Julianne Macneil says

I read this book as part of an arc program. I really loved this book, I thought Becka was a strong woman who knew what she wanted for a career and was working hard to finish college. Becka was approached by one of her professors and told there would be a guest lecturer that she should attend because he was the CEO of a research company she had recommended Becka for an internship. Oliver was a very successful billionaire and when he meets Becka, he wants to offer more than an internship. They have coffee then go out to dinner and Oliver makes his intentions known. Becka is also attracted to Oliver, but tells him if she accepts the internship, they can't continue their affair. Oliver is not happy and soon, they can't stay away from each other. Things are moving along fine until Becka is approached by Ethan, a man in her ethics class, with information that Oliver is guilty of animal testing. Soon Becka begins her own investigation and she doesn't know who is telling the truth. I enjoyed this book and I was unsure of how was the good guy and who was the bad guy. There were a couple of twists and at times I didn't know what was true. This book keeps you guessing and the scenes between Becka and Oliver will heat you up. Good Book!

Becka?? is a graduate student working on her dissertation and a project of creating an alternate, safer substitute for aspartame artificial sweetener.

She's a very smart young woman, but maybe a little naive when a uber handsome guest lecturer, Oliver????, makes a play for her.

Oliver??? is a 40ish billionaire, the owner and CEO of Nueotova, a top food science corporation. Becka?? would fit right into his research department as a paid intern.

But that doesn't happen right away. Right away, Oliver???? comes on to her, he finds her a wonderful, refreshing change to the socialites? he's had to be seen with for business functions.

Becka?? is drawn into his dominant personality, he doesn't take no for an answer! She thinks she is having a say but he skillfully manipulates her at every turn. He is also such a skillful lover???, she is swept off her feet.

Becka?? realizes he is also a skillful liar. He never tells her anything about his family, but there must be something he's hiding. She begins to do secret research on Oliver????, and on his company!

First off I want to say I freaking love this book cover. He is one fine specimen. Yummy! Second off I was so excited to get this ARC from Sarah. She is one of my favorite romance authors. I can say that she did not disappoint with this one! I think that this might just be my favorite book of hers to date.

In this book Becka is working on her dissertation in the food science and nutrition department. Her thesis advisor Dr Evans wants her to attend some seminars in her classes to meet the CEO of Neuotova Oliver Weeks. She thinks that she could get on as an intern for Neuotova.

Becka attends the seminar the first night and WOW! Oliver Weeks is the hottest man she has ever met. Holy shit! He is so hot she doesn't know what to do. It makes her nervous as hell. But she ends up introducing herself on the second night.

Oliver is teaching these seminars as a favor to the college and his friend Dr. Evans. She wants him to meet a woman who would be the perfect intern. She is being sought out for her thesis publication and only has a few chapters written. She is extremely smart and has high marks. Well she definitely has the interest for his company.

When the gorgeous woman with black hair in the crowd catches his eye he hopes that this is the woman that Dr. Evans wants him to meet. On the second night when she introduces herself he is ecstatic. "How could I not notice; she stood out like a piece of gold among hunks of rusted tin."

So Oliver pursues Becka. She weakens around him and can't help but fall for him hard. Whenever he is around she is drawn to him and when he is not around she misses him like mad. But when a stranger named Ethan shows up and brings accusations against Oliver, she doesn't know what to do. Things are so confusing and she doesn't know who to trust anymore. Is Oliver who he says he is? Or is Ethan the mastermind of all the doubt she has?

This book has all of Sarah's flare and more. She really did up her game with this one. I was up all night reading it. I could not put it down. I was on the edge of my seat the whole time. I loved how you really won't know who the bad guy and keep you guessing till the end of the book. She really played the characters deception well. Ethan and Oliver are quiet the pair of mysterious hot guys fighting over Becka. It is full of secrets, thrills, chills, romance and hot sex from start to finish.

I absolutely loved the book even though I didn't care for the title. I didn't think it went with the book theme well enough. But the actual book is amazing. Not to mention the hot as sin man on the cover. Oh La La!

I really love Sarah's books. She has a beautiful writing skill. She really does a billionaire romance right. She has the perfect mix of sex, romance and drama. Her books are never rushed and flow flawlessly. Her character development is unique and draws her audience into the story. Her stories are entertaining and exciting bringing the world of romance to a whole new level. I guarantee you will love her books as much as I do. So what are you waiting for? Pick this book up now and get reading. You will not regret it.

Wow. Loved it. Well written book with great storyline and plot. A bit different than the usual billionaire romance books. A 5-star review without doubt. Amazing writing style.

A story about Rebecca and Oliver. He is a billionaire. Rebecca is a student with her interest in nutrition. Oliver has an instant attraction to her but he has a lot of baggage to escape. But I love their journey towards their HEA. There is drama, family issues, passion, emotions, hot scenes, twists and lots of chemistry in this amazing story. The twists makes this story different that expected. A really sweet romance. Would have liked it to be longer.

Lots of chemistry and hot scenes. I like the main characters and how they develop. The story flows nicely and it is very captivating from first to last chapter. I like it has an epilogue. The author has delivered a story that is worth the read!

I received a copy of this book and am voluntarily leaving a review.

This book kept me hooked since the first moment. Well, not since Chapter One because it started a little slow for me. but once it hook me it didn't let go until the very end.

I really enjoy books like this because they made me forget about the world around me for the time that it takes to finish reading ***smile***

Becka was a smart woman and I liked the fact that she didn't let Oliver get away with much. She took her time but she also press him when it was important. Except that last part that landed her in the hotel room, bad idea.

Oliver's a sexy, strong and interesting character. He changed his views and grow in my eyes in this story. I like that he took responsibility for his actions, even though a little late in my opinion, but he did it and that's the important thing.

The sexy parts ***fan herself with a hand*** the sexy parts were steamy hot and I have no complains what so

ever, not sir... or ma'am.

I'm trying to keep spoilers out of this review but damn. The twists and turns this book took were really something. The plot was great for me and the intrigue got me right there at the edge of my sit.

This is not my first Sarah J. Brooks story and I'm glad to see that it keeps it up with the great writing and the interesting characters.

If you like thrilling romances with twists that would leave you guessing alongside the main character, you have to get this book.

Surprise at every corner

The story starts out as a fairly typical billionaire and smart grad student falling in love. Then the story goes to a whole another level as surprise after another comes out. Until the end, you'll be unsure of what to believe as the truth, just hoping all will end well. This is not a short novel but a fairly lengthy one with lots of plot twists, characters you can connect with and with lots of heat and romance. Quite enjoyed this one.

♥?Fantasy Land Blog Book Reviewer♥? says

So this is a full length novel by Sarah. Its a good story, with a more insta-chemistry between Becka and Oliver. The story is a slow burn after their first sex scene but the heat is still there. Lots of mystery from Oliver's past comes to light that might upset his and Becka's future.

There are some pretty good secondary characters. I voluntarily read an advance reader copy for my honest review.

I love character driven stories and that is what you get with this latest release from Ms. Brooks. Becka is a university student who is invited to attend a lecture with billionaire CEO Oliver Weeks of Nuerotova De and her life starts to change. Once the lectures have concluded, she is asked to intern for Oliver in his company's

lab and her mentor, Dr. Evans, asks her to assume some teaching responsibilities at the college. There is a devilishly handsome man attending her class and she winds up going out with him. This leads to a conflict where Becka begins to have feelings for two billionaires but which one is telling the truth? This story combines elements of suspense, lies, intrigue, surprises and most of all hot chemistry with very sexy scenes. Once you start reading, you won't put it down.

I volunteered to read an arc for a review.

Becka and Oliver are leading us on a journey full of intrigue, twist, and turns but never fear their steamy and sultry chemistry keep you plugged in page after delicious page. Becka has worked in the hopes that one day she will be able to really change the world. Working hard towards her dissertation she hopes to get position with one of the leading Food Science companies making the world a better place. When her thesis advisor sets up a guest lecturer that could be an amazing contact for Becka she cannot wait to meet the illustrious Dr Oliver Weeks. Oliver proves to be brilliant, funny, charming, and oh so handsome. For some reason the CEO Billionaire seems quite taken with her both for her mind and her body. He wants her interning with Neuotova and he also wants her for himself! Oliver is a busy man with millions of priorities and dating really isn't one of them. He is fairly consumed with his work both public and private and lets that fuel him. When he raven haired beauty catches his eye while guest lecturing at the college he is transfixed. Something about Becka calls to him and he cannot ignore it. Her smart mind and killer body have him down for the count, but there is just the matter of some well honed skeletons in his closet that could spell doom for this relationship.

What an enjoyable read! **Dangerous Daddy** is filled with mystery, intrigue and plenty of romance. I have to say I was kept guessing along just as long as Becka was. This book is very well written with such great characters that I felt I had to finish this book. I love when a story is so good that I'm thinking about it well after I'm done reading.

I would definitely recommend this book to anyone who enjoys a little mystery with their romance. It is worth every bit of your time.

Dangerous Daddy is a standalone novel with a guaranteed HEA.

I love it when there is a bit of mystery, intrigue, and danger in stories! Becka is a graduate student, working on her dissertation. Her advisor suggests she meet with a guest speaker (Oliver), whose company, Neurotova, is a possible place of internship for her. Becka is also teaching night classes, and meets Ethan, a charismatic student who alerts her to unethical happenings at Neurotova and she decides to do her own investigations. As she gets in deeper with Oliver, she finds it harder to know who to trust, especially as she is attracted to both Oliver & Ethan. Everyone has secrets, and the drip fed partial truths actually put Becka and her best friend/roommate Lisa in danger. I enjoyed this slow paced story, and the intrigue. There were times when I wondered about the H and his actions but they made sense later. I liked that Becka still behaved as a young grad student, going out with her friend on mini holidays & parties, despite her non-possessive boyfriend.

I received an arc of this book and have voluntarily reviewed it.

Becky Claxon says

This book is very good. It had me guessing until the end who was the good guy and who was the bad guy. Every time I thought it was one person, then something would happen to make me think it was the other guy. Becka Jasper is working on her dissertation in food and sciences. She is very smart as well as attractive. Dr. Oliver Weeks comes to the college she is going to school and they end up going out together. She eventually works for him while working on her dissertation and teaching at the college. Ethan Hernandez comes to one of her classes and talks to her afterwards. He is very attractive and charismatic. He tells Becka that Oliver isn't what he says he is and has used animals to rest with. Unfortunately there isn't a lot of information out there and Oliver and Ethan have different stories. This was shush a good book that kept me on the edge of my seat. I strongly encourage you to read the book. I voluntarily read an Advanced Reader's Copy of this book.

MJM says

Sarah J. Brooks is on my favourite authors list as she pens story after story that make me want to keep reading and re-reading her books as they are so good. They are always just that little bit different from what's published at the moment and with so many secrets and lies floating around you may feel like Becka, completely bemused and confused. Becka is a student interested in nutrition as her Mum died as a result of poor nutrition. She is really a research student and her tutor Dr Evans suggests that she attend one of her guest lecturer's talks as he is CEO of a major food company that is international and deeply involved in research too and if she's lucky she could get an internship with them. But when Becka meets Oliver,[tall, handsome enough to take your breath away, gorgeous, built, sexy eyes and with enough charisma to make it sinfull] she is very attracted and can't remember what he said! The next lecture she introduces herself and this is where the real fun begins as he can't keep his eyes off her and is bewitched by her as she's nothing like the women he's used to as she's beautiful, shy, intelligent and not after his billions! The air between them sparks with the heat and chemistry between them that just grows every time they see each other. But, just like the Garden of Eden, there is a viper in the midst that goes by the name of Ethan who is equally as handsome as Oliver but I wouldn't trust with a dead dog as the saying goes.!! Ethan made me so mad and I wished Becka would see him for the evil man that he is sooner than she does. But both Oliver and Ethan are keeping

secrets from Becka as well as the rest of the world. Whilst her heart is pounding for Oliver she gets so confused by the deceptions and the only way to find out what is true is by reading this amazing story. I did like the way we "heard" the POV of Becka, Oliver and Ethan as it really built up the tension and had me wondering what was going to happen next. As it's by Sarah, you know that you're in for a well written story with developed characters and full of surprises that aren't obvious and will keep you on your toes and turning the pages as this is one book that you won't want to put down. Suffering from lack of sleep as I read this in one go but it was well worth it. It certainly deserves more than 5 stars. Get this as it will keep you entertained and guessing - just remember to have on your fan /air con as the passion between Oliver and Becka is hot and steamy. I also thought her best friend Lisa was a great friend to have even though I don't know how she could afford to buy so much on a student [I know that I couldn't have] and Raymond was a very loyal and great man to have around to help! I received an arc of this book and voluntarily leave my honest review of it here.

DEFINITELY RECOMMENDED.

Get this as it is a **MUST** read.
