't quite connect with the characters as much as I would like, because this was the first book I read in the series. It almost could have been a stand alone short story, but it just missed the mark for that purpose. There were about 2 typos per chapter. Those are the only reasons I didn't rate this quick and erotic read 5 stars.

Arielle says

2.5
